Address — WISEMAN'S Horticultural Establishment

AN EVER-GROWING GIRGLE

Of Customers is the best proof of our growing popularity. Since the last issue of this Catalogue we have added considerably to our stock of Forest Trees, &c.—our Nurseries (which are all connected with Warehouse and Offices by Private Telephone) now containing upwards of 20,000,000 Larch and Scotch Fir Plants alone, and with all other varieties we are equally equipped for meeting the season's demand, having what is probably the largest stock in the whole of Europe!

During the half century we have been in business, these Nurseries have grown to be the largest in Scotland, and our customers number nearly a quarter of a million. Our success has, of course, been largely influenced by the fact that Trees and Plants reared up here in the Scottish Highlands are sufficiently hardy and vigorous to thrive under the most exposed conditions. All our trees are sparsely planted, and therefore well rooted, stout, and robust.

We forward these plants to any part of the world, and our method of transplanting and packing prevents injury and weakening during transit. We supply H.M. Government regularly with Trees, Plants, Seeds, &c.; also the Belgian Government, Royal Botanic Gardens (Edinburgh), Kew Gardens, &c. Last season we had the honour of supplying H.M. The King with a large number of Forest Trees for the Royal Estate at Sandringham.

Elgin."

OUR TERMS.

Notice to Occasional Customers.—

To keep a mass of petty accounts for small orders causes great inconvenience and loss; *we must, therefore, request pre-payment of them.* No customer should feel offended on this ground, as it is not a question of giving credit, but of book-keeping. In making remittances, be careful to send sufficient to cover the amount of goods ordered.

TERMS OF CREDIT.—We wish it to be distinctly understood that our terms of credit are *three months only*, but in order to encourage cash payments, we are willing to allow 5 per cent. (1/- in the £) discount for all remittances accompanying the order, or made within 14 days of date of invoice. Accounts paid after the above mentioned (14 days) date must be remitted in full. No discount can be allowed when special prices are given. Small amounts may be remitted in stamps, but no receipt will be sent for sums of 1/- and under, unless a stamp is enclosed to cover postage.

CARRIAGE OF GOODS.

Forest Trees.....	Carriage forward.
Fruit Trees.....	Carriage forward.
Fruit Bushes.....	Carriage forward.
Ornamental Trees.....	Carriage forward.
Ornamental Shrubs.....	Carriage forward.
Game Covert Plants.....	Carriage forward.
Climbing Plants (in Pots).....	Carriage forward.
Herbaceous Plants (in Pots).....	Carriage forward.
Herbaceous Plants (not in Pots).....	Carriage paid.
Rose Plants (Orders of 10/- and over)....	Carriage paid.
Rose Plants (Orders under 10/-).....	Carriage forward.
Rose Plants (in Pots).....	Carriage forward.
Hardy Heaths.....	Carriage forward.
Tree Seeds.....	Carriage paid.
Game Covert Seeds.....	Carriage paid.

SPECIAL RATES.—I will be glad to give Special Prices for Large Quantities, either carriage paid or carriage forward as desired.

WARRANTY AND COMPLAINTS.—I have the utmost confidence in all that is listed in the following pages; but, at the same time, I wish it to be distinctly understood that I neither give nor imply an absolute warranty as to description, quality, productiveness, or any other particular; and no complaint can, under any circumstances, be entertained unless made immediately on receipt of goods or invoice. I endeavour *always* to supply goods in first-class condition, but I cannot accept responsibility for failures resulting from weather, after treatment, and other circumstances which I cannot control, and I cannot undertake to replace any plants, but at the same time such great care is exercised in my establishment that I feel the risk of such errors has been reduced to an irreducible minimum.

Full value will be allowed for all Hampers, Bags, and Boxes, if returned *at once, in good condition*, carriage paid, and with sender's name attached, and a post card sent announcing the despatch.

6 Plants of one variety are charged at dozen rate.
25 Plants of one variety are charged at 100 rate.
250 Plants of one variety are charged at 1000 rate.

All goods are offered subject to being unsold or in stock on receipt of order.

All goods are forwarded at purchaser's risk, unless ordered to the contrary, as this reduces the carriage considerably.

EDWARD WISEMAN

SEEDLING & TRANSPLANTED FOREST TREES

To meet the demand for our **HARDY FOREST TREES** we have again considerably increased the area devoted to their culture at our Pinefield Nurseries and our Wards Nurseries, where we grow a very large quantity of Forest Trees (of Larch and Scotch Fir alone we have many millions), comprising all the best kinds for Forest and Estate planting. The Highlands of Scotland is famous for producing the Hardest Trees in Britain, and plants and trees removed from our Nurseries will succeed when planted in cold and bleak situations. Our Nurseries are the largest in Scotland, and we cordially invite inspection.

Special Prices will be quoted for large quantities.

Prices are liable to variation as the season advances.	Per 100	Per 1000	Per 10,000	Prices are liable to variation as the season advances.	Per 100	Per 1000	Per 10,000

**WISEMAN'S SPECIAL SEEDS
FOR GAME COVERTS & GAME FOOD**

For Sowing in Autumn or Spring.

	Per lb.
AIRA CÆSPITOSA (Tufted Hair Grass). A very suitable grass for Game Preserves, growing in large tufts or hassocks, affording excellent harbour for hares and rabbits; and by the side of lakes, for snipe and water-fowl	1 0
AIRA FLEXUOSA (Wavy Heath Grass). A very suitable grass for moor-lands and peaty soil, where it grows naturally	0 5
AMMOPHILA ARUNDINACEA (Sea-sand Reed or Mat Grass). Well adapted on account of its strong creeping roots, for fixing or consolidating shifting sand, for which purpose, mixed with <i>Elymus arenarius</i> , it is principally used to prevent encroachments of the sea	1 6
ARRHENATHERUM AVENACEUM (False Oat Grass). A strong growing grass, suitable for sowing in plantations where a coarse herbage is wanted for game coverts	1 0
BRACHYPODIUM SYLVATICUM (Wood Wheat Grass). Grows in moist shady woods, where it thrives, forming a coarse herbage, suitable for game coverts	1 0
BROMUS GIGANTEUS (Giant Brome Grass). A grass of coarse luxuriant growth, for game coverts	1 0
BROMUS INERMIS (Hungarian Forage Grass). A strong growing deeply rooted species, suitable for all kinds of soil	1 0
BROMUS SCHRÆDERI (Schræder's Brome Grass). Although this yields a large bulk of foliage, its cultivation does not increase as an agricultural plant, for which it was originally recommended. The herbage is very coarse, and only suitable for game coverts	1 0
BROOM . Grows in almost any soil, and is chiefly sown for game coverts, and to ornament embankments, etc. If sown alone 20 lbs. to 24 lbs. is ample seeding for an acre	1 3
BUCKWHEAT . The seed of this is much liked by pheasants and partridges, and it should be sown extensively near their preserves. It forms capital cover in summer, and in autumn supplies abundant food. Sow 2 bushels per acre. Finest English grown seed	0 6
ELYMUS ARENARIUS (Upright Sea Lyme Grass). This grass is extensively used to repel the encroachments of the sea, for which purpose its creeping matted roots, and readiness to grow in sandy soils affected by the sea spray, render it suitable	2 0
GORSE or FURZE . This forms capital cover for Game, and grows in almost any soil. It is also used for hedges in mountainous districts, for which it is well adapted, and the young shoots when bruised are excellent food for cows. Sow 20 to 24 lbs. of seed per acre	2 0
MILLIUM EFFUSUM (Wood, or Spreading Millet Grass). Found in woods and copses, and frequently in rich alluvial soils, composing the sloping banks of rivers, where it usually attains the height of from 4 to 6 feet. Valuable for game preserves	1 0
POA AQUATICA (Water Sweet Meadow Grass). Yields an immense bulk of coarse but nutritious herbage, especially in damp situations where flooded occasionally by fresh water	2 0
POA FLUITANS (Floating Sweet Meadow Grass). Grows naturally in pools, ditches, and rivers. Thrives well even when constantly in water, or in meadows under frequent and regular irrigation. Ducks and other water fowl search eagerly for its seeds	1 6
REED CANARY GRASS (<i>Phalaris Arundinacea</i>). Perennial. Flowers in July. Root—Creeping, sending out large fibres. Straw—Rough, 3 to 6 ft. high. Seed—Affords agreeable food for many kinds of wild fowls, as well as to carp, trout, and other fresh water fish. This grass is suitable for marsh land, banks of rivers, and sides of lakes. It greatly assists in drying wet marshy land, and in the course of four or five years has turned useless land into fertile meadows. In its natural habit it is welcomed by sportsmen as a splendid cover for water fowl, snipe, etc. When the leaves are young and succulent it gives a good bite to cattle	4

Wiseman's Famous Mixture

OF

GAME COVERT SEEDS.

I OFFER

YOU

THE

BEST

MIXTURE.

It is no vulgar boast when I say this: I am a Specialist in Game Covert Seeds and Plants, and fully recognise the serious character of such a statement as I have placed on the margin of this page. Apart from ethical considerations, it would be a poor business policy for me to deceive or mislead a possible customer. A moment's reflection will convince you that the profit on a single order is quite inappreciable seeing the value that I offer. A stock of 20 Tons and 20,000 Customers prove how large a part "repeat orders" and "recommendations" play in my gigantic business. I therefore ask the reader, in all seriousness—*Could I have gained so many regular, and permanent Customers by making statements which my deeds did not substantiate?" If I press for a trial order, it is because I am conscious of offering more than a *quid pro quo* for your money. Although my price is so low I again affirm my Mixture is the "Best."

TREE SEEDS.

All Seeds are offered subject to being in Stock or procurable. Many of the varieties that are collected abroad have to be received from our Collectors after receiving the Orders.

We have Special Collectors in all the principal Tree Seed Districts in the World, and when they find that the Seeds are not of a good germinating quality they do not collect, consequently Customers can rely upon all being of the best quality.

We are the Largest Tree Seed Collectors in Britain.

	Per lb.	Per oz.	
<i>Aesculus rubicunda</i>	3/-	5d	Flowers of a rich scarlet colour
<i>Ailanthus glandulosa</i>	2/8	5d	Known as the "Tree of Heaven"
<i>Alnus glutinosa</i>	3/-	5d	The Common Alder
<i>Ampelopsis Veitchii</i>	8/-	9d	Beautiful self-climbing plant
<i>Araucaria imbricata</i>	13/-	1/1	Known as the "Monkey Puzzle"
<i>Berberis aquifolium</i>	3/8	6d	Excellent for Game Coverts
<i>Berberis japonica</i>	12/-	1/-	Extremely ornamental variety
<i>Berberis vulgaris</i>	3/-	5d	The Common Barberry, very pretty
<i>Berberis vulgaris purpurea</i>	6/8	8d	Beautiful purple foliage
<i>Betula alba</i> (Birch)	2/10	5d	Largely grown in Highlands of Scotland
<i>Cedrus atlantica</i>	11/-	11d	One of the most striking of Park trees
<i>Cedrus atlantica argentea</i>	12/-	1/-	Strongly recommended for Avenue planting
<i>Cedrus Deodora</i>	11/-	11d	Admirably adapted for a lawn
<i>Cerasus domestica</i>	2/10	5d	Very pretty variety
<i>Cercis siliquastrum</i>	3/4	6d	Flowers bright purple
<i>Clematis vitalba</i>	3/4	6d	The "Travellers' Joy"
<i>Crataegus Oxyacantha</i>	3/-	5d	Very ornamental tree
<i>Cryptomeria japonica</i>	7/-	8d	Rapid growing tree, pyramidal shape
<i>Cupressus Lawsoniana</i>	7/-	8d	These will grow in almost any situation
<i>Cupressus Lawsoniana argentea</i>	12/-	1/-	Foliage almost silvery white
<i>Cupressus Lawsoniana aurea</i>	13/-	1/1	Foliage bright yellow
<i>Cupressus Lawsoniana erecta</i>	10/-	10d	Compact growing variety, very ornamental
<i>Cupressus Lawsoniana glauca</i>	10/-	10d	Foliage glaucous blue
<i>Cupressus Laws. pyramidalis</i>	12/-	1/-	One of the best sorts
<i>Cupressus macrocarpa</i>	9/4	10d	An exceedingly handsome Cypress
<i>Cytisus (Laburnum)</i>	3/6	6d	A well-known deciduous tree
<i>Erica vulgaris</i>	24/-	1/9	The Common Heather
<i>Fagus Sylvatica</i>	3/4	6d	The Common Beech
<i>Fraxinus excelsior</i>	3/-	5d	The Common Ash
<i>Hydrangea paniculata</i>	3/6	7d	Beautiful flowering shrub
<i>Ilex aquifolium</i>	5/8	7d	The Common Holly
<i>Juglans nigra</i>	2/10	5d	The Black Walnut
<i>Juniperus communis</i>	2/10	5d	The Common Juniper
<i>Ligustrum japonicum</i>	3/4	6d	A robust-growing evergreen shrub
<i>Ligustrum vulgare</i>	2/10	5d	The Common Privet
<i>Magnolia grandiflora</i>	7/4	9d	Magnificent climbing plant
<i>Philadelphus coronarius</i>	30/-	2/1	White flowers, resembling orange blossoms
<i>Pinus abies</i>	2/8	5d	Handsome tree
<i>Pinus alba</i>	20/-	1/6	The White American Spruce
<i>Pinus alcockiana</i>	34/-	2/4	Alcock's Spruce
<i>Pinus amabilis</i>	34/-	2/4	Most ornamental of all Silver Firs
<i>Pinus australis</i>	30/-	2/1	Handsome variety
<i>Pinus austriaca</i>	9/4	10d	One of the most ornamental Pines
<i>Pinus balsamea</i>	12/-	1/-	The Balm of Gilead Fir
<i>Pinus canadensis</i>	30/-	2/1	The Hemlock Spruce
<i>Pinus cembra</i>	2/10	5d	Swiss Stone Pine
<i>Pinus concolor</i>	24/-	1/9	Beautiful species with yellow bark
<i>Pinus Douglasii</i> —Price on application	One of the best forest trees
<i>Pinus excelsa</i>	12/-	1/-	Commonly called "Norway Spruce"
<i>Pinus Fraseri</i>	22/-	1/7	Double Balsam Spruce Fir
<i>Pinus grandis</i>	30/-	2/1	Handsome tree of symmetrical habit
<i>Pinus insignis</i>	12/-	1/-	Remarkable Pine from California
<i>Pinus Lambertiana</i>	20/-	1/6	One of the tallest of all Pines
<i>Pinus laricio</i>	7/-	8d	The Corsican Pine
<i>Pinus Larix</i>	Price on application	The Common Larch
<i>Pinus Larix leptolepis</i>	Of more rapid growth than the ordinary Larch
<i>Pinus Larix siberica</i>	The Siberian Larch
<i>Pinus maritima</i>	8/4	6d	Pinaster or Cluster Pine
<i>Pinus montana</i>	8/-	9d	The Mountain Pine
<i>Pinus nigra</i>	42/-	2/10	Black American Spruce
<i>Pinus nordmanniana</i>	6/4	7d	A magnificent and stately tree
<i>Pinus Picea</i>	4/-	6d	Red Norway Spruce Fir
<i>Pinus pungens</i>	38/-	2/7	Resembles Scotch Fir in habit
<i>Pinus strobus</i>	22/-	1/7	Weymouth Pine
<i>Pinus sylvestris</i> —Price on application	The Common Scotch Fir
<i>Prunus myrobolana</i>	3/-	5d	Makes a magnificent hedge
<i>Pyrus communis</i>	7/-	8d	Common Pear
<i>Pyrus communis</i> (from Wild Pears)	7/4	9d	Similar to above
<i>Pyrus malus</i>	6/-	7d	Wild Apple
<i>Quercus Ilex</i>	3/-	5d	Evergreen Oak
<i>Quercus coccinea</i>	3/4	6d	Scarlet Oak
<i>Retinospora pisifera plumosa aurea</i>	34/-	2/4	A beautiful golden variety
<i>Rhododendron catawbiense</i>	12/6	Pretty varieties
<i>Rhododendron ponticum hybridum</i> , fine mixed	42/-	2/10	Splendid for Game Coverts
<i>Rhododendron ponti. maximum</i>	42/-	2/10	Strong growing variety
<i>Ribes sanguineum</i>	2/6	Flowers deep rose coloured
<i>Rosa canina</i>	2/8	5d	Dogrose or Briar
<i>Rosa rubiginosa</i>	2/10	5d	Common Sweet Briar
<i>Rosa rugosa</i>	22/-	1/7	Beautiful large-berried variety
<i>Rubus fruticosus</i>	7/4	9d	The Common Wild Bramble
<i>Salisburia adiantifolia</i>	4/4	6d	The Maiden Hair Tree
<i>Sambucus racemosa</i>	3/4	6d	The Scarlet-berried Elder
<i>Spartium junceum</i>	3/-	5d	The Yellow Spanish Broom
<i>Spartium multiflorum album</i>	24/-	1/9	The White Portugal Broom
<i>Spartium scoparium</i>	3/2	5d	The Common Broom
<i>Syringa vulgaris alba</i>	4/4	6d	The White Lilac
<i>Tamarix gallica</i>	13/-	1/1	Suitable for ornamental shrubberies
<i>Thuja gigantea</i>	8/-	8d	A handsome tree
<i>Thuja Lobbi</i>	24/-	1/9	A magnificent and graceful tree
<i>Thuja occidentalis</i>	13/-	1/1	American Arborvitæ
<i>Thuja orientalis</i>	4/-	6d	Chinese Arborvitæ
<i>Thuja orientalis aurea</i>	5/-	7d	A golden variety
<i>Thujopsis borealis</i>	8/6	One of the best Conifers grown
<i>Thujopsis dolabrata</i>	6/6	A noble tree when finely developed
<i>Tilia europæa grandiflora</i> , large leaved	3/6	6d	Large-leaved Lime
<i>Ulex europæus</i>	5/-	7d	The Common Gorse, Furze, or Whin
<i>Wellingtonia gigantea</i>	62/-	4/1	Called the "Father of the Forest"

All Tree Seeds are Delivered Carriage Free.

The Highlands of Scotland has long been famed for producing the Hardest Trees and Plants in Britain. A Trial Order solicited.

ORNAMENTAL TREES & SHRUBS

We pay particular attention to the cultivation of these, and grow our Plants thinly on the ground to form specimens. All have been regularly and carefully transplanted, and have abundance of fibrous roots. They are grown in immense quantities. Special prices will at any time, be quoted when considerable numbers are required.

Name and Description	Height	Each	Doz.	100
Abies Ajanensis	9-12 in.	s. d. 1 6	s. d. 13 6	s. d. 87 6
A beautiful Fir, resembling A. Excelsa, with splendid habit; thoroughly hardy; deserves extensive cultivation; height 70-80 ft.	1 1/2-2 1/2 ft.	2 0	19 6	136 3
Abies Albertiana (Albert's Spruce) ...	2-3 ft.	2 6	25 0	178 6
Is an excellent variety, somewhat resembling the Hemlock Spruce, but of upright and much more vigorous growth.	3-4 ft.	2 11	30 0	211 0
Abies Alba (White American Spruce) ...	4-5 ft.	3 8	37 6	271 0
A native of Canada; when young it has a striking resemblance to the Norway Spruce.	1-1 1/2 ft.	0 3	1 6	6 3
Abies Alcoquiana (Alcock's Spruce) ...	2-3 ft.	0 3	2 0	8 9
Is a magnificent pyramidal tree, reaching the great height of from 90-120 feet; it is a native of Japan; greatly esteemed in this country.	3-4 ft.	0 4	2 6	11 3
Abies canadensis (Hemlock Spruce) ...	9-12 in.	2 4	22 6	162 0
This is a handsome ornamental tree from Canada, of a compact pendulous habit.	1 1/2 ft.	2 11	30 0	211 0
Abies Douglasii (Douglas Fir)	1 1/2-2 ft.	3 8	37 6	271 0
This is now known as one of our best forest trees. Treated as such it grows rapidly, equaling, even surpassing, the Larch in its rate of growth; frequently upwards of 200 feet in height, while its timber, which is red and hard, is of first-class quality, much superior to pitch pine. It also forms a very large ornamental specimen tree.	2-3 ft.	5 0	53 6
Abies Douglasii Colorado Var. ...	1-1 1/2 ft.	0 8	6 0	30 3
This variety is slower in growth than the common Douglas Fir, but is of a very dense habit, and much hardier; will prove one of our finest timber trees.	2-3 ft.	1 8	15 0	98 6
Abies excelsa (Spruce Fir, Norway) ...	3-4 ft.	2 0	19 6	137 0
Commonly called Norway Spruce. It is a shallow-rooting tree, well satisfied with a shallow soil provided it is not too dry, and growing well even in a wet soil.	1-1 1/2 ft.	0 6	4 6	25 0
Abies excelsa nigra (Black Spruce Fir)	2-3 ft.	0 11	8 6	45 0
Is a native of N. America. It is esteemed only as an ornamental tree for its rich and dense foliage. It luxuriates in a moist soil, and affords great shelter and seclusion.	3-4 ft.	1 3	11 9	70 0
Abies Hookeriana	4-5 ft.	1 10	17 6	120 0
This variety is a native of California. It is a very graceful tree, thickly branched, of a pale glaucous tint; very distinct.	5-6 ft.	2 2	21 0	150 0
Abies Menziesii	6-7 ft.	2 9	27 9	200 0
A handsome tall-growing variety with a lovely silvery appearance. We have proved this to be of very rapid growth; it is extremely hardy, and will withstand any exposure.	7-8 ft.	3 0	30 9	220 0
Abies orientalis	8-9 ft.	3 2	32 6	237 6
A somewhat dense-growing, also very lofty, tree; the timber is very durable.	9-10 ft.	3 8	38 0	275 0
Abies Parryana or Pungens	9-12 in.	0 8	5 6	26 8
A very large tree, the bark of which is divided into large flat plates, 4 to 8 inches broad; it is also of very quick growth.	1-1 1/2 ft.	0 9	6 6	35 0
Abies Parryana glauca	1 1/2-2 ft.	0 11	8 6	44 0
This is an excellent variety of the preceding type. The leaves are of a deep glaucous green, and the branches are regularly whorled.	2-3 ft.	1 3	11 6	65 4
Abies Polita	3-4 ft.	1 7	13 9	90 0
Known as the Japanese Spruce. This is a beautiful and noble variety, admirably adapted as a specimen tree for lawns or sides of a lake.	9-12 in.	0 3	2 0	8 9
Acacia Common (pseudo Acacia) ...	12-15 in.	0 4	2 6	12 6
(Common Locust Tree). Produces in abundance racemes of beautiful white pea-shaped flowers. The tree grows very rapidly, and is very hardy and durable.	15-21 in.	0 5	8 6	18 0
Acacia angustifolia (Robinia)	1 1/2-2 ft.	0 6	4 6	24 0
A magnificent narrow-leaved species of very compact habit and graceful fern-like appearance.	2-3 ft.	0 9	7 0	36 0
Acacia decaisneana	3-4 ft.	0 4	2 6	10 0
A pretty variety, producing in great abundance flowers of bright rosy pink.	1-1 1/2 ft.	0 6	4 6	24 0
Acacia hispida (Rose Acacia)	1 1/2-2 ft.	0 8	5 6	26 3
The Rose Acacia is highly ornamental. The large pink-coloured blossoms are produced in long pendulous racemes.	2-3 ft.	1 0	9 0	50 0
Acacia inermis	3-4 ft.	1 6	13 6	87 6
Known as the mop-headed Acacia. A splendid variety, forming large globular heads of beautiful foliage. Admirably adapted for planting as single specimens if protected from strong winds.	1-1 1/2 ft.	2 11	30 0	211 0
Acer colchicum rubrum (Scarlet Maple)	1 1/2-2 ft.	3 6	36 6	261 6
When the leaves are young they are of a bright pinkish-purple. Very handsome variety.	2-3 ft.	4 3	45 0
	3-4 ft.	5 6	60 0
	9-12 in.	0 6	4 6	25 0

WISEMAN, FOR RELIABLE, ELGIN TREES & PLANTS,

ORNAMENTAL TREES—continued.

Name and Description.	Height.	Each.		Doz.		100.	
		s.	d.	s.	d.	s.	d.
Acer Corstorphinensis (Golden Maple) One of the most lovely species. Seen to perfection in the spring, when coming into leaf, seeming in the sunshine one mass of gold.	2-3 ft.	1	1	10	0	57	0
	3-4 ft.	1	8	15	0	99	0
	4-5 ft.	1	11	18	9	182	0
	5-6 ft.	2	4	22	6	162	0
Acer eriocarpon ... A magnificent and highly-ornamental species. The leaves are a dark green colour, with a lovely silvery shade underneath, giving the tree a splendid appearance.	2-3 ft.	1	6	13	6	87	0
	6-7 ft.	2	6	25	0	178	6
	7-8 ft.	3	5	36	0	257	0
	8-10 ft.	4	0	42	0	299	0
	10-12 ft.	5	6	60	0	
Acer negundo variegata ... This is a handsome kind, the foliage being marked and striped with silver, giving it a pleasing appearance.	2-3 ft.	1	8	15	0	100	0
	3-4 ft.	2	4	22	6	162	0
	4-5 ft.	2	11	30	0	211	6
	5-6 ft.	3	8	37	6	272	0
Acer platanoides (Norway Maple) ... A most rapid growing timber tree, very hardy, suitable for timber as well as being ornamental. In autumn the leaves are beautifully tinted. It prefers a deep well-drained soil; practically never disfigured by insects.	3-4 ft.	0	8	2	0	7	6
	4-5 ft.	0	4	2	6	12	6
	5-6 ft.	0	5	3	0	19	0
	6-7 ft.	0	6	4	0	24	0
	7-8 ft.	0	9	7	0	37	0
	8-9 ft.	1	0	9	8	52	0
Acer platanoides Schwedleri ... A most effective and fast-growing variety. The leaves are very large, and are of a deep bronzy-red colour, becoming purplish green.	4-5 ft.	1	3	11	0	66	0
	5-6 ft.	1	9	15	6	102	0
	6-7 ft.	2	0	19	0	135	0
	7-8 ft.	2	3	22	3	159	0
Acer Pseudo platanus (Sycamore) ... Known as the Mock Plane Tree. There are few deciduous trees so well adapted for standing singly in rough, exposed situations. A deep, soft, dry soil is most suitable for it, but it will grow in soils of very opposite qualities.	2-3 ft.	0	3	1	0	6	0
	3-4 ft.	0	3	1	8	6	8
	4-5 ft.	0	3	2	0	8	0
	5-6 ft.	0	4	2	3	8	6
	6-7 ft.	0	6	4	0	18	0
	7-8 ft.	0	7	5	0	24	0
Acer Pseudo platanus purpurea (purple-leaved) ... A beautiful foliaged variety, the leaves being dark purple underneath, this variety, when slightly ruffled by the wind, alternately appearing clothed in purple and pale green.	2-3 ft.	0	8	6	0	32	0
	3-4 ft.	0	9	7	0	37	6
	4-5 ft.	1	0	9	0	50	0
	5-6 ft.	1	2	10	6	62	6
	6-7 ft.	1	4	12	3	75	0
Aesculus Hippocastanum (Horse Chestnut) The beauty of these is so well known that they need no description. They are admirably adapted for avenue, park, boulevard, or hedge-row planting. They thrive best in sheltered situations, and require good soil.	2-3 ft.	0	4	2	6	7	6
	3-4 ft.	0	4	3	0	8	9
	4-5 ft.	0	5	3	6	16	3
	5-6 ft.	0	8	5	6	30	0
	6-7 ft.	1	0	9	0	50	0
	7-8 ft.	1	8	15	0	100	0
	8-9 ft.	1	11	18	0	125	0
Aesculus rubicunda ... This is a very distinct and exquisite variety when in flower, producing freely, flowers of a rich scarlet colour in fine racemes.	2-3 ft.	1	11	18	9	192	0
	3-4 ft.	2	4	22	6	162	0
	4-5 ft.	2	6	25	0	178	6
	5-6 ft.	2	11	30	0	211	6
Aesculus castanea (Chestnut Spanish) ... Very ornamental park trees, produces timber as durable as oak; one of the best trees for hop poles, and in some districts it is used largely for coppice. Grows best on a deep, well-drained, sandy loam, but makes indifferent progress on clay or chalk.	1-1½ ft.	0	3	1	6	6	0
	1½-2 ft.	0	3	1	9	6	6
	2-3 ft.	0	3	2	0	7	6
	3-4 ft.	0	4	2	6	10	0
	4-5 ft.	0	4	2	9	15	6
	5-6 ft.	0	5	3	6	20	0
	6-7 ft.	1	1	10	0	57	0
Ailantus glandulosa ... Known as the Tree of Heaven. It grows with great rapidity for the first 10 or 12 years in favourable situations; afterwards its growth is rather slower. It is a very desirable tree for plantations or to stand singly on lawns, and makes a glorious sight when laden with its red-winged fruits. It is quite hardy, and thrives in almost any soil. Should be cut back hard.	2-3 ft.	0	4	2	6	12	6
	3-4 ft.	0	8	6	0	31	3
	4-5 ft.	1	0	9	0	50	0
	5-6 ft.	1	3	11	0	67	0
	6-7 ft.	1	5	13	0	82	0
	7-8 ft.	1	10	16	6	112	6
	8-9 ft.	2	0	19	0	134	0
	9-10 ft.	2	6	25	0	180	0
	12-14 ft.	4	3	45	0	
Alnus cordata ... A large, handsome, and very distinct round-headed tree. Grows rapidly in dry soil, one of the most interesting of ornamental trees.	3-4 ft.	0	9	6	3	34	0
	5-6 ft.	1	0	9	0	51	6
	6-7 ft.	1	8	15	0	99	0
	8-10 ft.	2	3	22	0	157	0
Alnus glutinosa (Common Alder) ... The Alder affects moist and damp situations, and as it grows quickly it is a very useful tree to plant in bare situations. It is valuable as a nurse to other trees by the seaside.	2-3 ft.	0	3	1	6	6	0
	3-4 ft.	0	3	1	9	7	0
	4-5 ft.	0	8	2	0	8	6
	5-6 ft.	0	4	2	6	10	0
	6-7 ft.	0	5	3	6	20	0
Amelanchier Canadensis (Snowy Mespilis) An exceedingly ornamental pyrus, growing from 12-15 ft. high, giving an abundance of white blossoms.	1½-2 ft.	0	8	6	0	32	6
	2-3 ft.	0	9	7	0	37	6
	3-4 ft.	0	10	7	6	39	0
	4-5 ft.	1	2	10	6	62	6
Amygdalus communis (Almond) ... They are excellent for shrubberies or as specimen trees, being in blossom before most other trees, and make a fine appearance in early spring. Flowers pale pink.	3-4 ft.	2	2	21	0	150	0
	4-5 ft.	2	7	26	0	187	6
	5-6 ft.	4	3	45	0	
	6-7 ft.	5	6	60	0	
Andromeda floribunda ... An attractive species with pure white bell-shaped flowers which are produced in great profusion. One of the best.	9-12 in.	2	1	20	0	140	0
	1-1½ ft.	2	4	22	6	162	0
	1½-2 ft.	3	4	35	0	252	0
	2-2½ ft.	4	8	50	0	
Araucaria imbricata (Monkey Puzzle) ... A well-known hardy tree of striking aspect, and indispensable to arboreta and shrubberies. The branches are horizontal, and are produced in whorls. This tree grows from 50-100 ft. high. It succeeds best in an elevated position.	6-9 in.	1	5	13	0	82	0
	9-12 in.	2	0	19	0	135	0
	1-1½ ft.	2	6	24	6	175	0
	1½-2 ft.	3	6	36	0	257	0
	2-3 ft.	5	0	54	0	
	3-4 ft.	7	0	78	0	
Arborvitæ American (Thuja Occidentalis) This is also known as the White Cedar, and is a native of N. America. It is graceful, erect, and fast-growing. It is admirably adapted for hedge planting.	2-3 ft.	0	9	7	0	37	6
	3-4 ft.	1	0	9	0	50	0
	4-5 ft.	1	8	15	0	99	0
	5-6 ft.	2	11	30	0	211	6
	6-7 ft.	4	8	50	0	
Arborvitæ Elwangeriana (Thuja) ... A dwarf-growing dense bush, being a miniature form of A. Occidentalis; fine variety.	1-1½ ft.	1	0	9	0	50	0
	1½-2 ft.	1	6	13	0	87	0
	2-3 ft.	2	5	24	6	179	0

The Highlands of Scotland has long been famed for producing the Hardest Trees and Plants in Britain. A Trial Order solicited.

ORNAMENTAL TREES—continued.

Name and Description.	Height.	Each.		Doz.		100.	
		s.	d.	s.	d.	s.	d.
Arborvitæ Hoveyi A magnificent sort; leaves bright green, closely imbricated branches, forming a round and compact bush.	9-12 in. 1-1½ ft. 1½-2 ft. 2-3 ft.	0	8	5	6	30	0
Arborvitæ Lobbii (Thuja) A magnificent and graceful tree found in the northern parts of California and America, growing from 40-50 feet high; is quite hardy.	2-3 ft. 3-4 ft. 4-5 ft. 5-6 ft.	1	2	10	6	62	6
Arborvitæ Lobbii aurea An exceeding and very effective variety of preceding, with golden yellow foliage; makes a splendid show when planted along with the dark green variety.	9-12 in. 1-1½ ft. 1½-2 ft. 2-3 ft. 3½-4 ft.	1	0	9	0	50	0
Arborvitæ Lobbii semperaurea A very desirable form, retaining its golden hue throughout all the year; a splendid tree.	1-1½ ft. 2-3 ft. 2½-3 ft.	2	0	19	0	135	0
Arborvitæ occid. Lutea Known as the Golden Arborvitæ. A pretty golden self-coloured variety, extremely beautiful.	1½-2 ft. 2-3 ft. 3-4 ft.	2	4	22	6	162	0
Arborvitæ Verveaneana (Belgian Variegated Arborvitæ) A magnificent gold-tinted variety with slender branches; a grand acquisition.	9-12 in. 1-1½ ft. 2-2½ ft. 3-4 ft.	0	9	6	6	35	0
Arborvitæ Wareana This variety is after the same form as the Tartarian species; it forms a dense conical bush of graceful appearance.	15-18 in. 2-2½ ft. 2-3 ft. 4½-5 ft.	1	4	12	3	75	0
Ash, Common Large ornamental hardy deciduous tree, which succeeds best on moist rich porous low-lying grounds, impudent of shade except when young. The timber is employed in the construction of carts, waggons, and carriages, and it is unrivalled in all purposes where strength and elasticity are required. It springs early from the roots.	1-1½ ft. 1½-2 ft. 2-3 ft. 3-4 ft. 4-5 ft. 5-6 ft. 6-7 ft. 7-8 ft. 8-9 ft.	0	3	1	0	4	0
Ash, Mountain This tree is indigenous to mountainous situations. It is a well-known beautiful deciduous tree with smooth branches. In the months of May and June it produces numerous panicles of white blossoms, highly fragrant. They are generally followed by a profusion of scarlet berries, which ripen in the autumn. In Britain this tree attains to its greatest perfection in the rich soil in the Highlands of Scotland. It is extremely hardy, and luxuriates in a cool soil at a great altitude.	1½-2 ft. 2-3 ft. 3-4 ft. 4-5 ft. 5-6 ft. 6-7 ft. 7-8 ft. 8-9 ft. 9-10 ft. 10-12 ft. 12-14 ft.	0	3	1	6	7	0
Aucuba japonica One of the best evergreens for towns, standing smoke well, and fine for any position. If grown in pots they should be firmly planted in sandy loam, with plenty of drainage. The leaves are of pale green, spotted with yellow.	6-9 in. 9-12 in. 12-15 in. 1-1½ ft. 1½-2 ft. 2-2½ ft.	0	6	4	6	25	0
Aucuba japonica mascula The variegated male Aucuba; handsome variety, excellent for intermixing along with the ordinary Aucuba, when beautiful red berries will be produced.	1-1½ ft. 1½-2 ft. 2-2½ ft. 2-3 ft. 3-4 ft.	1	0	9	0	50	0
Aucuba japonica Vera The green form of the female Aucuba; the plants are well rooted, bushy, and compact.	1-1½ ft. 1½-2 ft. 2-3 ft.	1	5	12	6	77	0
Azalea Mollis This Azalea is a recent introduction from Japan; it is perfectly hardy, and is admirably adapted for forcing. The flowers are very large, and vary in colour from primrose to red of various shades.	6-9 in. 8-10 in. 9-12 in. 1-1½ ft. 1½-2 ft. 2-2½ ft.	1	2	10	3	60	0
Azalea pontica A very hardy and showy sort with large yellow flowers, deliciously fragrant, which are freely produced; their value can scarcely be over estimated; they are perfectly hardy, and will flourish wherever rhododendrons succeed.	9-12 in. 1-1½ ft. 1½-2 ft. 2-2½ ft. 2-3 ft. 3-3½ ft.	1	0	9	0	50	0
Balm of Gilead (Picea Balsamea) A beautiful medium-sized slender tree. The leaves, which are long and very glaucous, render this one of the finest of Silver Firs. It is very hardy, and stands the spring frosts well; grows best on loamy soil.	6-9 in. 9-12 in. 1-1½ ft. 1½-2 ft. 2-3 ft. 3-4 ft.	0	4	2	6	12	6
Bay Sweet (Laurus nobilis) A well-known aromatic evergreen tree or shrub; produces yellow blossoms early in the spring, which are followed by numerous purple berries, which are ripe about October.	1-1½ ft. 1-1½ ft. 1½-2 ft. 2-2½ ft. 2-3 ft.	1	0	9	0	50	0
Beech, common (Fagus sylvatica) Few trees claim our attention before the Beech. Its stem is massive, its bark is smooth and of a silvery cast, and when the heat of the summer unfolds its silken foliage it displays a verdure of softness and delicacy, and when viewed in the park it is a gem indeed. Grows well on light soils, and succeeds near the sea.	1-1½ ft. 1½-2 ft. 2-3 ft. 3-4 ft. 4-5 ft. 5-6 ft. 6-7 ft. 7-8 ft. 8-9 ft.	0	3	1	9	8	0
Beech, Fern-leaved (Fagus asplenifolia) A magnificent variety, the foliage being more deeply cut, giving it a fern-like appearance.	2-3 ft. 3-4 ft. 5-6 ft.	2	1	20	0	139	0

WISEMAN, FOR RELIABLE TREES & PLANTS, ELGIN

ORNAMENTAL TREES—continued.

Name and Description.	Height.	Each.		Doz.		100.	
		s.	d.	s.	d.	s.	d.
Beech, broad-leaved, Purple (<i>Fagus atropurpurea</i>)	3-4 ft.	2	11	30	0	212	6
Ornamental purple-leaved variety with broad leaves; we can thoroughly recommend this.	4-5 ft.	3	10	40	0	290	0
	6-7 ft.	4	11	52	6
Beech, large-leaved (<i>macrophylla</i>) ...	3-4 ft.	2	6	25	0	182	0
A very large-leaved variety.	4-5 ft.	2	11	30	0	212	0
Beech, purple	2-3 ft.	1	1	10	0	57	0
Purple Beeches ought to be more largely planted; most planters content themselves with masses of green forest trees frequently, when the beauty of their gardens would be more enhanced by a mixture of other foliage and flowering trees.	3-4 ft.	1	5	12	6	77	0
	4-5 ft.	2	3	22	0	157	0
	5-6 ft.	2	9	27	9	200	0
	6-7 ft.	3	0	31	0	222	6
	7-8 ft.	3	6	36	3	259	0
	8-9 ft.	4	6	48	0
Berberis Aquifolium	6-9 in.	0	3	1	5	5	0
A fine evergreen with pretty holly leaf-like foliage; in the autumn numerous berries are produced, giving the shrub a remarkably fine appearance. This is extensively planted in woodlands, making an excellent covert plant.	9-12 in.	0	4	2	6	9	6
	1-1½ ft.	0	4	2	8	12	0
	1½-2 ft.	0	8	5	6	30	0
	2-2½ ft.	0	9	6	6	35	0
	2½-3 ft.	0	10	8	0	41	3
Berberis Darwinii	6-9 in.	0	4	2	6	14	0
A very desirable species, producing a rich profusion of deep orange-coloured flowers in May, and sometimes again in the autumn. It forms a densely-branched spreading evergreen bush, thus making an excellent covert plant.	9-12 in.	0	5	4	6	24	0
	1-1½ ft.	0	8	5	6	28	0
	1½-2 ft.	0	9	6	6	35	0
	2-2½ ft.	0	11	8	6	45	0
	2-3 ft.	1	1	9	6	55	0
Berberis dulcis	1½-2 ft.	0	8	5	6	30	0
A graceful, slender, almost evergreen species; shoots profusely hung with tiny golden flowers.	2-3 ft.	0	10	7	6	40	0
	3-4 ft.	1	0	9	0	50	0
Berberis japonica	9-12 in.	0	10	7	6	40	0
Long slender racemes of bloom and large compound leaves nearly a foot long. This variety deserves attention, extremely ornamental.	1-1½ ft.	1	2	10	6	62	6
	1½-2 ft.	1	4	12	0	74	0
	1½-2½ ft.	1	8	15	0	99	0
Berberis purpurea	9-12 in.	0	6	4	6	25	0
A pretty purple-foliaged species of the common Barberry; striking appearance.	1½-2 ft.	0	9	7	0	37	6
	2-2½ ft.	1	0	9	0	50	0
Berberis stenophylla	1-1½ ft.	0	4	2	6	10	0
The most graceful of all, with long pendulous branches, clad in small evergreen leaves, and densely hung with bright yellow flowers.	1½-2 ft.	0	9	7	0	37	6
	2-3 ft.	1	4	12	3	75	0
	3-4 ft.	1	8	15	0	100	0
Berberis Thunbergii	9-12 in.	0	6	4	6	24	0
A charming little deciduous Barberry, the leaves changing to brilliant crimson tints in autumn. It also blooms very early.	1-1½ ft.	0	8	5	6	30	0
	1½-2 ft.	0	10	7	6	39	0
	2-3 ft.	1	1	10	0	57	0
Berberis vulgaris	1½-2 ft.	0	5	3	6	20	0
This variety is extensively planted, producing many flowers formed on long, graceful racemes; exceedingly showy.	2-3 ft.	0	8	5	6	30	0
	3-4 ft.	1	0	9	0	50	0
	4-5 ft.	1	2	10	6	62	6
Birch, common	1-1½ ft.	0	8	1	0	4	0
A most beautiful and invaluable forest tree; it is extremely hardy; succeeds in moist situations—as wet, undrained bogland. Throughout the most remote parts of the Highlands of Scotland the Birch is often found in extensive coppice on rocky elevations, where no other ligneous plant is to be met with.	1½-2 ft.	0	8	1	8	5	0
	2-3 ft.	0	8	1	6	6	0
	3-4 ft.	0	8	2	0	8	0
	4-5 ft.	0	4	2	6	10	0
	5-6 ft.	0	4	2	9	15	0
	6-7 ft.	0	5	3	0	18	0
	7-8 ft.	0	8	6	0	31	6
Birch, papyracea	2-3 ft.	0	5	3	6	20	0
A magnificent sort; the branches are much less flexible than those of the common Birch, and are more ascending.	3-4 ft.	0	8	5	6	30	0
	4-5 ft.	0	10	7	6	39	0
	5-6 ft.	1	1	10	0	57	0
Birch, pendula Youngii	2-3 ft.	2	0	19	0	137	0
A very beautiful and distinct fern-leaved variety, forming perfect specimens.	5-6 ft.	2	6	24	6	175	0
	6-7 ft.	3	0	31	0	222	0
Birch, purple	2-3 ft.	2	1	20	0	139	0
An exquisite sort, with rich dark purple foliage, and graceful, pendulous habit.	4 ft.	3	9	39	6	284	0
	6 ft.	6	3	69	0
Birch, Silver	3-4 ft.	0	4	2	6	10	0
A hardy and ornamental variety, having round, slender drooping branches; the bark is of an exquisite silvery shade, giving the tree a rare effect.	4-5 ft.	0	5	3	6	20	0
	5-6 ft.	0	8	5	3	30	0
	6-8 ft.	1	3	11	0	67	0
	8-10 ft.	1	9	15	9	105	0
Birch, Silver, Weeping	1-1½ ft.	0	3	1	6	5	0
A well-known tree, and distinct from other species; the tree occasionally produces knots of timber beautifully marbled and veined, and are much valued for veneering. The bark is much in demand for tanning purposes.	1½-2 ft.	0	3	1	9	6	0
	2-3 ft.	0	3	2	0	7	6
	3-4 ft.	0	4	2	6	12	6
	4-5 ft.	0	6	4	6	25	0
	5-6 ft.	1	0	9	0	50	0
Box Tree, Common	1½-2 ft.	0	10	7	6	40	0
Hardy evergreen shrub or small tree, large foliage; in exposed situations it will be better to afford the plants protection.	2-3 ft.	2	4	22	6	162	0
	3-4 ft.	3	4	24	6	250	0
	4-5 ft.	5	6	60	0
Box Tree, Golden	9-12 in.	1	1	9	6	55	0
Beautiful golden variegated foliaged form.	1-1½ ft.	1	8	15	0	100	0
Box Handsworthiana	1½-2 ft.	0	11	8	6	45	0
Broad-leaved variety, compact habit.	2-3 ft.	1	6	13	6	87	6
Box marginata (Silver variegated) ...	1-1½ ft.	0	10	7	6	40	0
Leaves margined with silvery white; very striking appearance.	1½-2 ft.	1	6	13	6	87	6
	2-2½ ft.	2	1	20	0	139	0
Box, Myrtle-leaved	1-1½ ft.	0	10	7	6	40	0
Has small, oblong, narrowish leaves.	1½-2 ft.	2	4	22	6	162	0
Briar, Sweet	1½-2 ft.	0	4	2	6	12	0
Too well known to require description; foliage very fragrant; pink flowers; admirably adapted for forming a hedge.	2-3 ft.	0	6	4	6	24	0
	3-4 ft.	0	9	6	6	35	0
	4-5 ft.	1	0	9	0	50	0
Broom, common	1-2 ft.	0	3	1	3	4	6
An exquisite flowering variety; the plants are hardy and very floriferous; ought to be planted extensively.	1½-2 ft.	0	3	1	6	6	0
	2-3 ft.	0	3	1	9	7	6
	3-4 ft.	0	8	2	9	7	6

The Highlands of Scotland has long been famed for producing the Hardest Trees and Plants in Britain. A Trial Order solicited.

ORNAMENTAL TREES—continued.

Name and Description.	Height.	Each.		Doz.		100.	
		s.	d.	s.	d.	s.	d.
Broom, white	1-2 ft.	0	8	1	3	5	0
Well known hardy shrub producing a profusion of white flowers on long sprays; very ornamental.	1½-2 ft.	0	8	1	6	6	0
	1½-2½ ft.	0	8	2	0	7	0
	2-3 ft.	0	4	2	6	8	0
Buckthorn, Sea	9-18 in.	0	4	2	6	10	0
Especially adapted for growing near the sea-coast. It forms a handsome shrub of distinct appearance, and grows very freely.	1-1½ ft.	0	5	8	6	20	0
	1½-2 ft.	0	6	4	6	25	0
	2-3 ft.	0	9	7	0	37	6
Buddleia globosa	9-12 in.	0	10	7	6	38	6
Known as the Orange Ball Tree. This species is most extensively grown, which among all other shrubs is quite unique; globular heads, bright honey colour, deliciously fragrant.	1-1½ ft.	1	0	9	8	52	6
	2-3 ft.	1	6	12	9	80	0
	3-4 ft.	1	8	15	0	100	0
	4-5 ft.	1	10	16	8	110	0
Calycanthus floridus	9-15 in.	0	10	7	6	40	0
Handsome class of shrubs which are well worth growing. They thrive best in a peaty compost and somewhat shaded ground. Flowers purple, sweetly perfumed.	1½-2 ft.	1	1	10	0	57	0
	2-2½ ft.	1	4	12	0	72	0
	2-3 ft.	1	8	15	0	100	0
	3-4 ft.	1	11	18	0	125	0
Calycanthus Grandiflorus	1-1½ ft.	0	8	6	0	32	0
After the form of C. Præcox, but the flowers are much larger and more substance.	1½-2 ft.	0	10	8	0	42	0
	2-3 ft.	1	1	10	0	57	0
Caragana arborescens (Siberian Pea) ...	3-4 ft.	0	10	7	6	40	0
A handsome and highly-ornamental shrub, giving an abundance of yellow pea-like flowers.	4-5 ft.	1	1	10	0	57	0
	5-6 ft.	1	8	15	0	100	0
Catalpa syringæfolia	4-5 ft.	1	1	10	0	57	0
This variety is admirably adapted for planting singly, as it is a well-formed species. The flowers are yellow spotted with a rich purple.	5-6 ft.	1	8	15	0	100	0
	6-7 ft.	2	1	20	0	140	0
	8-10 ft.	2	6	25	0	180	0
Ceanothus americanus	1-1½ ft.	0	9	7	0	37	0
Known as the New Jersey Tea Shrub; very hardy. Flowers of pure white.	2-3 ft.	1	1	10	0	57	0
	3-4 ft.	1	8	15	0	100	0
Cedrus atlantica	9-12 in.	1	6	13	0	87	0
Majestic evergreen trees with large spreading branches and clustered leaves. It is the most magnificent of the conifers, but as they are so well known scarcely any remarks are required. Succeed best in a loam or sandy clay soil.	1-1½ ft.	1	9	15	9	105	0
	1½-2 ft.	2	8	22	0	157	0
	2-2½ ft.	8	0	31	0	222	6
	2-3 ft.	4	6	48	0
	2½-3 ft.	6	6	72	0
Cedrus atlantica argentea	6-9 in.	1	2	10	6	62	6
An intensely glaucous variety, and one of the most striking of park and avenue trees.	9-12 in.	1	11	18	0	125	0
	1-1½ ft.	2	2	21	0	150	0
Cedrus atlantica glauca	1-1½ ft.	2	11	30	0	212	0
The foliage is of a glaucous green or silvery hue, making it highly ornamental.	1½-2 ft.	4	11	52	6
	2-3 ft.	6	0	66	0
Cedrus Deodora (Indian Cedar)	9-12 in.	1	4	12	3	75	0
This is the celebrated coniferous tree of the Himalayas, where it attained the height of 150 feet. The timber of this variety is compact and resinous; it emits a refreshing odour. It is admirably adapted for a lawn tree.	1-1½ ft.	1	8	15	0	99	0
	1½-2 ft.	2	0	19	6	137	0
	2-3 ft.	8	0	31	0	222	6
	3-4 ft.	6	0	66	0
	4-5 ft.	8	0	89	0
Cedrus Libani	6-9 in.	1	2	10	6	62	6
The Cedar of Lebanon is invigorated to Mount Lebanon. Has always been celebrated for its grandeur and majesty, frequently extolled in sacred history beyond that of any other tree.	9-12 in.	1	6	13	0	87	0
	1-1½ ft.	2	0	19	6	137	0
	1½-2 ft.	8	0	31	0	222	6
	2-2½ ft.	5	0	64	0
Cerasus Avium multiplex (Double Cherry)	2-3 ft.	1	11	18	0	125	0
One of the loveliest flowering trees, which is very hardy and strong growing. The tree will grow in any soil provided it is dry.	3-4 ft.	2	2	21	0	150	0
	4-5 ft.	2	5	24	6	175	0
	5-6 ft.	3	10	40	0	290	0
Cerasus Avium fl. pl. alba	2-3 ft.	1	8	15	0	99	0
A magnificent double white flowered variety; nothing can be more beautiful than the purity and richness of its blossoms in the spring.	3-4 ft.	1	11	18	9	132	0
	4-5 ft.	2	6	25	0	178	6
	5-6 ft.	2	11	30	0	212	0
Cerasus lauro-Caucasica	1½-2 ft.	0	6	4	6	25	0
A splendid variety of a very compact habit and rich green foliage.	2-3 ft.	0	10	7	6	40	0
	3-4 ft.	1	3	11	9	70	0
Cerasus lauro-Colchica	1½-2 ft.	0	6	4	6	25	0
A very useful kind for extensive planting in woodlands or shrubberies. Exempt from the attacks of game.	2-3 ft.	0	9	6	6	35	0
	3-4 ft.	1	0	9	0	50	0
	4-5 ft.	1	8	15	0	100	0
Cerasus, Lauro-Cerasus (Common Laurel)	9-12 in.	0	8	2	0	10	0
One of our finest evergreens; its leaves are large and massive, with a shining polish. In sheltered situations it forms a very ornamental hedge or screen fence; the chief use of the shrub is embellishment.	1-1½ ft.	0	4	2	6	16	0
	1½-2 ft.	0	6	4	6	25	0
	2-2½ ft.	0	8	6	0	32	0
	2-3 ft.	0	10	7	6	42	0
	3-4 ft.	1	2	10	6	62	6
Cerasus Rotundifolia	1-1½ ft.	0	5	3	6	20	0
All the forms of Bay Laurel are invaluable as evergreen shrubs. The variety Rotundifolia has proved the hardier.	1½-2 ft.	0	6	4	6	25	0
	2-3 ft.	1	3	11	9	70	0
	3-4 ft.	1	7	13	9	90	0
Cerasus Padus (Bird Cherry)	1½-2 ft.	0	3	1	9	7	0
A well known variety producing in abundance long showy drooping racemes of pure white flowers, admirably adapted for forming an underwood, and yields a good shelter for game.	2-3 ft.	0	3	2	0	7	6
	3-4 ft.	0	3	2	3	9	0
	4-5 ft.	0	4	2	6	12	6
	5-6 ft.	0	6	4	6	25	0
Cerasus Portugal (Laurel)	9-12 in.	0	6	4	6	25	0
This variety of laurel is well adapted to our climate. Its leaves stand so close on the plant as to display only the recently-formed wood of a dark purple colour emerging from a mass of green foliage.	1-1½ ft.	0	9	7	0	37	6
	1½-2 ft.	1	0	9	0	50	0
	2-3 ft.	2	0	19	6	137	6
	3-4 ft.	3	8	27	6	272	0
	4-5 ft.	5	6	60	0
Cerasus Portugal myrtifolia	1-1½ ft.	0	10	7	6	39	0
This variety is of compact upright habit, with smaller, more dense, and much darker green foliage than the old Portugal species; worthy of extensive cultivation.	1½-2 ft.	1	1	10	0	57	0
	2-3 ft.	2	2	21	0	150	0
	3-4 ft.	3	0	31	3	225	0
	4-5 ft.	4	8	50	0

WISEMAN, FOR RELIABLE TREES & PLANTS, ELGIN

ORNAMENTAL TREES—continued.

Name and Description.	Height.	Each.		Doz.		100.	
		s.	d.	s.	d.	s.	d.
Cercis Siliquastrum Known as the Common Judas Tree. A bright purple-flowered species.	1-1½ ft. 1½-2 ft. 1½-2½ ft.	0 10 1 4 1 8		7 6 12 0 15 0		40 0 72 0 100 0	
Choisya ternata Mexican Orange Shrub. A very beautiful shrub, with lovely white sweet hawthorn-scented flowers.	6-9 in. 9-12 in. 1-1½ ft.	1 5 2 1 2 11		12 6 20 0 30 0		77 0 140 0 212 0	
Colutea arborescens (Bladder Senna) ... A very fast-growing shrub with racemes of large yellow flowers and curiously-inflated seed pods of very distinctive character.	2-3 ft. 3-4 ft. 4-5 ft. 5-6 ft.	0 5 0 10 1 4 1 8		4 0 8 0 12 0 15 0		24 0 42 0 72 0 100 0	
Corchorus Japonica A magnificent slender-branched twiggy shrub of erect habit, producing fine orange yellow flowers; it succeeds in any good loamy soil.	1-1½ ft. 1½-2 ft. 2-3 ft. 2½-3½ ft.	0 5 0 8 0 10 1 0		8 6 6 0 7 6 9 0		20 0 82 0 40 0 52 0	
Corchorus Japonica fl. pl. This variety is most seen in cultivation; the double flowers are of a rich yellow shade.	1-1½ ft. 2-3 ft. 3-4 ft.	0 9 1 1 1 5		7 0 10 0 12 6		87 6 57 6 77 6	
Cornus mascula The Cornel Tree, when full grown, makes a brilliant display of bright yellow flowers in February and March as Jasminum; fruit ½ inch long, of a bright red.	1½-2 ft. 1½-2½ ft. 2-3 ft. 3-4 ft. 4-5 ft.	0 9 0 10 0 11 1 1 1 2		6 6 7 6 8 6 9 6 10 6		35 0 40 0 45 0 55 0 62 0	
Cornus mascula aur. elegantiss ... A most charming golden foliaged tree; very fine; a striking companion to following variety.	2 ft. 2½-3½ ft. 4-5 ft.	3 0 4 0 5 0		31 3 42 0 54 0		225 0 300 0	
Cornus sanguinea (Scarlet Dogwood) ... Justly admired for its beautiful dark red foliage in the autumn. The berries yield an oil used in France for soap making.	1-1½ ft. 1½-2 ft. 2-3 ft. 3-4 ft.	0 4 0 6 0 8 0 10		2 6 4 6 6 0 8 0		15 0 25 0 32 6 42 6	
Cornus siberica elegantissima ... A beautiful silver variegated form, with neat habit of growth.	1-1½ ft. 2-3 ft. 3-4 ft.	1 0 1 3 1 6		9 0 11 9 13 0		52 0 70 0 87 0	
Cornus siberica variegata A fine ornamental species, leaves being beauti- fully splashed with silver; striking appearance.	1-1½ ft. 2-3 ft. 3-4 ft.	0 9 0 9 0 10		6 6 7 0 7 6		35 0 37 0 39 0	
Corylus Avellana (Common Hazel) ... A well known deciduous shrub or low tree; being hardy it can occupy an elevated position. The Hazel is profitably cultivated in coppice and as underwood. The nuts are brown and are ripe in October.	1-1½ ft. 1½-2 ft. 2-3 ft. 3-4 ft. 4-5 ft. 5-6 ft.	0 3 0 3 0 3 0 4 0 4 0 5		1 0 1 3 1 6 2 6 2 7 3 6		5 0 7 0 9 0 10 0 15 0 20 0	
Corylus avellana purpurea The purple-leaved Filbert is in colour simi- lar to the purple Beech. A distinct variety admirably adapted for shrubbery borders.	1-1½ ft. 1½-2 ft. 2-3 ft. 3-4 ft.	1 8 1 11 2 4 3 8		15 0 18 0 22 6 37 6		100 0 125 0 162 6 272 0	
Cotoneaster frigida A charming form; showy both in flower and in fruit; very hardy.	2-3 ft. 3-4 ft. 4-5 ft.	0 5 0 5 0 6		3 6 4 0 4 6		18 0 20 0 25 0	
Cotoneaster horizontalis or Davidiana Branches flat and fan-like, rendering it suit- able for growing on walls, rockwork, etc. In a south aspect the foliage assumes a bright crimson hue in autumn.	6-9 in. 9-12 in. 12-15 in. 1-1½ ft. 1½-2 ft.	1 1 1 2 1 6 2 0 2 6		10 0 10 6 13 0 19 0 25 0		60 0 62 6 87 0 137 0 180 0	
Cotoneaster microphylla This shrub forms a singular and beautiful evergreen drooping tree, or it will cover a naked wall nearly as quick as ivy.	6-9 in. 6-12 in. 9-12 in. 12-15 in.	0 5 0 6 0 8 0 9		3 6 4 6 5 6 7 0		20 0 25 0 30 0 37 6	
Cotoneaster Simmonsii This is one of the best forms; produces quantities of bright scarlet berries; evergreen in mild winters.	1-1½ ft. 1½-2 ft. 2-3 ft. 3-4 ft.	0 4 0 4 0 6 0 8		2 6 2 9 4 6 5 6		14 0 18 0 24 0 30 0	
Cotoneaster thymifolia A very pretty evergreen, less than 1 ft. high, with crowded, often decurved branches, and scarlet fruit.	6-9 in. 9-12 in. 12-15 in. 1-1½ ft.	1 1 1 4 1 8 2 0		10 0 12 0 15 0 19 0		57 0 72 0 99 0 137 0	
Crataegus Carrieri An exquisite species with very bright foliage; large white blossoms changing to a pale rose. The fruit is very large, and carries its foliage very late in the season; important acquisition.	2-3 ft. 3-4 ft. 4-5 ft. 5-6 ft. 6-7 ft.	1 5 1 8 1 11 2 6 2 11		12 6 15 0 18 9 25 0 30 0		77 0 99 0 132 0 178 6 212 0	
Crataegus oxyac. alba plena This is the most useful species of the class. As an ornamental dwarf tree it has no superior. The profusion and beauty of the flowers and the delicious fragrance enlist the favour of all beholders.	2-3 ft. 3-4 ft. 4-5 ft. 5-6 ft. 6-7 ft. 7-8 ft.	1 1 1 5 1 8 2 1 2 6 2 11		10 0 12 6 15 0 20 0 25 0 30 0		57 0 77 6 100 0 140 0 180 0 212 0	
Crataegus oxvac. Coccinea A magnificent variety with large white flowers and brilliant scarlet fruit.	2-3 ft. 3-4 ft. 4-5 ft.	1 1 1 5 1 8		10 0 12 6 15 0		57 0 77 0 99 0	
Crataegus, Crus-galli (Cockspur Thorn) Flowers white, tinged with red; it is loaded in autumn with handsome scarlet fruit.	2-3 ft. 3-4 ft. 4-5 ft.	1 1 1 5 1 7		10 0 12 6 14 0		57 0 77 0 90 0	
Crataegus oxyac. punicea plena ... A splendid sort; the large flowers are of a rich dark red without, white in the claws.	2-3 ft. 3-4 ft. 4-5 ft.	1 1 1 5 1 8		10 0 12 6 15 0		57 0 77 0 99 0	
Crataegus oxy. rosea plena A beautiful variety; petals pink, without white claws; very effective.	2-3 ft. 3-4 ft. 4-5 ft.	1 1 1 5 1 8		10 0 12 6 15 0		57 0 77 0 99 0	
Cryptomeria elegans Handsome evergreen trees. They thrive best in deep rich soils with abundance of moisture and protection from cutting winds. This is a robust and tall-growing species; the foliage in the autumn is a bronzy crimson colour.	9-12 in. 1-1½ ft. 1½-2 ft. 2-3 ft. 3-4 ft. 4-5 ft.	0 10 1 2 1 8 2 6 4 0 5 6		7 6 10 9 15 0 25 0 42 0 60 0		39 0 65 0 99 0 180 0 298 0	

The Highlands of Scotland has long been famed for producing the Hardest Trees and Plants in Britain. A Trial Order solicited.

ORNAMENTAL TREES—continued.

Name and Description.	Height.	Each.		Doz.		100.	
		s.	d.	s.	d.	s.	d.
Cryptomeria japonica	1½-2 ft.	1	1	10	0	57	0
An exquisite rapid-growing tree of pyramidal shape.	2-3 ft.	1	8	15	0	100	0
	3-4 ft.	2	4	22	6	162	0
Cupressus Lawsoniana	1-1½ ft.	0	8	6	0	31	3
The almost endless varieties of the Lawson Cypress, with their extreme hardiness, render the species one of the most popular of recent introductions. They will grow in almost any soil or situation, and bear cutting well.	1½-2 ft.	0	10	7	6	40	0
	2-3 ft.	1	0	9	0	50	0
	3-4 ft.	1	6	13	6	87	6
	4-5 ft.	2	2	21	0	150	0
	5-6 ft.	2	11	30	0	212	0
Cupressus Laws. alba spica	1-1½ ft.	2	6	24	6	175	0
A very fine sort; the young foliage is elegantly tipped and speckled with white.	1½-2 ft.	2	9	27	9	200	0
	2-2½ ft.	3	0	31	0	222	0
Cupressus alba spica variegata ...	1-1½ ft.	1	4	12	3	75	0
An elegant form; the branches are beautifully speckled and variegated at tips with creamy white; very effective.	1½-2 ft.	1	8	15	0	99	0
	2-2½ ft.	2	6	25	0	179	0
	2½-3 ft.	3	8	37	6	272	0
Cupressus Laws. Allumii	1½-2 ft.	1	2	10	6	62	6
Pretty and distinct glaucous variety of upright growth and fine habit.	2-3 ft.	2	7	26	3	187	6
	4-5 ft.	5	6	60	0	
Cupressus Laws. argentea	1½-2 ft.	1	2	10	6	62	6
Foliage of almost silvery whiteness; branches long and slender; very effective.	2-3 ft.	1	8	15	0	100	0
	3-4 ft.	2	5	24	6	175	0
Cupressus Laws. aurea variegata ...	9-12 in.	1	0	9	3	52	6
This differs from the type in having many of its branches bright yellow; very rich looking variety.	1-1½ ft.	1	6	13	6	87	0
	1-2½ ft.	2	0	19	6	137	0
	2-3 ft.	3	6	36	0	262	0
Cupressus Laws. erecta viridis ...	1½-2 ft.	1	2	10	3	60	0
Compact-growing variety with bright green foliage, tapering habit; very ornamental.	2-3 ft.	2	4	22	6	162	0
	3-4 ft.	2	7	26	0	187	6
Cupressus Laws. Fraserii	1½-2 ft.	1	2	10	3	60	0
A most distinct and beautiful sort; rich glaucous hue; habit and growth erect.	2-3 ft.	2	1	20	0	139	0
	3-4 ft.	4	3	45	0	
Cupressus Laws. glauca	1-1½ ft.	0	9	6	6	35	0
A splendid type of Lawson's Cypress with a glaucous-blue foliage.	1½-2 ft.	0	11	8	6	45	0
	2-2½ ft.	1	5	12	6	77	0
Cupressus Laws. gracilis	1-1½ ft.	0	10	7	6	39	0
Graceful, pendulous habit; admirably adapted for specimen plants on lawns.	1½-2 ft.	1	1	10	0	57	0
	2-3 ft.	3	9	39	6	284	0
Cupressus Laws. lutea	9-12 in.	1	6	13	6	87	6
Whole of the young growth of a beautiful light clear yellow; and compact habit.	1-1½ ft.	1	11	18	0	125	0
	1½-2 ft.	2	7	26	0	187	6
Cupressus Lawsoniana nana	9-12 in.	2	4	22	6	162	0
A diminutive variety of rather slow growth, dense in height, globose in shape, and deep green in colour.	1-1½ ft.	2	9	28	0	202	0
	1½-1¾ ft.	3	4	35	0	252	0
	2-3 ft.	3	10	40	0	290	0
Cupressus macrocarpa	9-12 in.	0	6	4	6	25	0
An exceedingly handsome Cypress of rapid growth, standing well, within the influence of the sea breeze rather tender in a young state, but when once established thoroughly hardy.	1-1½ ft.	1	0	9	0	50	0
	1½-2 ft.	1	6	13	0	87	0
	2-3 ft.	2	0	19	0	137	0
	3-4 ft.	3	0	31	0	222	6
Cupressus macrocarpa lutea	1-1½ ft.	2	0	19	0	137	0
A very graceful form of Macrocarpa with bright golden foliage, particularly adapted to warm localities. Of symmetrical form of growth, it makes a well-balanced specimen tree.	1½-1¾ ft.	2	6	25	0	180	0
	1½-2 ft.	3	0	31	0	222	6
	1¾-2 ft.	3	6	36	3	262	0
	2-2½ ft.	4	0	42	0	298	0
Cupressus Milford Blue Jacket ...	1-1½ ft.	1	8	15	0	99	0
Very dwarf and compact sort with exquisite glaucous foliage; highly recommended.	1½-2 ft.	2	1	20	0	139	0
	2-2½ ft.	2	11	30	0	212	0
Cupressus pyr. alba spica	9-12 in.	1	2	10	6	62	6
A magnificent pyramidal shaped species; the foliage is beautifully speckled with creamy white, giving it a rare appearance.	1-1½ ft.	1	8	15	0	100	0
	1½-1¾ ft.	3	1	31	6	230	0
	2-2½ ft.	3	8	37	6	272	0
Cupressus Shawii	1-1½ ft.	1	4	12	3	75	0
A beautiful sort, with graceful feathery foliage; dense compact habit; a grand acquisition.	1½-2 ft.	2	11	30	0	212	0
	2-2½ ft.	4	3	45	0	
Cupressus Silver Queen	1-1½ ft.	1	8	15	0	100	0
Handsome and hardy conifer with lovely silver foliage; we highly recommend this variety.	1½-2 ft.	1	11	18	0	125	0
	2-2½ ft.	2	5	24	6	175	0
Cupressus Versicolor	1-1½ ft.	3	8	37	6	274	0
A beautiful variety; foliage variegated with gold and silver; graceful pendulous habit.	1½-2 ft.	4	6	48	0	
	2-3 ft.	5	6	60	0	
Cytisus (Laburnum)	1-2 ft.	0	3	1	6	6	0
A well-known deciduous tree. It is always highly esteemed as an embellishment along the margin of plantations and avenues. The Laburnum blossoms in May and June.	2-3 ft.	0	3	2	0	8	0
	3-4 ft.	0	4	2	6	10	0
	4-5 ft.	0	4	3	0	15	0
	5-6 ft.	0	10	7	6	40	0
Cytisus alpinus (Scotch)	¾-1 ft.	0	3	1	0	3	0
Known as the Scotch Laburnum. Very robust and vigorous; one of the best ornamental trees for bleak and inhospitable situations.	¾-1½ ft.	0	3	1	1	3	9
	1-1½ ft.	0	3	1	2	4	6
	1½-2 ft.	0	3	1	6	7	6
Cytisus aureum	2-3 ft.	1	8	15	0	99	0
A very interesting species, with beautiful golden-yellow foliage.	3-4 ft.	1	10	17	6	119	0
	4-5 ft.	2	0	19	0	137	0
Cytisus purpurea (purple)	1-2 ft.	1	6	13	6	87	0
A very beautiful shrub when in flower. The flowers are purple, exceedingly ornamental.	3-4 ft.	1	8	15	0	100	0
	4-5 ft.	1	10	17	6	119	0
Daphne Laureola (Spurge Laurel) ...	1-1½ ft.	0	10	8	0	42	0
A dwarf-growing and bushy evergreen with yellowish-green flowers.	1-1½ ft.	1	0	9	0	50	0
	1½-2 ft.	1	2	10	6	62	6
Daphne Mezereum	1-1½ ft.	1	0	9	0	50	0
A slender straggling shrub; leafless branches wreathed in fragrant reddish-purple flowers.	1½-1¾ ft.	1	6	13	6	87	0
	1½-2 ft.	2	0	19	0	137	0
Deutzia candidissima fl. pl.	1-1½ ft.	0	4	2	6	15	0
Very ornamental hardy shrubs, pure white flowers in long dense racemes.	2-3 ft.	0	6	4	6	25	0
	3-4 ft.	0	8	5	6	30	0

	5-6 ft.	0	10	7	6	40 0
	6-7 ft.	1	2	10	6	60 0
Elder, Cut-leaved (Sambucus laciniata) The foliage of this is deeply lacinated, fern-like and of splendid form.	1½-2 ft.	0	6	4	6	25 0
	2-3 ft.	0	9	7	0	37 6
	5-6 ft.	1	1	10	0	57 0
Elder, Golden (Sambucus nigra lutea) ... This is one of the most suitable shrubs for town planting, its fine golden foliage rendering it most effective. If the young shoots are regularly pinched at their points, the plants may be kept dwarf and of a rich fine golden colour all the summer.	1-1½ ft.	0	4	2	6	15 0
	1½-2 ft.	0	5	3	6	20 0
	2-2½ ft.	0	6	4	6	25 0
	2-3 ft.	0	7	5	6	31 3
	2½-3½ ft.	0	8	6	0	33 0
	3-4 ft.	0	9	6	6	35 0
	4-5 ft.	1	2	10	3	60 0
Elder, Golden variegated (Sambucus aurea variegata) A beautiful species, the foliage being blotched and marked with a rich golden-yellow.	1-1½ ft.	0	5	3	6	20 0
	1-2 ft.	0	8	5	6	30 0
	2-3 ft.	0	10	8	0	42 0
	3-4 ft.	1	0	9	3	52 0
Elder, New Cut-leaved (Sambucus racemosa laciniata) Leaves cut and fern-like, very ornamental, admirably adapted for growing as specimens.	1-1½ ft.	0	8	5	6	30 0
	1½-2 ft.	1	0	9	3	52 0
	2½-3½ ft.	1	6	13	6	87 0
Elder, Scarlet Berried (Sambucus racemosa) A highly-ornamental species; fruit scarlet, produced in large bunches; grows luxuriantly in a cool and moist situation.	2-3 ft.	0	5	3	6	20 0
	3-4 ft.	0	7	5	0	27 0
	4-5 ft.	0	9	6	6	35 0
	5-6 ft.	0	11	8	6	47 0
Elder, Silver variegated (Sambucus argentea variegata) This shrub is admirably adapted for towns, the silver variegated foliage being exceedingly effective.	1-1½ ft.	0	6	4	6	25 0
	1½-2 ft.	0	8	5	6	30 0
	2-3 ft.	0	10	8	0	42 0
	3-4 ft.	1	0	9	0	50 0
Elm, English (Ulmus campestris) ... This is a tall elegant tree of rapid growth; few trees produce the same quantity of valuable timber in so short a period. With the exception of the Oak, it is the most common timber tree in England. The best wood is produced from trees grown on strong soils. A most ornamental tree for avenue planting.	1-1½ ft.	0	3	1	3	5 0
	1½-2 ft.	0	3	1	6	5 6
	2-3 ft.	0	3	1	9	6 0

	4-5 ft.	0	4	2	6	10 0
	5-6 ft.	0	6	4	6	25 0
	6-7 ft.	0	8	5	6	30 0
	7-8 ft.	0	10	7	6	40 0
Elm, New Golden (Ulmus Dampieri aurea) An exquisite variety; leaves stem clasping, of a bright golden-yellow colour.	2-3 ft.	2	0	19	6	137 0
	3-4 ft.	2	3	22	0	157 0
	4-5 ft.	2	6	25	0	178 6
Elm, Scotch or Wych This species is a native of Scotland, and very valuable as a timber tree. It is more spreading in its habit than the English; more picturesque in figure, more hardy in constitution, and better adapted to adorn the glens which it is destined to occupy. The timber is extensively used in ship and boat building.	1-1½ ft.	0	3	1	2	4 0
	1-2 ft.	0	3	1	4	5 0
	2-3 ft.	0	3	1	6	5 3
	3-4 ft.	0	3	1	8	5 6
	4-5 ft.	0	3	1	10	5 9
	5-6 ft.	0	3	2	0	6 0
	6-7 ft.	0	3	2	3	8 9
	8 ft.	0	4	2	6	12 0
Elm, Van Houttei A quick-growing variety with beautiful yellow foliage; very conspicuous.	6-7 ft.	2	4	22	6	162 0
	7-8 ft.	2	6	25	0	178 6
	8-10 ft.	3	8	37	6	272 0
Elm, Wheatleyi A stately and compact vigorous-growing variety, suitable for street-planting.	6-7 ft.	2	6	25	0	180 0
	6-8 ft.	3	0	30	6	220 0
	8-10 ft.	3	6	36	6	262 0
Euonymus europaeus Highly decorative variety; exceedingly pretty in autumn; when the fruit is ripe the colour of the capsule is rose and the seeds orange.	1½-2 ft.	0	6	4	6	24 6
	2-3 ft.	0	8	6	0	31 3
	3-4 ft.	0	10	8	0	42 0
	4-5 ft.	1	0	9	0	50 0

The Highlands of Scotland has long been famed for producing the Hardiest Trees and Plants in Britain. A Trial Order solicited.

ORNAMENTAL TREES—continued.

Name and Description.	Height.	Each.		Dox.		100.
		s. d.	s. d.	s. d.	s. d.	
Euonymus japonicus Handsome compactly-clothed evergreen with oval shining green leaves, suitable for seaside.	9-12 in. 1-1½ ft. 1½-2 ft.	0 8 1 0 1 3	6 0 9 0 11 0	31 3 50 0 69 0		
Euonymus Jap. ovata aurea Broadly margined and flaked rich bright gold, suitable for window boxes.	9-12 in. 15-18 in. 1-1½ ft.	1 6 1 8 1 10	13 0 15 0 17 0	87 0 99 0 119 0		
Euonymus picta Beautiful spotted varieties, varying from ivory to clear yellow; fine for seaside.	6-9 in. 9-12 in. 1-1½ ft.	1 1 1 8 1 11	10 0 15 6 19 6	57 0 99 0 125 0		
Euonymus radicans Very hardy dwarf creeping evergreens, admirably adapted for edgings to beds, borders, etc., and for training up walls.	4-6 in. 6-9 in. 9-12 in. 15-20 in.	0 9 1 0 1 6 2 0	7 0 9 0 13 6 19 6	37 0 50 0 87 0 137 0

Genista Andreana An elegant variety, invaluable alike for conservatory and for outdoors, literally covering itself with beautiful pea-shaped flowers, with wings of rich scarlet and green-yellow.	1-1½ ft. 1½-2 ft. 2-3 ft. 3-4 ft. 4-5 ft.	1 8 1 6 1 8 1 10 2 6	11 9 13 6 15 0 17 6 25 0	70 0 87 6 99 0 119 0 178 0		
Holly, common green (Ilex aquifolium) A well-known and favourite evergreen tree. As an ornamental tree it has no rival; it is admirably adapted as single specimens to dot about a lawn or to furnish parts of borders. It is quite hardy on ground moderately elevated. In autumn and winter the brilliancy of its scarlet berries contrasted with its deep green foliage, forms a magnificent display.	6-12 in. 9-12 in. 12-15 in. 1-1½ ft. 1½-2 ft. 2-3 ft. 3-4 ft. 4-5 ft. 5-6 ft.	0 6 1 0 1 3 1 6 2 0 4 6 7 0 8 0 9 0	4 6 9 0 11 0 13 6 19 0 42 0 78 0 84 0 101 0	25 0 50 0 69 0 87 6 137 0		
Holly, Doningtonensis A very neat compact-growing variety.	1-1½ ft. 1½-2 ft.	2 0 2 11	19 6 30 0	137 6 212 0		
Holly, golden variegated Leaves of medium size nearly entire, but loosely wavy, narrowing to a wedge shape at base; disc dark mottled green with golden edge.	12-15 in. 1-1½ ft. 1½-2 ft. 1½-2 ft.	2 0 2 3 2 6 3 0	19 6 22 0 24 6 31 0	137 6 158 0 178 0 222 0		
Holly, Golden Queen (Ilex La Reine) Leaves in form like I. aquifolium, with a magnificent richly-coloured margin of lemon-gold; a sturdy grower, makes a splendid specimen. This is without doubt the finest of all the golds, in variegation, form, and growth.	9-12 in. 1-1½ ft. 1½-2 ft. 2-2½ ft. 2-3 ft. 3-3½ ft.	2 0 2 6 3 0 5 6 7 0 10 0	19 0 24 6 31 0 60 0 78 0 113 0	137 0 179 0 232 6		
Holly, green leaved This includes all the most popular and finest green-leaved varieties.	9-12 in. 1-1½ ft. 1½-2 ft.	1 11 2 4 3 8	18 0 22 6 37 6	125 0 162 0 272 0		
Holly, Hodginsii Very large and broad typical wavy and spiny leaves; absolutely hardy; an excellent smoke resisting variety; one of the fastest growers; makes a very handsome bush.	1½-2 ft. 2-2½ ft. 2½-3 ft. 3-4 ft. 4-5 ft.	3 0 3 8 4 11 6 9 10 0	31 3 37 6 52 6 75 0 113 0	225 0 272 0		
Holly, Laurel-leaved (Laurifolia) Leaves of medium size, clean cut, usually without spines; this is one of the hardiest of all, and smoke has no effect on it.	9-12 in. 1-1½ ft. 1½-2 ft. 2-3 ft.	0 10 1 10 2 7 4 11	7 6 17 6 26 0 52 6	89 0 119 0 187 6		
Holly, Maderiensis Large, broadly-ovate, regular spiny leaves; a very rapid upright grower; best in a border.	1½-2 ft. 2-3 ft. 3-4 ft.	2 4 2 11 4 8	22 6 30 0 50 0	162 0 212 0		
Holly, myrtle-leaved A beautiful variety with ovate-lanceolate leaves, usually moderately spiny at the margin, but sometimes quite entire.	1-1½ ft. 1½-2 ft. 1½-2½ ft. 2-3 ft.	2 6 3 0 3 6 4 0	25 0 31 0 36 0 42 0	188 6 222 6 262 0 299 0		
Holly, Silver Queen Broad nearly flat leaves with regular spines and an extensive ivory margin; the leaf is often splashed with silver; looks well as a pyramid and also dense bush; medium compact grower.	9-12 in. 12-15 in. 15 in. 1½-2 ft. 2-2½ ft.	1 5 2 1 3 8 5 6 6 9	12 6 20 0 37 6 60 0 75 0	77 0 139 0 272 0		
Holly, silver striped Leaves rather smaller than the type; central part dark green with grey blotches; margin creamy-white; a slow, dense grower.	1-1½ ft. 1½-2 ft. 2-2½ ft. 3-4 ft.	2 2 2 6 4 8 6 9	21 0 25 0 50 0 75 0	150 0 178 6		
Holly, silver variegated Habit and growth similar to the type; robust and a good grower; margin of ivory white and silver; makes a good specimen.	1-1½ ft. 1½-2 ft. 2-2½ ft.	2 11 3 8 4 8	30 0 37 6 45 0	212 0 272 0		
Holly, Waterer's Oval leaves under medium size, margins entire and spineless; broadly margined with gold; extremely dense and compact in habit; forms a beautiful low round bush.	9-12 in. 1-1½ ft. 1½-2 ft. 2-3 ft.	2 6 3 6 4 6 7 6	24 6 36 0 48 0 88 0	179 0 262 0		
Holly, yellow berried This is similar to I. aquifolium, but produces beautiful yellow berries.	1½-2 ft. 2½-3 ft. 3½-4 ft.	4 3 6 9 10 0	45 0 69 0 113 0

Hypericum patulum	1½-2 ft.	1	1	10	0	57	0
Large bright golden-yellow flowers in clusters.	2-2½ ft.	1	8	15	0	99	0
Indigofera Dosua	1-1½ ft.	1	0	9	0	50	0
With graceful feathery foliage and dainty bright rose-coloured pea-like flowers in early autumn; prefers a wall.	1½-2 ft.	1	8	11	0	67	0
	2-2½ ft.	1	6	13	6	87	0
	2-3 ft.	1	9	16	0	106	0
Juniperus chinensis	1½-2 ft.	2	11	30	0	212	0
A beautiful bush of bright green foliage.	2½-3 ft.	4	11	62	6	
Juniperus fastigiata	1-1½ ft.	1	1	10	0	57	0
An erect-growing variety somewhat resembling the Irish Juniper, but more robust in growth, and the foliage more glaucous, of a light green.	1½-2 ft.	1	5	12	6	77	0
	1½-2 ft.	1	8	15	0	99	0
	2-2½ ft.	1	10	17	6	119	0
Juniperus hibernica	1-1½ ft.	1	4	12	3	75	0
Known as the Irish Juniper; upright-growing variety, handsome and ornamental. This is the most handsome of all the varieties.	1½-2 ft.	1	8	15	0	99	0
	2-2½ ft.	2	4	22	6	162	0
	3-4 ft.	3	9	39	6	284	0
Juniperus Sabina	1-1½ ft.	1	6	13	0	87	0
Well-known ornamental much-branched shrub having a spreading, irregular habit, with numerous trailing branches. It thrives best in a light soil, and in any situation.	1½-2 ft.	2	0	19	0	137	0
	1½-2 ft.	2	6	24	6	179	0
	2½-3 ft.	3	0	31	0	222	6
	4-5 ft.	5	0	54	0	
Juniperus Schottii	1½-2 ft.	2	6	25	0	178	6
A magnificent variety of pyramidal shape, with a peculiar light green foliage.	3-4 ft.	3	6	36	0	262	0
	4-5 ft.	4	6	48	0	
Juniperus Tamariscifolia	9-12 in.	1	6	13	0	87	0
An elegant prostrate shrub for banks and rockwork. The variety is sometimes known as the Carpet Juniper.	12-15 in.	2	0	19	0	137	0
	1-1½ ft.	2	6	24	6	179	0
	1½-2 ft.	2	9	27	6	202	0
Juniperus virginica (Red Cedar)	1-1½ ft.	0	8	5	6	30	0
Commonly known as the Red American Cedar. This is the tallest variety of the genus, usually of pyramidal form, and having beautiful bright red heart-wood. Its timber has a strong aromatic fragrance.	1½-2 ft.	1	0	9	0	50	0
	2-2½ ft.	1	3	11	9	69	0
	2-3 ft.	1	6	13	0	87	0
	2½-3 ft.	1	9	15	0	102	0
	3-4 ft.	2	0	19	0	137	0
Juniperus virg. glauca (Silver Cedar)	2½-3 ft.	3	9	39	6	284	0
A very handsome variety, having a whitish appearance when making growth. It has a pretty cone-shaped habit.	3-3½ ft.	4	3	45	0	
	3-4 ft.	5	6	60	0	
	4-5 ft.	7	6	83	0	
Larch	1½-2½ ft.	0	3	1	8	7	0
A fine quick-growing tree. This splendid species requires an elevated open situation on which moisture does not linger. Our stock comprises many millions grown from Scotch native seed specially gathered for us from healthy and vigorous trees growing on favourable soil at high altitudes in Scotland.	2-2½ ft.	0	3	1	6	8	0
	2½-3 ft.	0	3	1	9	9	0
	3-3½ ft.	0	3	2	0	10	0

	3½-4 ft.	0	4	2	6	11	3
	4-5 ft.	0	4	3	0	12	6
	5-6 ft.	1	0	9	0	50	0
Laurustinus	9-12 in.	1	0	9	0	50	0
A well-known handsome evergreen shrub. The beautiful white flowers are slightly rose-coloured before expansion.	1-1½ ft.	1	2	10	3	60	0
	1½-2 ft.	1	6	13	3	85	0
	2-2½ ft.	1	10	17	6	120	0
Leycesteria formosa	1-1½ ft.	0	8	5	6	30	0
A magnificent hardy shrub with a rambling habit; flowers white with conspicuous leafy bracts of a rich vinous purple, succeeded by purple berries.	1½-2 ft.	0	9	6	6	34	0
	1½-2 ft.	0	10	7	6	40	0
	2-3 ft.	0	11	8	6	45	0
	3-4 ft.	1	3	11	9	66	8
Libocedrus decurrens (Thuja gigantea)	1-1½ ft.	2	0	20	0	139	0
Known as the Incense Cedar. A handsome, distinct, erect, compact-growing tree, with a stout trunk distinguished by its glandless decurrent leaves and columnar habit.	1½-2 ft.	2	6	25	0	180	0
	2-2½ ft.	2	9	27	0	200	0
	2½-3 ft.	3	0	31	0	222	6
	4-5 ft.	4	0	42	0	298	0
Ligustrum box leaved	1½-2 ft.	0	4	2	6	10	0
A very distinct variety, differing from the common privet in its broader and more decidedly evergreen leaves.	2-2½ ft.	0	4	3	0	18	0
	2-3 ft.	0	5	3	6	20	0
	2½-3 ft.	0	10	7	6	40	0
Ligustrum, common evergreen (Privet)	6-12 in.	0	3	0	10	3	0
This plant as a hedge is very ornamental when well kept and often pruned, particularly in end of August, which enables it to push out foliage afresh which forms its winter clothing.	1-1½ ft.	0	3	1	0	4	0
	1½-2 ft.	0	3	1	3	5	0
	2-3 ft.	0	3	1	6	6	0
	3-4 ft.	0	3	2	0	7	6
Ligustrum Ibota	1-1½ ft.	0	8	5	6	26	3
A pretty shrub with tender terete twigs; produces berries of a shining black.	2-3 ft.	0	9	7	0	37	6
	3-4 ft.	1	5	12	6	77	0
Ligustrum japonicum	1½-2 ft.	0	10	7	6	39	0
A robust-growing evergreen shrub with large coriaceous leaves.	2-3 ft.	2	4	22	6	162	0
	3-4 ft.	3	8	37	6	272	0
Ligustrum lucidum	1½-2 ft.	1	0	9	0	50	0
Vigorous-growing variety with glossy deep green leaves; splendid appearance.	3-4 ft.	2	4	22	6	162	0
	4-5 ft.	3	9	39	6	285	0
Ligustrum ovalifolium (oval leaf)	1-1½ ft.	0	3	2	0	8	0
One of the hardiest and most floriferous of the privets, which is largely cultivated; this variety is admirably suited for planting in towns, smoky districts, etc., or as single specimens in shrubberies.	1½-2 ft.	0	4	2	3	10	0
	2-3 ft.	0	4	2	6	11	3
	3-4 ft.	0	5	3	6	17	6
	4-5 ft.	0	6	4	6	25	0
	5-6 ft.	1	0	9	0	50	0
Ligustrum oval. aureum	9-12 in.	0	10	7	6	40	0
This is an exquisite variety, with foliage of a rich golden colour; for specimen plants it has no equal, its colour being so lovely when grown in a clear atmosphere.	1-1½ ft.	1	1	10	0	57	0
	1½-2 ft.	1	5	12	6	77	0
	1½-2 ft.	1	8	15	0	100	0
	2½-3 ft.	2	5	24	6	175	0
Ligustrum oval. rob. marg. aurea	9-12 in.	1	8	15	0	99	0
A very strong and dense-growing sort, with gold-margined foliage.	9-18 in.	2	4	22	6	162	0
	3-4 ft.	2	11	30	0	212	0

The Highlands of Scotland has long been famed for producing the Hardest Trees and Plants in Britain. A Trial Order solicited.

ORNAMENTAL TREES—continued.

Name and Description.	Height.	Each.	Dos.	100.
		s. d.	s. d.	s. d.
Lilac, common purple (<i>Syringia vulgaris</i>)	1-1½ ft.	0 4	2 6	15 0
Few shrubs are more universally grown and admired when in flower than the lilac. They grow freely, and flower profusely outside, in almost any soil and situation. In France, lilacs are extensively forced in places where light is excluded. The flowers thus become by blanching, pure white, and are in great demand.	1½-2 ft.	0 6	4 6	25 0
	2-3 ft.	0 8	6 0	32 0
	3-3½ ft.	1 1	10 0	57 0

	7-8 ft.	2 11	30 0	212 0
Lilac, Charles X.	2-3 ft.	1 5	12 6	77 0
Deep purplish lilac, extra large trusses; an excellent forcing variety; white if forced in a dark place.	3-4 ft.	1 8	15 0	99 0
	4-5 ft.	2 11	30 0	212 0
	5-6 ft.	3 8	37 6	272 0
	6-7 ft.	4 11	46 0	347 0
Lilac, Dr. Lindley	1-1½ ft.	0 6	4 6	25 0
Flowers reddish-lilac, extremely large clusters.	2-3 ft.	0 8	5 6	30 0
Lilac grandiflora (large leaved)	1½-2 ft.	0 8	5 6	30 0
Compact spikes of immense size of a rich reddish-purple colour; very showy.	2-3 ft.	0 10	7 6	40 0
	3-4 ft.	1 2	10 6	62 6
Lilac grandiflora alba	4-5 ft.	1 8	15 0	99 0
Flowers pure white, splendid in size and form; one of the best.	5-6 ft.	2 4	22 6	162 0
	6-7 ft.	2 6	25 0	179 0
	7-8 ft.	2 11	30 0	212 0
Lilac Josikaea	3-4 ft.	0 10	7 6	40 0
Flowers bluish-white; very floriferous.	4-5 ft.	1 2	10 6	62 6
Lilac, Persian white (<i>Persica alba</i>) ...	1½-2 ft.	1 1	10 0	57 0
Very distinct, dwarf, compact-growing species; pure white trusses.	2-3 ft.	1 5	12 6	77 0
	3-4 ft.	1 11	18 9	132 0
	4-5 ft.	1 11	18 9	132 0
Lilac, Persian Red (<i>Persica rubra</i>) ...	2-3 ft.	0 11	8 6	45 0
A reddish-purple variety, in other respects similar to preceding, splendid companion plant.	3-4 ft.	1 2	10 6	62 6
	4-5 ft.	1 8	15 0	100 0
	5-6 ft.	2 1	16 0	125 0
Lilac rubra de marly	2½-3 ft.	1 1	10 0	57 0
A splendid single-flowered variety, rosy purple.	3-4 ft.	1 4	12 6	73 6
Lilac Siberian	3-4 ft.	0 9	7 0	37 6
Flowers of intense violet colour, very free flowering; suitable for forcing.	4-5 ft.	1 0	9 3	52 6
	5-6 ft.	2 4	22 6	162 0
	6-7 ft.	2 6	25 0	179 0
Lilac, white	2-3 ft.	1 2	10 3	60 0
Flowers of pure white, immense size, perfect form and grand substance.	3-4 ft.	1 10	17 6	120 0
	4-5 ft.	1 11	18 6	130 0
	5-6 ft.	2 1	16 0	125 0
Lilac, golden	2-3 ft.	2 1	20 0	139 0
Leaves large and in spring finely edged and splashed with gold; very effective variety.	3-4 ft.	2 5	24 6	175 0
	4-5 ft.	2 11	30 0	212 0
	5-6 ft.	3 1	31 0	221 0
Lime, common	2-3 ft.	0 5	3 6	20 0
A species of ornamental, lofty-growing, hardy trees. Its chief use is to form an embowering shade along the avenue, and as park tree or lawn ornament. It is also largely planted along streets and promenades. It admits of being frequently pruned. The wood of the Lime Tree is of pale yellow, and is much esteemed for carving purposes.	2½-3½ ft.	0 6	5 0	23 0
	3-4 ft.	0 10	8 0	42 6
	4-5 ft.	1 1	10 0	57 0
	5-6 ft.	1 4	12 0	72 0
	6-7 ft.	1 11	18 0	125 0
	7-8 ft.	2 5	24 0	172 0

	5-6 ft.	1 9	16 0	107 0
	6-7 ft.	2 1	18 0	125 0
	7-8 ft.	2 5	24 0	172 0
Lycium europaeum	2-3 ft.	0 10	7 6	40 0
An erect Spring shrub of a straggling habit. Suitable for positions where few plants can live.	3-4 ft.	1 1	10 0	57 0
	3½-4½ ft.	1 4	12 0	72 0
	4-5 ft.	1 7	14 0	92 0
Magnolia purpurea	1-2 ft.	2 6	25 0	179 0
A very pretty small hardy shrub. Flowers are tulip-shaped; the petals are purple outside, and white within; very fragrant.	1½ ft.	2 11	30 0	212 0
	2 ft.	3 10	40 0	290 0
	2-3 ft.	4 8	50 0	347 0
	3-4 ft.	5 11	61 0	421 0
Nut, Purple...	1½-2 ft.	1 2	10 6	62 6
Distinct and ornamental plant for shrubby borders; the leaves are as deeply coloured as the flowered varieties of purple beech.	2-2½ ft.	1 4	12 6	75 0
	2-3 ft.	2 4	22 6	162 6
	3-4 ft.	2 11	30 0	212 6
	4-5 ft.	3 1	31 0	221 0
Oak, English	9-18 in.	0 3	1 0	5 0
This is one of the most celebrated trees we have recognised as the "Monarch of the Wood"; for landscape effects, the massive rugged stems and twisted branches furnish an elegant picturesqueness which is unique. For useful timber and producing bark for tanning purposes it has no superior. When transplanted it requires considerable pruning, which will cause it to recover quickly, and soon make good growth again.	1-1½ ft.	0 3	1 8	6 0
	1½-2 ft.	0 8	1 6	7 0
	2-3 ft.	0 8	1 9	8 0

	9-10 ft.	2 11	30 0	282 6
Olearia Haastii	9-12 in.	1 2	10 6	62 6
A dwarf, evergreen, smoke-resisting shrub, covering itself with masses of grey bloom, fragrant, and lasting a considerable time.	12-15 in.	1 5	12 6	77 0
	1-1½ ft.	1 7	14 0	92 0
	1½-2 ft.	1 11	18 0	125 0
Osmanthus aquifolius (Holly Leaved) ...	9-12 in.	1 6	13 6	87 6
A very handsome evergreen shrub, varying in size and toothing of the leaves; flowers white.	1-1½ ft.	1 11	18 0	124 0
	1½-2 ft.	2 2	21 0	150 0
Osmanthus ilicifolius	1½-2 ft.	2 4	22 6	162 0
Charming evergreen shrub with leaves resembling the common holly.	2-3 ft.	3 9	39 0	280 0
	3-4 ft.	6 3	69 0
Pernettya mucronata	6-9 in.	0 3	4 6	25 0
A very beautiful flowering little hardy variety with abundance of dull purple berries.	9-12 in.	0 8	5 6	30 0
	1-1½ ft.	0 9	6 6	35 0
Philadelphus coronarius	2-2½ ft.	0 10	7 6	40 0
Useful deciduous shrub, bearing a profusion of white flowers resembling orange blossoms.	2-3 ft.	1 0	9 0	50 0
	3-4 ft.	1 2	10 6	62 6
Philadelphus coronarius fl. pl. ...	1½-2 ft.	0 6	4 6	25 0
Beautiful double blossoms; in other respects similar to preceding; very showy.	2-3 ft.	0 8	5 6	30 0
	3-4 ft.	0 9	6 6	35 0
Philadelphus Gordonianus	2-3 ft.	0 5	3 6	20 0
Large white flowers produced in great abundance; very vigorous and compact grower.	3-4 ft.	0 6	4 6	25 0
	4-5 ft.	0 8	5 6	30 0
Philadelphus Grandiflorus	2-3 ft.	0 6	4 6	25 0
Very large white flowers, and wonderfully free-flowering; branches often bent with the weight of the inflorescence.	3-4 ft.	0 8	5 6	30 0
	4-5 ft.	0 9	6 6	35 0
	5-6 ft.	0 11	8 6	45 0
Philadelphus inodorus	2-3 ft.	0 5	3 6	20 0
Large white scentless flowers; robust growth.	3-4 ft.	0 6	4 6	25 0
	2-3 ft.	0 6	4 6	25 0
Philadelphus speciosus (Mock Orange)	3-4 ft.	0 8	5 6	30 0
A very large white-flowering sort; very strongly scented.	4-5 ft.	0 9	6 6	35 0
	2-2½ ft.	2 11	30 0	212 0
Phyllrea vilmoreana	9-12 in.	1 8	15 0	99 0
An exquisite sort with dark green foliage, resembles those of the Portugal Laurel; whitish flowers abundantly produced in large clusters.	1-1½ ft.	1 10	17 6	119 0
	1½-2 ft.	2 4	22 6	162 0
	2-2½ ft.	2 11	30 0	212 0
Picea Amabilis	1½-2 ft.	2 6	24 0	177 0
The most ornamental of all the Silver Firs.	2-2½ ft.	3 2	32 6	237 0
	1-1½ ft.	1 8	15 0	99 0
Picea cephalonica	1½-2 ft.	2 4	22 6	162 0
A very desirable tree for growing on exposed situations; height 50-60 feet.	2-3 ft.	2 11	30 0	212 0
	18-21 in.	3 3	37 6	272 0
Picea Concolor violacea ...	1½-2 ft.	4 3	45 0
A very beautiful species with exquisite glaucous green foliage.	1½-2 ft.	4 11	52 6
	1½-1¾ ft.	4 3	45 0
Picea Lasiocarpa	1½-2 ft.	4 11	52 6
A very beautiful variety of a glaucous green shade; bark of a yellow colour.	2-2½ ft.	5 6	60 0
	1-1½ ft.	3 10	40 0	290 0
Picea Magnifica	1½-1¾ ft.	6 9	75 0
A very tall and stately species with, at successive intervals, whorls of horizontal branches. The leaves are also densely crowded.	1½-2 ft.	9 4	105 0
	2-3 ft.	10 0	113 0
	1-1½ ft.	1 4	12 0	72 0
Picea nobilis	1½-2 ft.	2 1	20 0	140 0
This variety is a native of California, where it grows to the great height of 200 to 300 feet. One of the most majestic and noble trees, while its timber is of first class quality.	2-3 ft.	2 11	30 0	212 0
	2½-3 ft.	4 8	50 0
	3-4 ft.	5 6	60 0
Picea Nordmanniana	1-1½ ft.	1 8	15 0	100 0
Noble species of very rapid and regular growth; height 80 to 100 feet; worthy of general cultivation.	1½-2 ft.	2 6	25 0	180 0
	2-3 ft.	3 10	40 0	290 0
	3-4 ft.	5 6	60 0
Picea pectinata (Silver Fir)	9-12 in.	0 6	4 0	24 0
A very noble Silver Fir; produces useful timber and forms a stately and beautiful tree. Requires good loamy soil.	1½-2½ ft.	0 9	6 6	35 0
	3-4 ft.	1 8	15 0	100 0
	4-4½ ft.	1 10	17 6	120 0
Picea Pinsapo (The Spanish Silver Fir)	9-12 in.	1 1	10 0	57 0
A beautiful plant, most symmetrical in its habit; distinguished from any other by the cylindrical form which the young branches assume from the peculiar arrangement of the leaves.	1-1½ ft.	1 8	15 0	100 0
	1½-1¾ ft.	2 1	20 0	140 0
	1½-2 ft.	2 9	28 0	202 0
	3-4 ft.	3 4	35 0	252 0
Pinus austriaca (Austrian Pine) ...	9-12 in.	0 3	1 0	5 0
This handsome pine grows freely under almost every condition of life, and whilst it is the best for giving shelter to others, it is also one of the most ornamental of its class. It also stands sea exposure.	1-1½ ft.	0 3	1 6	7 6
	1½-1¾ ft.	0 4	2 6	10 0
	1½-2 ft.	0 4	3 0	15 0
	2-2½ ft.	0 6	4 0	24 0
	2-3 ft.	0 10	8 0	42 0
	2-3 ft.	3 0	31 0
Pinus Benthiana	2½-3½ ft.	4 6	48 0
A noble tree with dark green leaves about a foot long; celebrated for its superior timber.	4 ft.	6 0	66 0

The Highlands of Scotland has long been famed for producing the Hardest Trees and Plants in Britain. A Trial Order solicited.

ORNAMENTAL TREES—continued.

Name and Description.	Height.	Each.		Doe.		100.	
		s.	d.	s.	d.	s.	d.
Pinus cembra (Stone Pine)	1-1½ ft.	0	10	7	6	40	0
Rather slow growing, with a close, erect symmetrical habit; the leaves are marked with beautiful silver lines. Height 50 to 60 feet.	1½-2 ft.	1	0	9	0	50	0
	2-3 ft.	1	2	10	3	60	0
	3-4 ft.	1	7	18	9	90	0
Pinus contorta	2-3 ft.	1	5	12	6	77	0
The species, in its young state, is a compact pyramidal, densely-branched tree, with the branches much twisted and gnarled.	3-4 ft.	1	8	15	0	100	0
	4-5 ft.	2	1	20	0	140	0
	5-6 ft.	2	6	25	0	180	0
Pinus insignis	1½-2 ft.	2	1	20	0	140	0
A remarkable pine from California, where it grows from 80 to 100 feet high.	2½-3 ft.	2	11	30	0	212	0
	3-4 ft.	3	10	40	0	290	0
Pinus Jeffreyi	1½-2½ ft.	2	11	30	0	212	0
Distinct and thoroughly hardy; should have a place in every pinetum.	2-2½ ft.	3	8	38	0	275	0
	2½-3 ft.	4	8	45	0
Pinus laricio (Corsican Pine)	6-9 in.	0	8	1	0
The Corsican Pine is very seldom touched by game, makes a rapid growth, and comes early to maturity. The wood is valuable; one of the best trees as a screen or for shelter. Its value as a timber tree is becoming generally admitted. It has been extensively planted in districts where the larch does not succeed; it forms an efficient substitute.	9-12 in.	0	2	1	8	7	0
	9-15 in.	0	8	1	6	7	6
	9-18 in.	0	8	1	9	8	6
	1-1½ ft.	0	8	2	0	9	0
	1½-1½ ft.	0	4	2	6	10	0
	1½-2 ft.	0	6	4	0	24	0
	2-3 ft.	0	10	8	0	42	0
	3-4 ft.	1	4	12	0	72	0
Pinus maritima	9-12 in.	0	9	7	0	87	6
A beautiful tree, succeeding best near the sea, standing the strong breeze well.	2-3 ft.	2	2	21	0	150	0
	3-4 ft.	2	9	27	9	200	0
Pinus montana (The Mountain Pine)	6-12 in.	0	8	1	6	6	0
A densely-branched tree or shrub growing from 6 to 15 feet high; the upper branches are ascending, lower ones generally decumbent.	9-12 in.	0	8	1	9	7	6
	1-1½ ft.	0	4	2	0	10	0
	1½-2 ft.	0	4	2	3	12	0
Pinus monticola	9-12 in.	1	1	10	0	57	0
A tall tree, similar in habit to the Weymouth Pine, but with shorter and darker leaves.	9-15 in.	2	6	24	6	175	0
	1½-2½ ft.	3	9	39	6	285	0
Pinus muricata	1-1½ ft.	1	8	15	0	100	0
A distinct species; somewhat irregular growth.	1½-2 ft.	2	1	20	0	140	0
Pinus parviflora	1-1½ ft.	2	6	25	0	180	0
A distinct small-growing species, well-furnished trunk and dense foliage. Foliage underneath has got a pretty silvery appearance.	1½-2 ft.	3	9	39	6	285	0
	2-3 ft.	3	8	39	0
	3-4 ft.	3	9	39	0
Pinus pinea	4-6 in.	0	6	4	8	25	0
A pretty picturesque tree; thrives best in a sandy soil in a sheltered position. It is somewhat tender.	1-1½ ft.	1	8	15	0	100	0
	1½-2 ft.	2	4	22	6	162	0
	2-2½ ft.	2	11	30	0	212	0
Pinus ponderosa	6-9 in.	0	4	2	6	10	0
A very large tree, the bark of which is divided into large flat smooth plates, 4 to 8 inches broad. Leaves deep glaucous green, rather rigid. Height 100 to 150 feet upwards.	6-10 in.	0	4	3	0	12	6
	1-1½ ft.	0	6	4	6	25	0
	1½-2 ft.	0	9	6	6	35	0
	2-2½ ft.	1	0	9	0	50	0
Pinus rigida	1½-2 ft.	1	4	12	0	72	0
This species is much branched at the top, and forms a dense head of a light green shade; splendid specimen.	3-4 ft.	1	8	15	0	100	0
	4-5 ft.	2	6	24	0	180	0
	5-6 ft.	2	11	30	0	212	0
Pinus strobus (Weymouth Pine)	9-12 in.	0	4	3	0	18	0
Also known as the "Canadian White Pine." Timber is white and free from knots; it is easily worked, generally employed for house carpentry. This tree is one of the largest and most ornamental, and deserves a prominent place in all mixed plantations.	1-1½ ft.	0	6	4	8	25	0
	1-1½ ft.	0	8	5	6	30	0
	1½-2 ft.	0	10	7	6	40	0
	2-3 ft.	1	5	12	6	77	0
	2-4 ft.	1	8	15	6	100	0
	4-5 ft.	2	1	20	0	140	0
Pinus sylvestris (Scotch Fir)	1-1½ ft.	0	8	1	9	7	1
This is the most valuable timber tree of the genus. It is found in great profusion in the native forests in the Highlands of Scotland. Our stock of Scotch Fir Seed is collected from all the most famous native forests; specially gathered for ourselves.	1½-2 ft.	0	8	2	8	9	1
	2-2½ ft.	0	4	2	6	12	0
	2-3 ft.	0	4	2	9	15	0
	2½-3 ft.	0	6	4	6	25	0
	3-4 ft.	0	8	5	6	30	0
	3-4 ft.	0	10	7	6	40	0
Podocarpus koraiana	1-1½ ft.	1	8	15	0	99	0
Very distinct and ornamental, having dark glossy green leaves; upright habit; large fruit on long peduncles.	1½-2 ft.	2	4	22	6	162	0
	2-3 ft.	2	11	30	0	212	0
	3-4 ft.	3	8	37	6	272	0
Plane occidentalis (London)	2-3 ft.	0	6	4	6	25	0
This is the tree used so extensively on the Thames embankment. One of the best town trees, and as single specimens in parks or avenues, near water, a most rapid grower.	3-4 ft.	0	8	6	0	31	8
	5-6 ft.	1	1	10	0	57	0
	7-8 ft.	2	6	25	0	180	0
	8-9 ft.	2	11	30	0	212	0
Poplar abele (New Silver)	1-1½ ft.	0	8	1	9	8	0
Poplars are very ornamental, and are particularly suitable for planting in street, park, or avenue. This variety is well adapted for low lands and river valleys, as it likes a deep moist soil; the wood of this tree is white in colour.	1½-2 ft.	0	8	2	0	8	6
	2-3 ft.	0	8	2	3	10	0
	3-4 ft.	0	4	2	6	11	3
	4-5 ft.	0	5	3	0	18	0
	5-6 ft.	0	5	3	6	18	9
Poplar balsam	2-3 ft.	0	8	1	9	7	0
Young leaves of soft clear yellow; leaf buds strongly scented; habit somewhat like the Lombardy Poplar.	3-4 ft.	0	4	2	6	10	0
	4-5 ft.	0	4	3	0	15	0
	5-6 ft.	0	5	3	6	20	0
Poplar, Black Italian	3-4 ft.	0	8	1	6	6	8
This is one of the quickest-growing forest trees, admirably adapted for screens and shelter. The wood is light, much used for carving.	4-5 ft.	0	8	2	0	7	6
	5-6 ft.	0	4	2	6	10	0
	6-7 ft.	0	4	3	0	15	0
Poplar, Boileana	4-5 ft.	0	9	7	0	87	6
A strong-growing handsome tree having the habit of the Lombardy variety, with the leaves of the Abels.	5-6 ft.	1	0	9	0	50	0
	6-7 ft.	1	2	10	6	62	6
	7-8 ft.	1	5	12	9	80	0
Poplar, Canadian	4-5 ft.	0	4	2	6	15	9
Known as the Necklace Poplar. The tree is remarkable for its rapidity of growth. Its upward growth under similar circumstances is	5-6 ft.	0	5	3	6	20	0
	6-7 ft.	0	6	4	6	25	0
	7-8 ft.	0	10	7	6	40	0

WISEMAN, FOR RELIABLE, ELGIN TREES & PLANTS,

ORNAMENTAL TREES—continued.

Name and Description.	Height.	Each		Doz.		100.	
		s.	d.	s.	d.	s.	d.
Poplar, Canadian —continued							
equal to that of the Lombardy variety; its strong side branches and larger leaves at once show a decided superiority.	8-9 ft.	1	1	10	0	57	0
	9-10 ft.	1	8	15	0	99	0
	10-11 ft.	1	11	18	0	125	0
Poplar, Canadian Golden ...	2-3 ft.	0	8	5	0	28	0
Useful ornamental tree, differing from the type in the decided golden-yellow tint of the leaves.	3-4 ft.	0	10	7	8	37	0
	5-6 ft.	1	5	12	6	77	0
Poplar, canadensis nova ...	2-3 ft.	0	4	2	6	10	0
This is undoubtedly the coming tree for street, park, or avenue planting. It does splendidly in smoky towns, and is of fine pyramidal habit, with bold shining foliage.	3-4 ft.	0	4	8	0	18	0
	4-5 ft.	0	5	8	6	20	0
	6-7 ft.	0	7	5	0	28	0
	7-8 ft.	0	10	8	0	42	0
Poplar, Lombardy ...	1-1½ ft.	0	8	1	6	4	0
As an upward screen, this variety is ornamental and useful; it grows very rapidly, and is of splendid pyramidal habit. As a town tree it has no rival; it also rises in a narrow space and endures the influence of smoke better than almost any other.	1½-2 ft.	0	8	1	9	5	0
	2-3 ft.	0	8	2	0	6	0
	3-4 ft.	0	8	2	8	8	0
	4-5 ft.	0	4	2	6	10	0
	5-6 ft.	0	4	8	0	15	0
	6-7 ft.	0	6	4	6	25	0
Poplar, Ontario ...	1-2 ft.	0	8	2	0	8	0
In appearance and fragrance this variety resembles the Balsam Poplar, leaves larger and rounder, and altogether of more robust growth; broad leaves and pleasant fragrance when young, makes it an interesting object.	2-3 ft.	0	4	2	8	10	0
	3-4 ft.	0	4	2	6	12	8
	4-5 ft.	0	4	2	9	15	0
	5-6 ft.	0	4	8	0	20	0
	6-7 ft.	0	5	4	0	24	0
Poplar, silver-leaved ...	2-3 ft.	0	4	2	6	12	8
A magnificent silver variety; very hardy, and forms shelter rapidly. One of the best trees for poor or sandy land, and thrives admirably near the coast.	4-5 ft.	0	6	4	6	25	0
	5-6 ft.	0	11	8	6	45	0
	6-7 ft.	1	0	9	0	50	0
	8-9 ft.	1	5	12	6	77	0
Prunus pissardii ...	2-3 ft.	1	5	12	6	77	0
Deep reddish-purple foliage lasting well into the autumn, and contrasts beautifully with other trees. By pruning well in the winter it makes strong and vigorous shoots.	3-4 ft.	1	7	14	0	92	0
	4-5 ft.	1	11	18	0	125	0
	5-6 ft.	2	1	20	0	140	0
	6-7 ft.	2	4	28	0	167	0
Pyrus Aria (Service Tree) ...	1-1½ ft.	0	8	2	0	6	0
Known also as the White Beam Tree. It is a very hardy tree of great duration, and in most respects resembles the Mountain Ash. The foliage is light green above and downy underneath, which causes it to have a striking and varied appearance when ruffled by the wind; makes a good avenue or park tree.	1½-2 ft.	0	4	2	8	10	0
	2-3 ft.	0	4	8	0	15	0
	3-4 ft.	0	6	4	6	25	0
	4-5 ft.	0	8	6	0	31	8
	5-6 ft.	0	10	7	6	40	0
	6-7 ft.	1	1	10	0	57	0
	7-8 ft.	1	5	18	0	82	0
Pyrus Aucuparia fructo aurea ...	4-5 ft.	1	4	12	0	72	0
A beautiful yellow-berried variety; makes a splendid contrast when mixed among the red-fruited kinds.	5-6 ft.	1	7	14	0	98	0
	6-7 ft.	1	9	16	0	107	0
	6-8 ft.	1	11	18	0	125	0
Pyrus japonica ...	1-1½ ft.	0	5	8	6	20	0
A splendid deciduous shrub with deep scarlet blossoms produced the greater part of the year; fruit green; very fragrant.	1½-2 ft.	0	6	4	8	25	0
	2-3 ft.	1	5	12	6	77	0
	3-4 ft.	1	8	15	0	99	0
Quercus rubra (Champion or Red Oak) ...	2-4 ft.	0	8	6	0	81	8
A beautiful variety, the foliage after the first frost turning to a rich deep red colour, giving the tree a magnificent appearance. Bark of trunk dark grey, rather smooth.	5-7 ft.	2	4	22	6	162	0
	6-8 ft.	2	6	25	0	180	0
	8-10 ft.	8	8	87	6	272	0
	10-12 ft.	5	6	60	0	
Retinospora ericoides ...	9-12 in.	0	6	5	0	28	0
A well-known, dwarf, compact, conical bush; foliage bright green above, glaucous beneath, assuming a ruddy tint in winter.	12-16 in.	0	10	7	6	40	0
	15-18 in.	1	0	9	0	50	0
	1½-2 ft.	1	4	12	0	72	0
Retinospora filifera ...	2-2½ ft.	1	6	18	6	87	6
Graceful thread-like branchlets; elegant habit. A dwarf tree with irregular outline.	3-4 ft.	5	0	54	0	
	4-5 ft.	5	6	60	0	
Retinospora leptoclada ...	1-1½ ft.	1	5	12	6	77	0
A handsome pyramidal-formed shrub of a bright green colour; branches very closely set.	1½-2 ft.	2	1	20	0	139	0
	2-3 ft.	6	8	69	0	
Retinospora obtusa ...	2½-3 ft.	2	11	80	0	212	0
A tall evergreen tree, with bright shining evergreen foliage; forms a beautiful specimen.	3-4 ft.	8	8	87	6	272	0
	4-5 ft.	6	8	69	0	
Retinospora obtusa compacta ...	1-1½ ft.	1	6	18	6	87	6
Magnificent variety of dwarf and compact habit; very attractive.	1½-2 ft.	2	4	22	6	162	0
	2½-3 ft.	5	6	60	0	
Retinospora pisifera ...	1½-2 ft.	0	11	8	6	45	0
Splendid quick-growing variety with long, leathery branches.	2-3 ft.	1	4	12	8	75	0
	3-4 ft.	2	11	90	0	212	0
Retinospora pisifera aurea ...	1-1½ ft.	1	8	15	0	100	0
Habit like preceding, but the terminal shoots are of a rich golden hue.	1½-2 ft.	2	2	21	0	150	0
	2½-3 ft.	4	11	62	6	
Retinospora plumosa ...	9-12 in.	0	8	5	6	30	0
A dense-growing variety with conical habit. The varieties of this are extremely beautiful dwarf shrubs.	1-1½ ft.	0	10	7	6	40	0
	1½-2 ft.	1	0	9	0	50	0
	2-3 ft.	1	1	10	0	57	0
Retinospora plumosa alba var. ...	9-12 in.	1	2	10	6	62	6
Many of the branchlets pure white, imparting a speckled appearance to the plant; highly ornamental.	12-15 in.	1	4	12	0	72	0
	1-1½ ft.	1	7	14	0	91	0
	1½-2 ft.	1	10	17	0	116	0
Retinospora plumosa argentea ...	1-1½ ft.	1	5	12	6	77	0
Nearly the whole of the young growth creamy-white, becoming green when matured.	1½-2 ft.	2	4	22	6	162	0
	2-3 ft.	5	0	54	0	
Retinospora plumosa aurea ...	9-12 in.	0	10	7	6	40	0
Young shoots and foliage of a light golden-yellow, gradually becoming deep green as the season advances; very distinct and ornamental.	1-1½ ft.	1	1	9	6	55	0
	1½-2 ft.	1	8	15	0	106	0
	2-3 ft.	2	11	30	0	212	0
Rhamnus Frangula ...	1½-2 ft.	0	5	3	6	20	0
Very ornamental sort; the wood, called Black Dogwood, is used by gunpowder makers.	3-4 ft.	0	6	4	6	25	0
	4-5 ft.	0	10	7	6	89	0

The Highlands of Scotland has long been famed for producing the Hardest Trees and Plants in Britain. A Trial Order solicited.

Ribes albidum White flowers, slightly suffused pink; a most beautiful variety.	1½-2 ft. 2-3 ft. 3-4 ft.	0 6 0 8 1 2	4 6 5 6 10 6	25 0 30 0 62 8
Ribes atrosanguineum The most beautiful variety of the family; flowers very deep red, produced on long racemes.	1-1½ ft. 1½-2 ft. 2-3 ft. 3-4 ft.	0 4 0 5 0 6 0 8	2 6 3 6 4 6 5 6	15 0 20 0 25 0 30 0
Ribes aureum A very dwarf sort with beautiful yellow flowers; well adapted for rockeries.	1½-2 ft. 2-3 ft. 3-4 ft.	0 7 0 9 1 0	5 0 7 0 9 0	28 0 37 6 50 0
Ribes flore plena Flowers double, of a rich red colour; late and lasting.	1½-2 ft. 2-3 ft. 3-4 ft.	0 5 0 8 1 0	8 6 5 6 9 0	20 0 30 0 50 0
Ribes sanguineum Flowers deep rose colour, formed on beautiful long drooping racemes.	1½-2 ft. 2-3 ft. 3-4 ft.	0 9 0 11 1 2	7 0 8 6 10 6	37 6 45 0 62 6
Rosemarinus officinalis (Rosemary) ... A well-known hardy evergreen shrub; the foliage is used for what is called "Rosemary Tea," a decoction sometimes employed for relieving headaches; produces purple flowers.	6-9 in. 9-12 in. 12-15 in. 1-1½ ft. 1½-1½ ft.	0 4 0 6 0 8 0 9 0 10	2 6 4 6 6 0 7 0 7 6	12 6 35 0 31 8 37 6 40 0
Rhododendron, Hybrid Seedlings ... Our Rhododendrons are grown in loam, which is a great advantage when required for planting in ordinary soil, as they are not checked by transplanting. They are beautiful bushy plants, and lift with fine balls; in every way superior to those grown in peat. Admittedly the most useful of all covert plants.	4-6 in. 6-9 in. 9-12 in. 1-1½ ft. 1½-2 ft. 2-3 ft. 2½-3 ft. 3-4 ft.	0 5 0 6 0 11 1 2 1 11 2 7 3 4 7 11	8 6 4 6 8 6 10 6 18 0 26 0 34 6 87 6	18 9 25 0 48 9 62 6 125 0 177 6 260 0 ...
Rhododendron Ponticum Well known and extensively planted in game preserves; it is seldom eaten by hares or rabbits, however numerous they may be; grows well under trees.	9-12 in. 1-1½ ft. 1½-2 ft. 2-3 ft. 3-4 ft.	0 8 1 1 1 9 2 2 4 0	6 0 9 0 15 9 21 0 42 0	31 8 55 8 105 0 160 0 330 0
Rubus coronarius incisus (Bramble-cut or Parsley-leaved) A handsome trailing plant of rapid growth; the leaves are much cut into narrow segments.	1-1½ ft. 1½-2 ft. 2-3 ft.	0 6 0 9 0 10	4 6 6 6 7 6	25 0 35 0 40 0
Rubus phoenicolasius (Wineberry) ... Flowers pale pink in racemes; fruit scarlet; this is a very ornamental variety.	1½-2 ft. 2-3 ft. 3-5 ft.	1 8 2 2 2 11	15 0 21 0 30 0	100 0 150 0 212 0
Salisburia adiantifolia (Maiden Hair Tree) Distinct deciduous conifer with large fan-shaped leaves. It thrives thoroughly well in almost any garden soil in the south, but in the north requires the shelter of a wall.	9-12 in. 1-1½ ft. 1½-2 ft. 2-3 ft. 3-4 ft.	0 6 0 8 0 10 1 1 1 7	4 6 5 6 7 6 9 6 14 0	25 0 30 0 40 0 55 0 91 0
Skimmia japonica fragrans The male form of Skimmia Japonica; dark glossy green foliage, white flowers, deliciously fragrant; a magnificent evergreen.	6-9 in. 9-12 in. 12-15 in. 1-1½ ft.	1 8 2 1 2 4 2 6	15 0 20 0 22 6 25 0	99 0 139 0 162 0 179 0
Skimmia oblata Admirably adapted for growing in smoky districts; in order to insure a crop of berries, it is necessary to have a plant of the male variety growing in the neighbourhood.	6-9 in. 9-12 in. 12-15 in. 1-1½ ft. 1½-2 ft.	1 4 1 7 1 11 2 1 2 3	12 0 14 0 18 0 20 0 22 0	72 0 91 0 135 0 139 0 157 0
Snowberry (Symphoricarpos racemosa) ... A well-known and favourite shrub producing in abundance pure white berries; will grow almost anywhere; often planted under the drip of trees, where other shrubs will not thrive.	1-1½ ft. 1-2 ft. 2-3 ft. 3-4 ft. 4-5 ft.	0 10 1 0 1 4 1 5 1 7	7 6 9 0 12 3 12 9 13 9	40 0 50 0 75 0 80 0 90 0
Spiraea ariaefolia One of the most elegant of Spiraeas; large upright panicles of white flowers.	1½ ft. 2-3 ft. 3-4 ft.	0 9 1 1 1 8	7 0 10 0 15 0	37 6 57 0 100 0
Spiraea Bella A very desirable variety with beautiful cymes of rose blooms.	1½-2 ft. 2-3 ft. 3-4 ft.	0 5 0 6 0 8	8 6 4 6 5 6	20 0 25 0 30 0
Spiraea callosa Free-flowering and distinct; flowers rosy-red; handsome greenhouse evergreen shrub.	1-1½ ft. 2-3 ft. 3-4 ft.	0 4 0 5 0 6	8 0 8 6 4 6	17 0 20 0 25 0
Spiraea callosa alba Splendid companion to Bumalda, being similar in habit, but flowers are white.	1-1½ ft. 1½-2 ft. 2-3 ft.	0 6 0 10 1 1	4 6 7 6 10 0	25 0 39 0 57 0
Spiraea Douglasii Panicles of rose-coloured flowers.	1½-2 ft. 2-3 ft.	0 7 0 10	5 0 7 6	28 0 39 0
Spiraea Nobleana Flowers purplish red, very floriferous, striking foliage.	1-2 ft. 2-3 ft. 3-4 ft.	0 7 0 9 0 10	5 0 6 6 7 6	28 0 35 0 39 0
Spiraea opulifolia White flowers produced in corymbs; very handsome shrub.	2-3 ft. 3-4 ft. 4-5 ft.	0 5 0 6 0 8	3 6 4 6 5 6	20 0 25 0 30 0

Veronica Traversii An invaluable species, growing into a neat and well-flowered bush; extremely hardy; flowers white.	1-1½ ft. 1½-2 ft. 2-2½ ft. 2½-3½ ft.	0 10 1 1 1 4 1 8	7 6 10 0 12 0 15 0	39 0 57 0 72 0 99 0			
Viburnum Lantana (Common Wayfaring Tree) Large clusters of white flowers; fruit red, foliage large and handsome.	2-3 ft. 3-4 ft. 4-5 ft.	0 4 0 6 0 8	2 6 4 6 6 0	15 0 25 0 33 0			

The Highlands of Scotland has long been famed for producing the Hardest Trees and Plants in Britain. A Trial Order solicited.

ORNAMENTAL TREES—continued.

Name and Description.	Height.	Each.		Doz.		100.	
		s.	d.	s.	d.	s.	d.
Viburnum opulus Known as the Cranberry Tree. Produces clusters of white flowers, succeeded by beautiful coral-red berries; pretty foliage.	1-1½ ft. 1½-2 ft. 2-3 ft. 3-4 ft.	0 5 0 6 0 8 0 9	8 6 4 6 5 6 7 0	20 0 25 0 30 0 37 6			
Viburnum opulus fl. pl. A double-flowered variety of preceding.	1-2 ft. 2-3 ft.	0 8 0 9	5 6 6 6	28 0 35 0			
Viburnum Plicatum A very handsome shrub; the flowers are all sterile, similar to the Guelder Rose, produced as freely, but are larger and whiter.	9-15 in. 1-1½ ft. 1½-2 ft. 2-3 ft.	1 1 1 4 1 8 2 6	10 0 12 0 15 0 25 0	57 0 72 0 99 0 180 0			
Walnut Common (Juglans regia) This form is a large spreading tree, which blossoms in May and ripens its fruit during the following autumn. The vigorous top root which the tree naturally strikes into the ground renders it particularly suitable for some situations. It is of great duration.	1½-2 ft. 2-3 ft. 3-4 ft. 4-5 ft. 5-6 ft. 6-7 ft. 7-8 ft.	0 5 0 6 1 0 1 2 1 6 1 11 2 2	3 6 4 6 9 0 10 6 13 6 18 0 21 0	20 0 25 0 50 0 62 6 87 6 125 0 150 0			
Walnut Black (Juglans Nigra) In this country it grows with all vigour which characterises the tree in its native country; admirably suited for lawn, becoming a large spreading tree of great beauty; the timber is of a dark colour.	1½-2 ft. 2-3 ft. 3-4 ft. 4-5 ft. 7-8 ft. 7-9 ft.	0 11 1 2 1 8 2 1 2 6 2 11	8 6 10 6 15 0 20 0 25 0 30 0	42 9 62 6 100 0 140 0 180 0 212 0			
Weigelia Amabilis Very handsome hardy shrub with graceful spreading form, rendering it remarkably well adapted for shrubberies. Flowers bright pink.	1-1½ ft. 2-2½ ft. 2-3 ft. 3-4 ft.	0 6 0 9 0 10 1 1	4 6 6 6 8 0 9 6	25 0 35 0 42 0 55 0			
Weigelia Amabilis Alba White-flowered variety of preceding. Makes a charming contrast when mixed together.	1-1½ ft. 1½-2 ft. 2-3 ft.	0 6 0 9 0 10	4 6 6 6 7 6	25 0 35 0 40 0			
Weigelia Desboisii Deep rose-coloured flowers.	1-1½ ft. 1½-2 ft.	0 8 0 9	5 6 6 6	30 0 35 0			
Weigelia Rosea A very floriferous sort with flowers of a lovely rose colour.	1-1½ ft. 2-3 ft. 3-3½ ft.	0 8 0 11 1 4	5 6 8 6 12 3	30 0 45 0 75 0			
Wellingtonia Gigantea (The Mammoth Tree of California) It attains to immense proportions in favourable districts, the famous tree called "The Father of the Forest," a great prostrate trunk, measuring 435 feet in length and 110 feet in circumference.	9-12 in. 1-1½ ft. 1½-2 ft. 2-3 ft. 3-4 ft. 4-5 ft. 5-6 ft. 6-8 ft.	1 5 2 1 2 11 3 10 4 8 5 6 6 4	12 6 20 0 30 0 40 0 50 0 60 0 70 0	77 0 140 0 212 0 290 0			
Willow, American Weeping (Salix angustata pendula) A graceful pendulous variety. Willows grow most freely when planted near water.	2-3 ft. 6-7 ft. 6-8 ft.	0 10 2 6 4 3	7 6 25 0 45 0	40 0 180 0			
Willow, Babylonica A highly-ornamental weeping variety forming a graceful and interesting tree; it requires the best of soil.	2-3 ft. 3-4 ft. 4-5 ft. 4½-5½ ft.	1 5 1 7 1 9 1 11	12 6 14 0 16 0 18 0	77 0 91 0 107 0 125 0			
Willow, Bitter Purple (Salix purpurea) Known as the Purple Osier; a very erect variety, with reddish-purple bark.	2-3 ft. 3-4 ft. 4-5 ft.	0 8 0 8 0 4	1 6 2 0 2 6	8 0 10 0 12 6			
Willow, Gold Barked A very striking variety, its rich golden bark making a remarkably fine appearance.	1-1½ ft. 1½-2 ft. 2-3 ft.	0 3 0 3 0 3	1 3 1 6 1 9	5 0 5 6 6 6			
Willow, Huntingdon A very ornamental tree of rapid growth; succeeds well in poor wet soil and marshy places, where it is of the greatest value as shelter.	1½-2½ ft. 2-3 ft. 3-4 ft. 4-5 ft.	0 3 0 3 0 3 0 3	1 0 1 6 1 9 2 0	5 0 6 0 7 0 8 0			
Willow, Kilmarnock Fine large light green foliage of graceful weeping habit.	4-5 ft. 5-6 ft. 6-7 ft.	2 11 4 3 5 0	30 0 45 0 54 0	212 0			
Willow, Laurel-leaved Large glossy foliage; very showy.	1-2 ft. 2-3 ft.	0 3 0 3	1 3 1 6	5 0 6 6			
Willow, Scarlet Barked Admirably adapted for planting on islands or on margins of ponds, etc., where the colour has a striking effect.	1-2 ft. 2-3 ft. 3-4 ft. 4-5 ft.	0 3 0 3 0 3 0 4	1 6 2 0 2 3 2 6	6 0 7 0 8 0 10 0			
Willow, Tricolor Barked The bark of this with its bright hues has a very telling and pleasing effect in winter.	1-2 ft. 2-3 ft. 3-4 ft.	0 3 0 3 0 3	1 3 1 6 1 9	5 0 6 0 7 0			
Yucca filamentosa Leaves with filaments; far the most floriferous of the Yuccas; fine white spikes of flowers of solid texture.	6-9 in. 9-12 in. 1-1½ ft. 1½-2 ft.	0 6 0 10 1 2 1 4	4 6 7 6 10 6 12 8	25 0 40 0 62 6 75 0

WISEMAN, FOR RELIABLE TREES & PLANTS, ELGIN

PENDULOUS OR WEEPING TREES.

Grown upon clean straight stems, mostly from five to eight feet in height. Amongst them will be found several beautiful variegated and purple-foliaged trees, exceedingly effective for Park Planting as well as for Churchyards and Cemeteries. All have been grown as specimens, and have been frequently transplanted.

WISEMAN, FOR RELIABLE TREES & PLANTS, ELGIN

ALL THOROUGHLY STRONG AND WELL-ROOTED.

WISEMAN'S CLIMBING PLANTS

The following List of Climbing Plants represents the finest selection available in the United Kingdom. This locality is renowned for the production of the best and hardiest climbers, and this year's selection is worthy of the best traditions of these famous Nurseries. These Plants are useful for training over walls, fences, verandahs, &c., and should be planted now.

ALL ARE IN POTS.

- | | Each. | | Each. |
|---|-------|---|-------|
| Actinidia arguta ... | 1/6 | ing to the brightest crimson in autumn. It is quite hardy, and grows in any position. | |
| A strong, quick-growing twiner, excellent for trellis work or walls, and thriving best in a light rich soil. | | | |
| Actinidia polygama ... | 1/6 | Apios tuberosa ... | 1/6 |
| A graceful twining variety with deliciously fragrant waxy white flowers; edible berries; the foliage is brightly tinted in autumn. | | | |
| Akebia quinata ... | 1/6 | An elegant little hardy perennial, easily trained almost into any shape. It must have a well exposed sunny position, and the soil should be of a warm or light sandy nature. The flowers are brownish purple, and very sweet scented. | |
| A beautiful twiner with curious chocolate-coloured flowers, very fragrant. Suitable for a cold house, but looks charming when allowed to grow over an Irish ivy or a trellis or wall. | | | |
| Ampelopsis atro purpurea 2/- | | Arbutus Unedo ... | 2/- |
| (The Strawberry Tree). Flowers pure white; large scarlet berries resembling a strawberry. It is one of the greatest ornaments in the months of October and November, the season when it is in flower, and when also the fruit of the former year is ripe. | | | |
| The Ampelopsis, near relatives of the grape vine, are amongst the most useful of hardy climbers. This is a very rich dark purple foliaged variety. Grows more strongly and clings better than Ampelopsis Veitchii. | | | |
| Ampelopsis hirsuta ... | 1/3 | Aristolochia Sipho ... | 1/6 |
| (Dutchman's Pipe). A vigorous climber with dark handsome leaves, yellow flowers veined brown, strong scented; excellent for covering arbours, climbing over large stumps, or festooning trees. | | | |
| An exceedingly showy species, the foliage assuming a brilliant red in autumn. | | | |
| Ampelopsis Hoggii ... | 1/6 | Atragene austriaca ... | 1/6 |
| A beautiful climber, closely allied to the Clematis. Flowers blue, varying to white, produced in abundance; suitable for an exposed position. | | | |
| A most tenacious climber and vigorous grower; leaves very large, often 4 to 6 inches in width, and 6 to 8 inches in length; autumn colouring very rich. | | | |
| Ampelopsis Humifolia ... | 1/6 | Azara crassifolia ... | 1/6 |
| Showy evergreen with medium-sized leaves deeply cut, suitable for a south or west aspect. | | | |
| A quite hardy and very pretty self-clinging species. | | | |
| Ampelopsis japonica ... | 1/6 | Azara dentata ... | 1/6 |
| An exquisite showy evergreen climber with sweet-scented yellow flowers. | | | |
| This variety does not turn so rich a colour in autumn as the common species, but it is nevertheless quite distinct and extremely useful, adapting itself to any position, and when established does not require nailing. | | | |
| Ampelopsis muralis ... | 1/6 | Azara integrifolia fol. var. 3/- | |
| Charming half-hardy evergreen shrub with well-defined gold-margined foliage, suitable for south or west aspect. | | | |
| A very quick-growing variety, having the growth and appearance of the old variety, but differing from that form in marked manner, as it will cling to a wall or any other support as tenaciously as the ever-popular Ampelopsis Veitchii, while it grows as freely as the common Virginian Creeper. Hence it is especially valuable where it is desired to quickly clothe a wall with foliage, as no nailing or securing is required. | | | |
| Ampelopsis quinquefolia ... | 1/- | Azara microphylla ... | 1/6 |
| Pretty small-leaved evergreen shrub, covered in autumn with small bright orange-red berries. | | | |
| This well-known and favourite lovely climber requires no praise from us, the luxuriant foliage which in autumn takes on the most gorgeous colouring, being so well known. | | | |
| Ampelopsis Roylei ... | 1/6 | Berberidopsis corallina ... | 2/6 |
| (The Coral Barberry). A beautiful evergreen climbing shrub with large spiny leaves, and bright clustered coral red flowers. | | | |
| Resembling Veitchii in habit, but of a darker claret colour; firmly adhering species. | | | |
| Ampelopsis sempervirens ... | 1/3 | Berberis Darwinii ... | 1/3 |
| Produces a great profusion of orange-coloured flowers in the early spring, followed by bright-coloured berries, well suited for walls. | | | |
| A feeble climber but a dense grower; small-leaved evergreen species, only suitable for warm districts and south aspects. | | | |
| Ampelopsis Veitchii ... | 1/3 | Berchemia volubilis ... | 3/6 |
| This variety is quite hardy, and will grow in any common soil, and is well adapted for borders or trellis work. Flowers greenish white. | | | |
| This is one of the best climbers we have for covering walls, as it clings firmly to the smooth surface, covering it smoothly with overlapping leaves, which form a perfect mass of foliage. The colour is a rich glossy green in summer, changing | | | |
| Bignonia atrosanguinea ... 2/6 | | | |
| A showy climber for a sheltered sunny spot, leaves heart-shaped, ending in tendrils; flowers reddish-purple, produced in abundance from April to August. | | | |
| Bignonia capreolata ... 1/6 | | | |
| Handsome plants, particularly suited for large houses, where, if well grown, it gives great satisfaction. Hardy in the south of England, but requires protection during the winter in Scotland. | | | |
| Bignonia grandiflora ... 2/- | | | |
| (The Scarlet Trumpet Vine). A rapid grower, flowers rich orange scarlet, in large handsome clusters. | | | |

The Highlands of Scotland has long been famed for producing the Hardest Trees and Plants in Britain. A Trial Order solicited.

CLIMBING PLANTS—continued.

	Each.		Each.
Billardiera longiflora ... 3/-		Chimonanthus fragrans ... 1/9	
Very desirable greenhouse evergreen climber; flowers greenish yellow, succeeded by blue berries, which present a striking effect; free-growing and profuse flowering.		A hardy shrub producing beautiful yellow and orange flowers. Where sweet-scented flowers are in request during the winter months the delicious aromatic fragrance of the blossoms of this shrub makes it a general favourite. It is suitable for training against walls and buildings with a south or western aspect.	
Blackberry, cut-leaved ... 1/6		Choisya ternata ... 1/6	
A handsome large-fruited variety, with very ornamental prettily-cut foliage and luscious berries.		(Mexican Orange Flower). A beautiful shrub; it thrives in a southern or western aspect. Covered in early spring with clusters of a most delicious fragrance.	
Blackberry, Iceberg ... 1/6		Cistus ladaniferus ... 1/6	
A variety of recent introduction, produces beautiful white fruit, highly spoken of.		(Gum Cistus). A beautiful shrub, growing about 4 feet high, with smooth glossy leaves, covered underneath with a dark blotch on each petal.	
Blackberry, Wilson, Jun. ... 1/-		Cocculus carolinus ... 3/-	
A magnificent variety, strong grower, and exceedingly productive.		An exquisite evergreen twining shrub; thrives well in loam or peat; flowers formed in racemes. Suitable for a wall.	
Bramble, Double-flowered ... 1/6		Cotoneaster Horizontalis ... 1/6	
We can strongly recommend this as one of the grandest flowering shrubs. Flowers rose-coloured.		Branches flat and fan-like, admirably suited for growing on walls, rockwork, etc. In a southern aspect the foliage assumes a bright crimson shade in autumn, and is very attractive.	
Bridgesia spicata ... 1/6		Cotoneaster microphylla ... 1/-	
A hardy dense vigorous evergreen creeper, with thick leathery leaves; clings as tenaciously as ivy; excellent for covering walls.		This shrub forms a singular and beautiful evergreen drooping tree, or it will cover a naked wall nearly as rapidly as ivy. It possesses a decided advantage over that plant in its shoots, which may be prevented from extending many inches from the face of the wall, and consequently not being likely to injure other plants growing near it.	
Buddleia globosa ... 1/6		Cotoneaster Simonsii ... 1/-	
(The Orange Ball Tree). Globular heads of bright orange-yellow fragrant flowers.		Very handsome variety with large red berries in great abundance during winter.	
Calystegia Gigantea ... 1/-		Cotoneaster thymifolia ... 1/-	
A beautiful trailer and twiner, with single flowers during summer and autumn; north or south aspect.		A very pretty evergreen, growing about a foot high. The foliage is of dark shining green, above silvery white beneath; produces beautiful scarlet berries.	
Calystegia incarnata ... 1/-		Corokia buddleioides ... 1/6	
This is a lovely rose-coloured variety, useful for stumps of trees and rustic work; suitable for north or south aspect.		Charming yellow sweet-scented flowers borne in panicles; suitable for covering a wall.	
Calystegia pubescens fl. pl. 1/-		Coronilla Emerus ... 1/6	
Pretty pale rose flowers, which are freely produced throughout the summer.		(Scorpion Senna). Yellow flowers produced in abundance; attains a height of 3 to 4 feet. This may be grown as a shrub, but thrives best when planted against a wall.	
Caryopteris Mastacanthus 2/6		Crataegus fructo-lutea ... 1/6	
A handsome greenhouse herbaceous plant, producing an abundance of rich violet-coloured flowers. It requires plenty of water during the summer.		Beautiful variety with yellow berries; in other respects similar to preceding.	
Ceanothus ... 1/6		Crataegus Lelandi ... 1/6	
A charming shrub particularly suited for covering walls with almost all aspects; of free and neat growth. Flowers blue.		A fine evergreen wall shrub; produces its brilliant scarlet berries in greater profusion and on smaller plants than any other variety.	
Ceanothus Americana ... 1/6		Crataegus Pyracantha ... 1/3	
An exquisite variety, small white flowers in great profusion; very effective.		(The Fiery Thorn). Produces white flowers in May, succeeded by handsome scarlet berries, remaining on the tree all the winter; fine plant for shrubberies.	
Ceanothus azureus Gloire de Versailles ... 1/6		Cydonia japonica ... 1/6	
Long spikes of beautiful lavender blue flowers, produced from summer till late in autumn; very fragrant; suitable for a south aspect.		(Japanese Quince). Brilliant scarlet flowers blooming early in spring. Forms a most imposing object on a wall or as a shrub in the border; suitable for a north aspect.	
Ceanothus dentatus ... 1/6		Cydonia japonica alba ... 1/6	
An elegant little evergreen about 3 feet high, with exquisite clusters of bright blue flowers.		Similar to preceding, but with pure white flowers; splendid contrast.	
Ceanothus divaricatus ... 1/6		Cydonia japonica cardinalis 2/6	
A dense broad tall-growing evergreen shrub, blooming from May till September; pale blue flowers.		The flowers are large and of a deep crimson colour; one of the most handsome of this class.	
Ceanothus papillosus ... 1/6		Cydonia japonica Moerloesi 2/-	
Pretty blue flowers which are produced in dense clusters; requires protection during winter.		A beautiful rose and white flowering form, and a good Spring flowering shrub. Well worthy of note by all interested in early blooming plants; suitable for a wall or as a shrub.	
Ceanothus rigidus ... 1/6			
In sheltered positions forms a stiff evergreen bush, about 5 feet high. Flowers deep purple, blooming in April and May.			
Ceanothus Veitchianus ... 1/6			
Bright blue flowers disposed in dense clusters; thrives best with a south aspect.			
Celastrus scandens ... 1/3			
A magnificent climbing shrub. Flowers pale yellow, borne on terminal racemes during May and June. They are succeeded by lovely orange-coloured berries; very striking appearance.			
Cercis Siliquastrum ... 1/6			
Ornamental hardy trees; for their singular beauty they deserve a place in every garden and shrubbery. In northern parts of this country they require to be planted against a wall, in which situation they thrive admirably. Flowers bright purple.			

WISEMAN, FOR RELIABLE TREES & PLANTS, ELGIN

CLIMBING PLANTS—continued.

- Cydonia japonica nivalis** ... 1/6
Each.
A splendid new variety; flowers very large and of the purest white.
- Cydonia japonica princeps** 2/-
A beautiful sort, with deep scarlet flowers; free flowering.
- Cydonia japonica Simoni** ... 1/6
A magnificent variety; the blooms are large and of a rich dark colour; a most desirable sort, whether as a bush trained against a wall or treated as an ornamental hedge plant.
- Cydonia Maulei** ... 1/6
One of the most beautiful of recently-introduced shrubs, fine fruiting and dense growing, flowering so freely that the plants seem clothed in scarlet, succeeded by golden yellow fruit, useful for jam.
- Desmodium penduliflorum** 1/6
A slender and graceful shrub, rich violet-coloured flowers produced in great quantity in long drooping racemes.
- Eccremocarpus scaber** ... 1/6
(Chilian Glory Pea). This is a hardy variety, but requires a sheltered situation, and is better of being slightly protected during winter. A useful plant for covering walls, trellises, and pillars. Flowers deep orange red.
- Eleagnus glabra** ... 1/6
(Wild Olive or Oleasters). Very ornamental evergreen shrubs, leaves pale green above, clothed below with rusty-coloured scales; suitable for south or west aspect.
- Eleagnus glabra foliis var.** 1/6
A lovely variegated form of preceding.
- Eleagnus hortensis angustifolia** ... 2/-
A handsome deciduous tree, hardy leaves all over, with stellate hairs 2 to 3 inches long; suitable as a climber or for growing as a shrub.
- Eleagnus japonicus varie.** 1/6
The variegation of this variety is very distinct and bright; useful and decorative plant for rock gardens.
- Eleagnus longipes** ... 1/6
Fruit orange, studded with small ferruginous scales and produced in clusters. A very desirable evergreen shrub; does well planted against a wall.
- Eleagnus macrophylla** ... 1/6
Foliage large, bright green above, covered underneath with silvery scales. Grows about 6 feet high, and suitable as a climber or growing as a shrub. Thrives with south or west aspect.
- Eleagnus pungens varie.** ... 1/6
A spring shrub, leaves elegantly bordered white; silvery beneath.
- Eleagnus reflexa argentea** ... 1/6
(Missouri Silver-leaved Oleaster). A lovely silver foliaged form, invaluable for rock gardens, or planting near the sea.
- Escallonia floribunda** ... 1/6
For training against walls few shrubs are more suitable, and on the sea coast they flourish remarkably well. This variety has white flowers, which are produced in July.
- Escallonia Ingrami** ... 1/-
Clusters of charming pink flowers, invaluable as a hedge or shelter plant.
- Escallonia macrantha** ... 1/3
(Chilian Red Gum-box). Exquisite evergreen climbing shrub of rapid growth, bright shining green leaves with coral pink flowers, suitable for south walls.
- Escallonia Philippiana** ... 1/6
A distinct variety, flowers densely crowded in long bushes, leaves smaller and deeper green than other sort.
- Escallonia pterodadon** ... 1/6
Beautiful pink and white flowers, very small leaves, growing about 4 feet high.
- Escallonia rubra** ... 1/6
Cash.
This is a red flowering variety, producing bloom from July to September.
- Forsythia suspensa** ... 1/-
Does well in a border, on rock-work, or trained against a wall; flowers bright yellow, flowering early in spring.
- Forsythia viridissima** ... 1/-
A variety with beautiful yellow flowers that bloom in early spring before the foliage appears on the plant.
- Fremontia californica** ... 6/-
A beautiful hardy shrub, thriving well on a west wall, on a bush in the southern counties; flowers bright yellow, measuring about 2 inches across.
- Garrya elliptica** ... 1/6
Handsome evergreen shrub, succeeds best against a wall, producing in mid-winter beautiful pendulous catkins proceeding from near the apex of their shoots; last well as out flowers.
- Garrya foemina** ... 2/-
The female form; flowers resembling those of G. Elliptica, but catkins shorter.
- Garrya macrophylla** ... 2/6
An exquisite large-leaved variety, growing about 6 feet high; seen to the greatest advantage when grown against a wall or trellis.
- Gelsemium sempervirens** ... 1/6
- Griselinia littoralis** ... 1/6
Magnificent evergreen, suitable for planting by the coast or in sheltered positions.
- Humulus Lupulus** ... 1/-
The common Hop is too well known to require any remarks. A vigorous and quick-growing perennial.
- Hydrangea scandens** ... 1/3
The climbing hydrangea; flowers white or flesh-coloured, in heads upwards of 6 inches in diameter; a very tall climber.
- Hymenanthera crassifolia** 1/6
Flowers yellowish, succeeded by pure white berries completely covering the branches; very ornamental; suitable for rockeries.
- Indigofera floribunda** ... 1/6
Flowers pale red, indistinctly stalked racemes in early autumn, graceful feathery foliage; makes better growths, and flowers more freely against a wall.
- Jasminum affinis** ... 1/3
Differs from *Jasminum officinalis*; more copious in florescence, and larger flowers.
- Jasminum fruticens** ... 1/3
A hardy evergreen variety of shrubby habit; yellow flowers of great profusion.
- Jasminum humile** ... 1/3
A charming bright free-flowering wall form, producing deliciously-fragrant yellow flowers from May to October.
- Jasminum nudiflorum** ... 1/3
(Yellow Winter Jasmine). This variety blooms very early in the year, the flowers being produced before the foliage. A very useful climber to cheer up a garden during the dull days of winter. Suitable for a north or south aspect.
- Jasminum nudiflorum fol. aureus** ... 1/3
A beautiful variegated form of preceding; very showy.
- Jasminum officinalis** ... 1/3
This lovely old-fashioned, sweet-scented pure white jasmine should have a place in every garden, wherever the owner loves sweet perfume.
- Jasminum Officinalis major** 1/3
Stronger than the former, with flowers double the size.
- Jasminum Reevesi** ... 1/3
An evergreen summer-flowering Jasmine, with handsome bright yellow blooms admirably adapted for growing in towns.

The Highlands of Scotland has long been famed for producing the Hardest Trees and Plants in Britain. A Trial Order solicited.

CLIMBING PLANTS—continued.

Each.

Jasminum revolutum ... 1/3

An evergreen variety with bright golden yellow flowers, blooming throughout the summer; hardy enough for wall culture.

Jasminum Wallichianum ... 1/3

This is a pretty strong-growing variety, with golden yellow flowers, larger than the preceding.

Kadsura japonica ... 2/6

This is a splendid shrub for growing against a wall; flowers white in pendules; smooth thick oval leaves.

Kadsura japonica fol. var. 2/6

Pretty variegated form of preceding; thrives in almost any soil if grown against a wall.

Kerria japonica ... 1/-

A handsome erect hardy plant; fine orange yellow flowers, bright green foliage; suitable for north aspect. Succeeds best in good loamy soil.

Kerria japonica fl. pl. ... 1/3

A double-flowered variety of preceding, having a very graceful habit, being nearly always in flower.

Kerria japonica variegata 1/-

A very pretty form, having the leaves variegated with sea-green, creamy with pure white; useful for front of borders.

Lardizabala biternata ... 2/6

A handsome shining thick-leaved evergreen climber. In warm situations it is hardy, but requires protection in Scotland during winter.

Lathyrus ... 1/-

The Lathyruses are most beautiful climbers for low walls, trellises, faces of rocks, banks, etc.; they grow freely and last in flower a long time. We can supply either the white or rose-coloured variety.

Ligustrum japonicum ... 1/6

A robust-growing evergreen shrub with large coriaceous leaves, beautiful white flowers, slightly fragrant blooms in June. Excellent for the neighbourhood of large towns, where a smoky atmosphere prevails.

Lonicera aurea reticulata ... 1/-

(Golden Honeysuckle). An excellent fine kind; leaves pale green with golden network flushed with pink or rose during the autumn, and remaining on all the winter; one of the most useful all-round climbers in cultivation, especially good for baskets, window-boxes. It is a beautiful combination with the old Virginian Creeper.

Lonicera brachypoda ... 1/-

Foliage pale green, almost evergreen; flowers pale yellow, deliciously fragrant.

Lonicera Etrusca ... 2/6

A handsome form, flowers being purple on the outside and yellow inside; very sweet-scented blooms during May and June.

Lonicera flava ... 1/3

(Yellow Trumpet). Yellow form of scarlet trumpet; very robust grower; flowers pale yellow, with smooth glaucous green leaves; very fragrant.

Lonicera flexuosa ... 1/3

An evergreen sort with pale yellow perfumed flowers and long ovate leaves; a fast grower and fills up remarkably well; one of the best for winter gardens.

Lonicera halleana ... 1/-

Flowers red villous on the outside and white within; a vigorous grower, filling up well as it travels.

Lonicera hirsuta ... 2/-

Flowers yellow, formed in long racemes. Blooms during June and July.

Lonicera implexa ... 2/-

An evergreen variety with reddish yellow flowers; very fragrant. Blooms all through the summer.

Lonicera Periclymenum ... 1/-

A well-known wild form, with yellowish sweet-scented flowers.

Each.

Lonicera sempervirens ... 1/8

(Scarlet Trumpet). A strong rapid grower, blooms very freely; bright red trumpet-shaped flowers. This is a most desirable variety.

Lonicera serotina ... 1/-

Known as the Late Dutch, the best all-round sort among the older varieties. Flowers red, blooming continuously.

Lycium barbarum (Tea Tree) 1/6

A quick-growing shrub with rambling habit, suitable for trellis, arbours, etc.; will thrive in almost any well-drained porous soil.

Magnolia acuminata ... 2/6

A large elegant deciduous tree, flowers green tinged with yellow; an excellent climber; fruit about 3 inches long, when young somewhat resembling a cucumber.

Magnolia conspicua ... 3/6

(Yulan Tree). Flowers white, sometimes suffused with purple; very fragrant, free flowering.

Magnolia glauca ... 4/-

A very desirable hardy evergreen shrub, with very sweet-scented white flowers, blooming from May till July, admirably adapted for growing against a wall.

Magnolia grandiflora ... 3/6

This is very suitable for planting against the wall of a house where a considerable space is to be covered, its massive evergreen leaves and large white blossoms being especially distinct and attractive in late summer and autumn.

Magnolia macrophylla ... 3/6

Flowers white, suffused with purple at base, 8 to 10 inches in diameter; strongly perfumed. A grand quick-growing variety.

Magnolia tripetala ... 3/-

A free-growing variety with rambling habit; flowers white, with a slight, but not altogether agreeable, perfume 4 to 6 inches in diameter. Succeeds well against a wall.

Menispermum Canadense ... 1/6

(Moon Seed). A very hardy slender climber of quick growth, with heart-shaped foliage and long graceful clusters of yellowish flowers.

Molonetia Asiatica ... 3/-

Muehlenbeckia complexa ... 1/6

This is a hardy climber of great beauty; it enjoys a sunny position and well-drained or sandy soil, and makes an effective subject for rock work. In habit it is dense and diffuse, and from the distinct form and colour of its foliage, together with the graceful spray-like branches, it is most valuable for cutting purposes.

Passiflora coerulea ... 1/6

A pretty and distinct well-known climber, producing curiously-formed blue flowers. Very rapid growth; thrives best in a sheltered position.

Passiflora Constance Elliott 1/6

A seedling from P. Coerulea; flowers pure white, a valuable addition, quite hardy.

Passiflora Newmani ... 1/6

Passiflora racemosa ... 2/6

Flowers of a deep scarlet colour formed on long drooping racemes; it blooms continually from March to October.

Periploca græca ... 1/6

(Virginian Silk Vine). Very quick grower, with beautiful smooth shining leaves; suitable for covering trellises, arbours, etc.

Photinia japonica ... 2/6

A handsome shrub or tree, particularly well adapted for wall culture; flowers white in drooping racemes; fruit about the size of a small apple, of pale orange red colour, but owing to the late period of flowering the fruits are scarcely ever produced here in the open.

Physianthus Albens... ... 2/6

(White Bladder Tree). This climbing shrub is suitable for greenhouse or conservatory, and is well adapted for training up

WISEMAN, FOR RELIABLE ELGIN TREES & PLANTS,

CLIMBING PLANTS—continued.

Each.

pillars. Flowers white with a tinge of red. In favoured spots this will succeed in the open or against a sheltered wall.

Piptanthus nepalensis ... 1/9

Known as the Evergreen Laburnum. Thrives best against a wall, but stands well in the open shrubbery in the sheltered positions; flowers yellow and somewhat similar to those of the Laburnum.

Pittosporum Tobira ... 1/6

This is a great favourite, and is largely grown for its fragrant blossoms. Can be grown as a shrub, but is better suited for planting against a wall.

Punica Granatum ... 3/-
(Pomegranate).

Excellent plant for growing against a south wall, the red fruit giving it a striking appearance; leaves tinged with scarlet when expanding.

Pyracantha Leelandii ... 1/6

(The Fiery Thorn). Handsome brilliant scarlet berries; remaining on the tree nearly all the winter.

Rubus fruticosus ... 1/-

(Common Bramble). Flowers white or pink, in terminal racemes, suitable for rookeries.

Rubus laciniatus ... 1/-

Grows freely; foliage resembling the leaves of parsley; fruits abundantly; one of the most serviceable.

Rubus phoenicolasius ... 1/6

(Japanese Wineberry or Climbing Bramble). "I am pleased to see several of your correspondents commenting so favourably on the above. Hitherto its merits as an ornamental subject seems to be more appreciated than its utility as an edible fruit; but it is undoubtedly a valuable addition to our hardy fruits, and merits a more extended cultivation as such."—"The Garden."

Salpichroa Rhomboideum ... 3/-

(The Pampas Lily of the Valley). A new hardy rapid-climbing plant, its slender herbaceous stems reaching a height of 20 to 30 feet in a few months; the numerous small white flowers are followed by berries of a delightful pineapple fragrance; suitable for pillars, trellis work, arches, balconies, etc., and a plant good for town gardens with sunny aspect.

Schizophragma hydrangeoides ... 1/6

This species is a hardy climbing shrub, closely allied to the Hydrangea, which it much resembles in its flowers; flowers white or flesh-coloured, in heads 6 inches across.

Solanum crispum ... 1/6

(Potato Tree). A very showy hardy plant admirably adapted for training against a wall; bluish-purple flowers, succeeded by yellowish white fruit, the size of peas, giving it a rare effect.

Stauntonia latifolia ... 1/6

An ornamental hardy evergreen climber, producing deliciously-fragrant pure white flowers early in spring.

Tecoma radicans ... 1/9

(Common Trumpet Flower). A strong robust hardy grower, clinging like ivy, with graceful compound leaves and showy clusters of orange-scarlet flowers.

Tecoma speciosa ... 2/-

A glabrous evergreen variety with beautiful pink flowers, stained with purple, produced from May all through the summer months.

Each.

Tropaeolum speciosum ... 1/-

(Flame Flowered Nasturtium). Covered during summer with a profusion of brilliant vermilion flowers. It thrives in cool moist situations, and when once established it grows like weeds. This is one of the finest climbing plants in cultivation. The North of Scotland is the headquarters for this variety, and we believe we have the largest stock in Britain.

Viburnum plicatum ... 2/6

Very showy shrub. The flowers are similar to the Gualder Rose, and produced as freely, but are large and white.

Viburnum macrocephalum 2/6

Admirably adapted for walls; pure white flowers formed into globular shapes; very free flowering.

Vitis æstivalis ... 2/-

(American Summer Grape). Flowers during May and June, which have a strong Mignonette-like scent; produces small black berries in autumn, when the foliage is also highly coloured.

Vitis Colnnetti ... 2/6

(Crimson Glory Vine). Leaves large of a beautiful scarlet shade in autumn. The most handsome of coloured-foliaged vines, a robust and vigorous grower; suitable for south aspect.

Vitis cordifolia ... 2/-

(Winter Grape). Very sweet-scented flowers, succeeded by beautiful bluish-black berries; does well against a wall.

Vitis heterophylla ... 1/6

(Hop-leaved Vine). Hardy climber; suitable for growing up trees or over strong-growing shrubs. Foliage variable in form, with small red berries like currants.

Vitis Labrusca ... 2/6

Flowers got a delicious mignonette fragrance; dark purple berries, which are ripe in September; a very desirable variety.

Vitis purpurea ... 2/-

Large leaves of a rich claret colour; very hardy; a medium, but fills up well.

Vitis vulpina (Fox Grape) ... 2/6

A very decorative variety; not at all affected by insects.

Wisteria frutescens ... 2/-

(American Kidney Bean). A hardy tree-climber; flowers a bluish colour, formed on long racemes, very odorous, succeeded by beautiful seed pods. Wisterias thrive in good loamy soil, and grow fast when once established.

Wisteria magnifica ... 3/-

This variety has magnificent flowers.

Wisteria multijuga ... 2/6

Flowers very similar to Sinensis, in racemes, often over 2 feet in length; colour very ornamental and desirable.

Wisteria sinensis ... 2/-

Very ornamental, bearing long racemes of pale blue flowers in great profusion; when trained over an old laburnum it makes, when in bloom, a most beautiful combination.

Wisteria sinensis alba ... 2/-

Flowers borne in long drooping clusters, as in the blue variety, of a pure white, making a most striking and elegant contrast.

Wisteria sinensis fl. pl. ... 3/6

A beautiful double-flowered form, in other respects similar to preceding Sinensis varieties.

TROPÆOLUM SPECIOSUM.

One of the most beautiful of Hardy Climbers, and grows quite freely when once established. The Plants are of vigorous growth, covered with brilliant scarlet flowers the greater part of the summer. Unlike other varieties of Tropæolum, it revels in a cool, damp, shady situation, where the sun's rays seldom or never strike upon it. Good strong well-rooted plants only. Price ONE SHILLING each, Post Free. Order early. Being grown in small pots, they can be removed at any time, and packed to go by Parcel Post to any part of Britain. Cultivation—Plant 6 to 8 inches deep in rich soil, composed of Peat, Gravel, and Sand, carefully avoiding chalk and clay, which are injurious to it. Water freely.

IMPORTANT.—We have the Finest and Largest Stock of Tropæolum in Britain, and respectfully solicit a trial order. The North of Scotland is the headquarters of this variety, where it grows freely in the open and requires no protection during winter.

The Highlands of Scotland has long been famed for producing the Hardest Trees and Plants in Britain. A Trial Order solicited.

HEDERA (IVY)

Few plants are more serviceable in both large and small gardens than the old-fashioned ivy, scarcely any situation being unsuitable for it. Ivy is now extensively used to cover open railings, as an arbour, as an edging plant, as a screen for a drawing-room, for hanging baskets, and in several other ways. There is a great variety in ivies, some are light green, and there are all shades of this colour; others are deep purple, and some have light-coloured veins. The variegated kinds are very attractive, with gold, silver, and pink markings. The leaves may be said to be all sizes and shapes.

GOLD LEAVED VARIETIES.

angularis aurea ... Each. 1/6

One of the best of the gold-leaved ivies; leaves medium size, of a bright gold. A very quick, also compact, grower; very hardy; suitable for a smoky atmosphere; admirably adapted for high walls exposed to the sun; lends itself well for borders. Small plants have a striking appearance as winter decoration for window boxes.

aurea densa ... 1/6

This is the largest-leaved of true golden varieties; it is of rather slow growth, but very thick and bushy. Extremely hardy, and not in the least affected by smoke, it is perfect for a low wall with a south aspect, forming a mass of gold.

aurea marginata robusta ... 1/6

A beautiful running species of the tree ivy; very showy.

aurea spectabilis ... 1/6

The small-leaved variety; of a neat and compact habit; but of very slow growth.

canariensis aurea maculata ... Each. 1/6

A sport of the Irish Ivy, of quick growth and perfectly hardy; but in too rich soil or a shaded situation it is apt to revert to the type; the leaves are magnificently blotched with clear primrose yellow.

chrysophylla ... 1/6

This variety is excellent for walls. The leaves are of medium size, of a rich golden colour, and very free grower and neat habit, and smoke resisting; suitable for towns.

Mrs Pollock ... 1/6

In the north this thrives best on a sunny sheltered wall; the foliage is small, perfect palmate shape, and of a clear yellow, with dark veins; looks like a variegated form of *Pennsylvanica*.

succinata ... 1/6

In spring this forms a veritable coverlet of gold; rather slow grower.

SILVER LEAVED VARIETIES.

alba marginata ... 1/6

We can strongly recommend this as one of the hardest ivies in cultivation. The leaves are a good size, of very dark green, magnificently margined with creamy white; medium growth; but they fill up exceedingly well.

algeriensis marginata ... 1/6

A very large variety, blotched with silver and bordered with cream; very effective.

argentea elegans ... 1/6

This is a quite hardy variety, and not in the least affected by smoke; adapted for low walls or the sides of a house exposed to the sun; the leaves are irregularly bordered with cream; very dense, but slow growing.

Cavendishii ... 1/6

The most rapid grower of all variegated forms, but not quite hardy; the leaves, of medium size, are blotched and margined with creamy white; very serviceable and showy when balloon trained.

Crippsii ... 1/6

A very hardy variety, but a somewhat slow grower; the large leaves are beautifully splashed and margined with creamy white.

maculata ... 1/6

This is admirably suited for walls, carpeting, and rockeries; a small-foliaged form, beautifully blotched and spotted with ivory

white, retaining its variegation without difficulty.

maculata latifolia ... 1/6

This is in growth and habit similar to the Irish Ivy, and in rich soil it is liable to turn to the type; the largest leaves of any variegated ivies; finely mottled and blotched with ivory. Perfectly hardy and unaffected by smoke.

maderiensis variegata ... 1/6

This is indispensable for indoor decoration, but outside must have protection. Large irregularly cordate leaves, beautifully variegated with an exquisite creamy tint; when balloon trained it makes a grand show.

marginata pulchella ... 1/6

The stems of this variety are slender, but the plant is very hardy; the foliage is beneath the medium size, magnificently suffused with ivory white.

rhomboides variegata ... 1/6

This is not a very hardy variety; in the south it thrives exceedingly well on walls. Glauous green leaves bordered ivory with silvery marking of very rapid growth; forms several side shoots all the way up the stem.

tricolor ... 1/6

A tall hardy and quick grower. In the autumn the medium-sized leaves, which are exquisitely margined and blotched with cream, take on a deep bronze tint.

GREEN LEAVED VARIETIES.

amurensis ... 1/3

Large handsome leaves, often measuring 5 inches in length; with a little protection forms an exquisite companion to *Dentata*.

aurantiaca ... 1/3

This is a highly decorative form, remarkable for its scarlet berries; medium-sized leaves of heart shape, often reaching 5 inches in length; not very hardy.

azorica ... 1/3

Has a magnificent appearance when grown on a sheltered wall, forming a dense mass of foliage similar to that of the Irish Ivy.

Beauty of Huntingdon ... 1/3

A very attractive variety of rapid growth; leaves of medium size, similar in form to *Aurantica*.

Caenwoodiana ... 1/3

A rapid grower, filling up well as it goes along; one of the best

for towns, being unaffected by smoke; the leaves are deeply lobed and medium sized; very distinct; excellent for walls and arbours, whilst its neat habit makes it invaluable for carpeting; a splendid companion to *Emerald Green*.

canariensis (Irish Ivy) ... 1/3

This is the common large-leaved climbing ivy, the best of all for quickly clothing walls or for forming a green carpet under trees or on banks where grasses refuse to grow.

conglomerata ... 1/3

The most compact Ivy in cultivation, but a very slow grower; small twisted overlapping foliage; excellent for rockery work; also suitable for pots.

dentata ... 1/3

A large handsome Ivy of a rich deep glossy colour; leaves occasionally 8 to 9 inches in length.

WISEMAN, FOR RELIABLE TREES & PLANTS, ELGIN

HEDERA (IVY)—continued.

	Each.		Each.
Donerailensis ...	1/3	purpurea ...	1/3
A rather slow grower, but very hardy variety; pretty deep-lobed leaves with beautiful sinuate margins; foliage purplish-bronze during winter.		A strong grower, hardy, and not in the least affected by smoke; small leaves, perfect form, of purplish-bronze colour, best developed when exposed to the sun; useful for boxes and Xmas decorations; the best bronze-foliaged Ivy.	
Emerald Green ...	1/3	Raegneriana ...	1/3
This is an extremely neat and compact variety; the leaves are of medium size and rich dark green colour; one of the thickest growers known; unrivalled for filling in under trees, and perhaps the most suitable of all for graves; largely used for carpeting.		Very vigorous and fast grower, with a clear brighter appearance than almost any other variety. The leaves are heart-shaped, measuring about 4 inches in length; requires a sheltered wall; somewhat susceptible to smoke.	
Glymii ...	1/3	rhomboides obovata ...	1/3
On account of its shrubby appearance, it is best suited for a low stump; the leaves are large, glossy, and of a heart-shape; one of the most dense growers of all, and very hardy.		A very dense grower, hardy and smoke resisting variety; small thick somewhat heart-shaped leaves, in autumn assume a bright bronzy hue. Suitable for making a dense bright bush, or gathering readily round a pole.	
gracilis ...	1/3	sagittaeifolia ...	1/3
A hardy frost-resisting sort; medium leaves of typical form; the habit is similar to Emerald Green; suitable not only for walls but also for filling in underneath trees and for borders.		A very distinct and attractive form with arrow-head like foliage of good size; very hardy, of medium growth, forms a dense covering.	
minima ...	1/3	singularis ...	1/3
A distinct and singular variety, each branch forming a dense column of small three-cornered horizontal leaves; slow growth; excellent for pot or rock work.		Similar in habit and growth to the well-known hedge ivy, the leaves are of good size, slightly glaucous, the centre of leaf having a small golden blotch, but when growing it soon loses the characteristic mark.	
palmata ...	1/3	taurica ...	1/3
A medium-sized foliaged variety, very clear and attractive, but somewhat susceptible to smoke; twigs useful for cutting, being highly decorative; if not too much exposed, it does well in the country.		A most tenacious climber to its support; medium size, very thick foliage; hardy, and one of the best smoke-resisting varieties.	
pennsylvanica ...	1/3	Willseana ...	1/3
Magnificent large palmate-shaped leaves; suitable for a sheltered position, also useful for carpeting.		A medium grower filling up well, perfectly hardy and not affected by smoke; the large shining leaves in the winter become nearly black.	

Many other Varieties of Ivy in Stock.

CLEMATIS

Arranged in alphabetical order.

- Florida Group**, marked (F.), summer bloomers, flowering from the old or ripened wood, from May to July.
- Flammula Group**, marked (F.L.), climbing, small flowered, summer and autumn bloomers, flowering profusely on summer shoots.
- Hybrid Group**, marked (H.C.), these charming varieties are the result of crossing C. Coccinea with C. Star of India. They are perfectly hardy, very free flowering, and useful for cutting.
- Jackmanni Group**, marked (J.), principally large flowered summer and autumn, blooming in profuse masses on the new wood, from June to October.
- Lanuginosa Group**, marked (L.), large flowered summer and autumn, flowering successively on short lateral summer shoots, from June to October.
- Montana Group**, marked (M.), spring bloomers, with medium-sized flowers, produced in axillary clusters on the old or ripened wood, flowering from May till June.
- Patens Group**, marked (P.), large flowered, blooming from the old wood, from May till June.
- Viticella Group**, marked (V.), large flowered, summer and autumn blooming, flowering successively in profuse masses on the new wood—less continuous than the Jackmanni type—flowering from July to October.
- Coerulea Group**, marked (C.), non-climbing summer and autumn bloomers of shrubby habit.

Name	Each	Description
Alexandra (J.)	1/6	violet, light centre, free flowering
Alba Magna (L.)	2/-	pure white, purple-brown anthers
Albert Victor (P.)	1/6	deep lavender, pale bars
Ascotiensis (V.)	1/6	large azure blue flowers
Belle of Woking (F.)	2/-	blue-mauve, cream-coloured anthers
Beauty of Surrey (L.)	2/-	light grey-blue
Beauty of Worcester (L.)	2/-	lovely blue-violet shade
Blue Gem (L.)	2/-	pale cerulean blue, changing to mauve
Countess of Onslow (H.C.)	2/-	bright violet-purple, scarlet band
Coerulea (C.)	2/-	violet coloured
Coerulea Odorata (C.)	2/6	violet, white stamens, hawthorn-scented
Countess of Lovelace (F.)	2/-	bright bluish-lilac, fine double flower
Colette Deville (J.)	2/-	red, improved Mad. Ed. Andre
Cirrhosa (M.)	2/-	white, evergreen, winter flowering
Calycina (M.)	2/-	creamy-white, dotted with purple spots
Devoniensis	2/-	very showy, large flowers
Duchess of Albany (H.C.)	2/-	beautiful bright pink, with deeper centre, softening to lilac-pink round the margin
Duchess of Edinburgh (F.)	2/-	pure white, deliciously scented
Duchess of Teck (L.)	1/6	large white, mauve bar

The Highlands of Scotland has long been famed for producing the Hardest Trees and Plants in Britain. A Trial Order solicited.

**All orders of Hardy Herbaceous Plants of 2/6 value
Carriage Free, except Plants in Pots.**

HARDY ROCK, ALPINE, HERBACEOUS PLANTS, &c.

The increasing interest and demand for the different varieties of Florists' Hardy Flowers, Alpine Plants, &c., have necessitated us making still further additions to our collection, which is now replete with the most useful novelties. We credit ourselves with possessing one of the **Best Collections of Hardy Plants in Scotland**, and persons ordering may rely upon receiving strong plants from open ground (with few exceptions) instead of the small plants from pots supplied by some firms.

The moderate prices charged make a small collection of these Hardy Plants within the reach of everyone, and nothing can equal the pleasure and effect produced by watching the development and progress of a bed of these fine plants from the Crocuses, Squills, Hepaticas, &c., of early Spring, to the Asters, Sunflowers, &c., of late Autumn.

- Achillaea eupatoria**, 4 ft., flat flowers, clusters of rich golden yellow. 9d each. 7/6 per doz.
- Achillaea ptarmica**, fl. pl., 2½ ft., common "Batchelor's Button," good for cutting. 4d each. 3/- per doz.
- Achillaea ptarmica**, fl. pl., "The Pearl," white flowers, double, for cutting. 6d each. 5/- per doz.
- Achillaea tomentosa**, 6 ins., for edging or rockery, bright yellow. 6d each. 4/- doz.
- Aconitum lycoctonum**, 3 ft., long bold spikes of sulphur-yellow flowers. 6d each. 5/- per doz.
- Aconitum napellus**, 3 ft., dark blue flowers, suitable for back rows in borders. 4d each. 3/- per doz.
- Aconitum napellus bicolor**, 3 ft., flowers blue and white. 6d each. 4d per doz.
- Aconitum pyrenaicum**, 2½ ft., large pale yellow flowers. 6d each. 5/- per doz.
- Actaea serpentaria**, white spiraea-like flowers followed by berries. 6d each. 5/- per doz.
- Adonis vernalis**, 9 ins., an old favourite, flowers yellow. 6d each. 4/- per doz.
- Agrimonia officinalis**, 2 ft., beautiful spikes of yellow flowers. 6d each. 5/- doz.
- Agrostemma coronaria**, 2½ ft. (Rose Campion), free flowering plants, crimson. 4d each. 8/- per doz.
- Agrostemma coronaria atrosanguinea**, 2½ ft., dark blood-red, fine variety. 6d each. 5/- per doz.
- Agrostemma, Flos Jovis**, 1½ ft. (Flower of Jove), flowers reddish-purple. 6d each. 5/- per doz.
- Agrostemma Walkerii**. 9d each. 7/6 doz.
- Ajuga reptans purpurea**, 6 ins., rich deep bronzy-purple leaves. 4d each. 3/- doz.
- Alyssum saxatile compactum**, 9 ins. abundant bright yellow flowers. 8d each. 2/- per doz.
- Alchemilla alpina**, 6 ins., beautiful deeply-lobed leaves. 4d each. 3/- per doz.
- Anchusa italica**, 1½ ft., for shrubberies, flowers intense blue, bee feeding. 6d each. 5/- per doz.
- Anemone Baikalensis**, 9 ins., creamy-white flowers, purplish outside. 9d each. 7/6 per doz.
- Anemone japonica alba** (Honorine Joubert), 2½ ft., white flowers, late in autumn. 6d each. 3/- per doz.
- Anemone japonica**, Lady Ardilaun, 3 ft., semi-double flowers, fine variety. 6d each. 3/6 per doz.
- Anemone japonica rosea**, 2½ ft., light rose, over two inches across. 6d each. 4/- doz.
- Anemone japonica rubra**, 2½ ft., flowers bright rose, produced late in autumn. 6d each. 4/- per doz.
- Anemone japonica Whirlwind**, beautiful white semi-double flowers. 6d each. 3/- per doz.
- Antennaria Margaritacea**, 1½ ft., the old white everlasting. 4d each. 3/- per doz.
- Anthericum liliastrium**, 2 ft., white flowers issuing from tufts of grass-like foliage. 6d each. 5/- per doz.
- Antirrhinum**, Tom Thumb Sunlight, foliage yellow, flowers rosy white, spotted crimson. 1/6 each.
- Aquilegia californica hybrida**, 2½ ft., large yellow, dark orange spurs, splendid. 6d each. 4/- per doz.
- Aquilegia chrysantha**, 2 ft., a long-spurred golden-yellow, useful for cutting. 4d each. 3/- per doz.
- Aquilegia coerulea hybrida**, 2½ ft., long-spurred flowers of many shades. 6d each. 3/- per doz.
- Aquilegia glandulosa**, flowers rich deep blue, with a pure white corolla. 6d each. 5/- per doz.
- Aquilegia**, Double Mixed, excellent for borders and shrubberies. 4d each. 3/- per doz.
- Arabis alpina**, 9 ins., pure white flowers, useful for bedding and rockwork. 3d each. 2/- per doz.
- Arabis alba fol. var.**, 6 ins., leaves variegated creamy-white. 6d each. 5/- per doz.
- Armeria cephalotes**, 1½ ft., forms large tufts of narrow leaves, flowers rose. 6d each. 4/- per doz.
- Armeria Laucheania**, 6 ins., rose-coloured flowers, suitable for edgings. 4d each. 3/- per doz.
- Artemisia abrotanum** (Southern Wood), 2 ft., beautiful foliage, deliciously fragrant. 4d each. 3/- per doz.
- Artemisia vulgaris fol. var.** (Wormwood), 2 ft., ornamental foliage plants. 4d each. 3/- per doz.
- Asclepias tuberosa**, 2 ft., gorgeous clusters of bright orange red flowers. 9d each. 7/6 per doz.
- Asperula odorata** (Woodruff), 6 ins., sweet-scented white flowers. 4d each. 2/- doz.
- Asphodelus luteus**, 3 ft., golden yellow, flowers, excellent for borders. 6d each. 4/- per doz.
- Aster acris var. punctatus**, 1 ft., "Galatella acris," lilac flowers, free flowering. 6d each. 3/6 per doz.
- Aster amellus**, 2 ft., handsome variety, large violet-blue flowers. 6d each. 3/6 doz.
- Aster amethystinus**, 4 ft., beautiful mauve flowers, forming dense bushes. 6d each. 3/6 per doz.
- Aster caeruleus**, flowers blue, abundant bloomer. 6d each. 3/6 per doz.
- Aster cordifolius**, graceful habit, soft mauve flowers. 6d each. 3/6 per doz.
- Aster cordifolius "Diana"**, 4 ft., small white elegant sprays (Sept.-Oct.) 9d each. 7/6 per doz.
- Aster cordifolius elegans**, 3 ft., graceful sprays of lilac flowers. 6d each. 3/6 doz.
- Aster Corymbosus**, 2 ft., small white flowers, freely produced. 6d each. 3/6 per doz.
- Aster dumosus**, 1 ft., bushy and compact, mauve flowers. 6d each. 3/6 per doz.
- Aster ericoides**, 3 ft., graceful habit, tiny white flowers. 6d each. 3/6 per doz.
- Aster hyssopifolius**, 1½ ft., white or purple shaded flowers for borders. 6d each. 3/6 per doz.
- Aster laevis**, 5 ft., deep blue flowers, formed in long sprays. 6d each. 3/6 per doz.
- Aster laevis Apollo**, 4½ ft., showy flowers, lavender-blue, profuse bloomer. 6d each. 3/6 per doz.
- Aster linariifolius**, pale blue flowers, profuse bloomer, distinct. 8d each. 5/- doz.
- Aster novae angliae**, showy and attractive flowers, bluish-purple. 6d each. 3/6 doz.
- Aster novae angliae rubra**, 4 ft., deep crimson flowers, very showy and effective. 6d each. 3/6 per doz.
- Aster novae belgii densus**, 3 ft., dense blue sprays of flowers, very fine. 6d each. 3/6 per doz.
- Aster novae belgii floribundus**, 4 ft., numerous light blue flower heads. 6d each. 3/6 per doz.
- Aster novae belgii Formosissimus**, 4 ft., deep rosy-lilac flowers, free blooming. 6d each. 3/6 per doz.
- Aster "Trinervius"**, deep violet. 9d each. 7/6 per doz.
- Aster "Tradescantia"**, 4 ft., pinkish-white. 1/- each. 9/- per doz.
- Aster Vilmineus**, 4 ft., graceful sprays of small white flowers. 9d each. 7/6 per doz.
- Aster novae belgii**, Lady Trevelyan, 3 ft., white flowered variety, very early. 6d each. 3/6 per doz.
- Aster novae belgii nivens**, abundance of handsome flowers, free blooming. 6d each. 3/6 per doz.
- Aster novae belgii praecox**, flowers rich crimson, very striking. 6d each. 3/6 per doz.
- Aster novae belgii**, Purity, 5 ft., pure white variety, flowers with profusion. 6d each. 3/6 per doz.
- Aster novae belgii**, Robt. Parker, 6 ft., lavender-blue flowers with yellow centre. 6d each. 3/- per doz.
- Aster novae belgii**, John Wood, 4 ft., grand white cup-shaped flowers. 6d each. 3/6 per doz.
- Aster novae Angliae roseus**, 4 ft., deep rose. 9d each. 7/6 per doz.
- Aster Novelty**, 3 ft., handsome variety, very floriferous, vigorous grower. 6d each. 3/6 per doz.
- Aster puniceus pulcherrima**, 3 ft., large heads of bluish-white flowers, distinct. 6d each. 3/6 per doz.

**The Highlands of Scotland has long been
famed for producing the Hardest Trees and
Plants in Britain. A Trial Order solicited.**

HERBACEOUS PLANTS—continued.

Astrantia carniolica, 2½ ft., white, star-like flowers, greatly admired wherever seen. 6d each. 3/- per doz.

Aubretia græca, 6 ins., spring bedder, deep violet flowers. 6d each. 5/- doz.

Aubretia purpurea, 8 ins., for rockery decoration, dark purple flowers. 6d each. 3/- per doz.

Aubretia mixed, 6 ins., for rockeries, comprises many fine sorts. 6d each. 5/- per doz.

Auricula alpine, 6 ins., favourite spring flower for rockeries or borders. 4d each. 3/- per doz.

Auricula mixed seedlings, worthy of cultivating for early crops of cut flowers. 8d each. 2/- per doz.

Babiana, fine mixed, 6 ins., pretty bulbous plants, many striking colours. 2d each. 1/6 per doz.

Balsamita vulgaris, 2 ft. (Costmary), sometimes used in salads. 8d each. 2/- per doz.

Baptisia australis, 4 ft., indigo-blue flowers, in racemes, strong grower. 6d each. 5/- per doz.

Barbarea vulgaris aurea variegata, 1½ ft., small yellow flowers, foliage variegated. 2d each. 1/6 per doz.

Betonica grandiflora, 1½ ft. (Betony), beautiful purple flowers for mixed borders. 6d each. 5/- per doz.

Betonica rosea, 1½ ft., lovely rose-coloured flowers. 6d each. 5/- per doz.

Burnet, 2 ft., leaves used in soups, and with borage in cooling drinks. 6d each. 4/- per doz.

Caltha palustris fl. pl., 1 ft., bog plant, flowers double yellow, suitable for marshy soil. 4d each. 3/- per doz.

Calystegia incarnata, rose-coloured flowers, very showy. 6d each. 5/- per doz.

Calystegia pubescens fl. pl., 6 ft., double rose-flowered, pretty for balconies or porches. 6d each. 5/- per doz.

Campanula alliaricifolia, 8 ft., vigorous and stately, heart-shaped flowers. 6d each. 5/- per doz.

Campanula carpatica, 6 ins., flowers of light blue, good plant for rooms. 6d each. 4/- per doz.

Campanula carpatica alba, 9 ins., pure white, good plant for rooms. 6d. and 1/- each. 5/- and 9/- per doz.

Campanula glomerata, 1½ ft., heads of blue flowers, very free flowering. 6d each. 4/- per doz.

Campanula glomerata dahurica, 1½ ft., rich, deep violet, in large heads, very showy. 6d each. 3/- per doz.

Campanula grandiflora alba Backhousei, 3 ft., of the purest white, for exhibition. 6d each. 5/- per doz.

Campanula isophylla (Trailer), for hanging pots or baskets, flowers pale blue. 9d each. 7/6 per doz.

Campanula nobilis, 1 ft., pale purple. 9d each. 7/6 per doz.

Campanula Persicifolia, 2 ft., a well-known old variety, flowers large blue. 6d each. 4/- per doz.

Campanula pulsatilla, a small Alpine species, neat flowers on short stalks. 6d each. 4/- per doz.

Campanula pyramidalis, 3 ft., large spikes of fine blue flowers, often grown in pots. 6d each. 5/- per doz.

Campanula pyramidalis comp., 3 ft., dwarf variety, with compact growth, blue flowers. 9d each. 7/6 per doz.

Campanula sarmatica, 1½ ft., silver-grey foliage, flowers pale blue, very uncommon. 6d each. 5/- per doz.

Campanula urticifolia alba plena, 3 ft., double white flowers, one of the loveliest. 4d each. 3/- per doz.

Campanula Van Houtteii, 2 ft., strong grower, large dark blue flowers. 9d each. 7/6 per doz.

Camomile, a well-known plant, the flowers are used for medicinal purposes. 6d each. 4/- per doz.

Caraway, favourite old plants, seeds used in confectionery. 6d each. 4/- per doz.

Cardus heterophyllus, 8 ft. (Thistle), no garden should be without this. 4d each. 3/- per doz.

Carex japonica variegata, 2 ft., foliage plant, leaves striped with white. 6d each. 5/- per doz.

Carnation Avalanche, large pure white. 7d each.

Carnation Clara Novello, rich dark rose, vigorous and free. 10d each.

Carnation Countess of Paris, creamy-white, flushed flesh. 7d each.

Carnation Daniel Defoe, clear yellow ground, broadly margined with rose-red. 10d each.

Carnation Don Carlos, yellow, striped and edged rose-pink. 10d each.

HERBACEOUS PLANTS—continued.

Carnation Doncaster Glove, blood-crimson, very fragrant; vigorous. 7d each.

Carnation Duchess of Fife, lovely delicate pink, free flowering. 7d each.

Carnation Eastern Bride, pure white, free and fragrant. 6d each.

Carnation Eldorado, yellow ground, perfect form, marked rosy-red. 10d each.

Carnation Ellen Terry, deep carmine-rose. 10d each.

Carnation Evelyn, white, marked pale pink. 7d each.

Carnation Germania, deep yellow self, fine form. 6d each.

Carnation Helmsman, white self, clove scented, very fine. 10d each.

Carnation Mrs. Eric Hambro, snow white, perfect form, large flower. 9d each.

Carnation Mrs. Nicholson, deep rosy-pink, flowers of large size, free flowering. 9d each.

Carnation Raby Castle, soft salmon-pink, grand old variety. 6d each.

Carnation Salamander, salmon-scarlet, very large. 7d each.

Carnation The Cadl, rich scarlet, with exquisitely formed petals. 9d each.

Carnation Uriah Pike, deep velvety crimson, richly scented. 9d each.

Carnation, named Varieties, our selection. 6/- per doz.

Carnation Seedlings, not named. 4/- per doz.

Catananche coerules, 2 ft., free-flowering border plants, pretty blue flowers. 4d each. 3/- per doz.

Catananche coerules bicolor, 2 ft., flowers blue with white centre, for cutting. 4d each. 2/6 per doz.

Centaurea dealbata, 3 ft., large rose coloured flowers. 6d each. 5/- per doz.

Centaurea montana, 2 ft., useful and effective plant, valuable for cutting. 4d each. 3/- per doz.

Centaurea montana alba, 2 ft., beautiful white flowers, very effective. 4d each. 3/- per doz.

Centaurea montana carnea, 2 ft., flowers flesh colour, excellent for borders. 6d each. 3/- per doz.

Centaurea montana purpurea, 2 ft., rich deep purple flowers. 6d each. 3/- doz.

Centaurea montana rosea, 2 ft., flowers pale rose colour. 6d each. 3/- per doz.

Centaurea montana rubra, 2 ft., deep rosy-red flowers, very fine variety. 4d each. 3/- per doz.

Centaurea montana sulphurea, 2 ft., rare old variety, large pale-yellow flowers. 4d each. 3/- per doz.

Centaurea orientalis, 4 ft., sulphur-yellow flowers, fine plant for exhibition. 6d each. 5/- per doz.

Centaurea rigidifolia, 3 ft., rose-coloured flowers in abundance. 6d each. 3/- doz.

Centaurea ruthenica, 3 ft., graceful pinnate leaves, straw-coloured flowers. 9d each. 6/- per doz.

Centaurea Tournefortii, 3 ft., deep yellow flowers, free flowering. 9d each. 6/- per doz.

Cerastium tomentosum, 6 ins. (Snow in Summer), beautiful silvery foliage. 3d each. 2/6 per doz.

Chelidonium japonicum fl. pl., 1 ft., beautiful yellow, poppy-like flowers. 1/- each. 10/- per doz.

Chelone barbata, 3 ft., fine border species, bright scarlet flowers, fine habit. 6d each. 5/- per doz.

Chelone oblique alba, 3 ft., free flowering perennial, spikes of large creamy-white. 6d each. 5/- per doz.

Chrysanthemum, Albert Galy (Japanese), reddish terra-cotta, a grand variety. 6d each. 4/6 per doz.

Chrysanthemum, Ambrose Thomas (Japanese), 3 ft., large chestnut-red; September. 6d each. 4/6 per doz.

Chrysanthemum, Baronne G. de Brailles (Japanese), ivory-white, with faint pink flush. 6d each. 4/6 per doz.

Chrysanthemum, Blushing Bride (Pom-pone), 2 ft., lilac-white; September. 6d each. 4/6 per doz.

Chrysanthemum, Bronze Bride (Pom-pone), 2 ft., rosy-lilac and gold; Sept. 6d each. 4/6 per doz.

Chrysanthemum, Bronze Marie Masse (Japanese), bronze, a great favourite. 6d each. 4/6 per doz.

Chrysanthemum, Canary (Pom-pone), pale yellow; August. 6d each. 4/6 per doz.

Chrysanthemum, Chateau St. Victor (Japanese), amaranth; September. 6d each. 4/6 per doz.

Chrysanthemum, Coral Queen (Japanese), salmon-red, shaded fawn. 6d each. 4/6 per doz.

Chrysanthemum, Crimson Queen (Japan.), bright crimson, very fine. 6d each. 4/6 per doz.

WISEMAN, FOR RELIABLE ELGIN TREES & PLANTS,

HERBACEOUS PLANTS—continued.

- Chrysanthemum, Cullingfordii** (Japan.), scarlet, golden reverse. 6d each. 4/6 per doz.
- Chrysanthemum, De la Guille** (Japanese), deep orange, passing to yellow. 6d each. 4/6 per doz.
- Chrysanthemum, E. Duval** (Japanese), 3 ft., pure white; September. 6d each. 4/6 per doz.
- Chrysanthemum, Edith Syrratt** (Japan.), light pink, very free; September. 6d each. 4/6 per doz.
- Chrysanthemum, Flora** (Pompon), 2 ft., golden-yellow; August. 6d each. 4/6 per doz.
- Chrysanthemum, Fred Pale** (Pompon), 2 ft., crimson, tipped gold; August. 6d each. 4/6 per doz.
- Chrysanthemum, George Wermig** (Japan.), 2½ ft., sulphur Desgrange; August. 6d each. 4/6 per doz.
- Chrysanthemum, Gertie** (Japanese), salmon-pink, shaded gold. 9d each. 6/- per doz.
- Chrysanthemum, Goachers Crimson** (Japanese), bright crimson, very fine. 6d each. 4/6 per doz.
- Chrysanthemum, Golden Shower** (Pompon), golden yellow, very free. 6d each. 4/6 per doz.
- Chrysanthemum, Harvest Home** (Japan.), bronzy-red and gold, 3 ft.; September. 6d each. 4/6 per doz.
- Chrysanthemum, Horace Martin** (Japan.), deep yellow, a lovely variety. 6d each. 4/6 per doz.
- Chrysanthemum, Ivy Stark** (Japanese), rich orange-yellow, fine habit. 6d each. 4/6 per doz.
- Chrysanthemum, Jamie** (Japanese), purple-crimson, distinct colour in the early varieties. 1/- each. 9/- per doz.
- Chrysanthemum, Jules Marie** (Japanese), crimson, early flowering. 6d each. 4/6 per doz.
- Chrysanthemum, Lady Fitzwigram** (Japanese), 2 ft., early white; September. 6d each. 4/6 per doz.
- Chrysanthemum, Lyon** (Pompon), 2 ft., rosy-purple, very bright; October. 6d each. 4/6 per doz.
- Chrysanthemum, M. Backman** (Japanese), light buff, shaded salmon-cerise. 6d each. 4/6 per doz.
- Chrysanthemum, Madame Desgrange** (Japanese), white, very early; August to September. 6d each. 4/6 per doz.
- Chrysanthemum, Madame E. Lefort** (Pompon), 2 ft., orange and amber; September. 6d each. 4/6 per doz.
- Chrysanthemum, Madame Marie Masse** (Japanese), reddish-pink, splendid. 6d each. 4/6 per doz.
- Chrysanthemum, Market White** (Japan.), 2½ ft., pure white, very large and grand; September. 6d each. 4/6 per doz.
- Chrysanthemum, Miss Dove Elliot** (Japanese), pure yellow, dwarf bushy habit; September. 6d each. 4/6 per doz.
- Chrysanthemum, Miss B. Miller** (Japan.), deep golden-yellow. 6d each. 4/6 doz.
- Chrysanthemum, Mons. G. Menier** (Japanese), very free, rich velvety amaranth. 6d each. 4/6 per doz.
- Chrysanthemum, Mrs. Burrell** (Japanese), primrose sport from Madame Desgrange. 6d each. 4/6 per doz.
- Chrysanthemum, Mrs. eE. Stacey** (Pompon), splendid pink variety. 6d each. 4/6 per doz.
- Chrysanthemum, Mrs. J. R. Pitcher** (Japanese), 2 ft., blush white, free; Sept. 6d each. 4/6 per doz.
- Chrysanthemum, Mrs. Hawkins** (Japan.), 2½ ft., golden yellow; August. 6d each. 4/6 per doz.
- Chrysanthemum, Mrs. Selby** (Japanese), 1½ ft., rosy pink; August. 6d each. 4/6 per doz.
- Chrysanthemum, Murillo** (Japanese), delicate rosy-pink. 6d each. 4/6 doz.
- Chrysanthemum, Mytchett Beauty** (Japanese), 2½ ft., rich golden yellow. 6d each. 4/6 per doz.
- Chrysanthemum, Nellie Blake** (Japan.), chestnut red, large blooms, bushy habit. 9d each. 6/- per doz.
- Chrysanthemum, Notaire Groz** (Japan.), 2½ ft., pink, free, and fine. 6d each. 4/6 per doz.
- Chrysanthemum, O. J. Quintus** (Japan.), 3 ft., mauve-pink; September. 6d each. 4/6 per doz.
- Chrysanthemum, Orange Child** (Japan.), 3 ft., orange, very compact; September. 6d each. 4/6 per doz.
- Chrysanthemum, Orange Masse** (Japan.), lovely rosy-orange, very fine and free; August. 6d each. 4/6 per doz.
- Chrysanthemum, Pausiana** (Japanese), spotless white, very free and grand. 6d each. 4/6 per doz.

HERBACEOUS PLANTS—continued.

- Chrysanthemum, Percy's Seedling** (Pompon), 1½ ft., orange-yellow; September. 6d each. 4/6 per doz.
- Chrysanthemum, Queen of the Earlies** (Japanese), pure white, large and massive. 6d each. 4/6 per doz.
- Chrysanthemum, Rabbie Burns** (Japan.), 2 ft., rosy-cerise, very distinct; September. 6d each. 4/6 per doz.
- Chrysanthemum, Rosie** (Japanese), terracotta, dwarf and free. 9d each. 6/- doz.
- Chrysanthemum, Ryecroft Glory** (Japan.), 3 ft., golden yellow, very fine; October. 6d each. 4/6 per doz.
- Chrysanthemum, Ryecroft Crimson** (Japanese), 1½ ft., reddish-crimson, very fine; September. 6d each. 4/6 doz.
- Chrysanthemum, Souvr d'un Ami** (Pompon), white, dwarf and free. 6d each. 4/6 per doz.
- Chrysanthemum, White Lady** (Pompon), blush white, profuse bloomer. 6d each. 4/6 per doz.
- Chrysanthemum, White Quintus** (Japan.), white, pure, sport from O. J. Quintus. 6d each. 4/6 per doz.
- Chrysanthemum, White St. Grouts** (Pompon), 1½ ft., pure white; September. 6d each. 4/6 per doz.
- Chrysanthemum, Yellow Prince** (Japan.), golden yellow, very free and grand. 6d each. 4/3 per doz.
- Chrysanthemum, frutescens maximum** (Marguerite), 1½ ft., flowers white, with yellow centre. 6d each. 5/- per doz.
- Chrysanthemum, leucanthemum grandiflorum** (Marguerite), pure white, with yellow centre. 6d each. 5/- per doz.
- Chrysanthemum, maximum** (Marguerite), 2½ ft., pure white ox-eye flowers, very free. 6d each. 3/6 per doz.
- Cimicifuga foetida**, 3 ft., spike of bloom of the bottle-brush order. 9d each. 6/- doz.
- Convolvulus dahurica**, very pretty dwarf trailing plants, for rockery. 6d each. 5/- doz.
- Convolvulus sylvaticus**, dwarf trailing variety with dark green foliage. 6d each. 5/- per doz.
- Coreopsis grandiflora**, 3 ft., producing in abundance yellow Marguerite-like flowers. 6d each. 4/- per doz.
- Cowslip Mixed**, 9 ins., well-known spring-flowering plant of great beauty. 2d each. 1/3 per doz.
- Crucianella stylosa**, beautiful trailing plant, pale rose-coloured flowers. 6d each. 4/- per doz.
- Dactylis glomerata elegantissima**, 1½ ft., beautiful silvery-striped leaves. 4d each. 3/6 per doz.
- Dactylis glomerata aurea**, 1½ ft., yellow striped leaves, strong habit. 6d each. 5/- per doz.
- Daisies, Lord Beaconsfield**, 6 ins., dark crimson flat-petalled flowers. 3d each. 2/- per doz.
- Daisies, Rob Roy**, 6 ins., the best red, very large flowers. 2d each. 1/- per doz.
- Daisies, Snowflake**, 6 ins., large flowers of the purest white, one of the best. 2d each. 1/3 per doz.
- Daisies, White Globe**, 6 ins., globular flowers of pure white. 2d each. 1/6 doz.
- Daisies, Hen and Chickens**, 6 ins., whorl of small daisies formed round each flower. 3d each. 2/- per doz.
- Delphinium cardinalis**, 3 ft., species of scarlet flowers, with yellow eye. 6d each. 5/- per doz.
- Delphinium cashmerianum**, 1½ ft., desirable border species, pale blue flowers. 6d each. 5/- per doz.
- Delphinium hybrida**, fine spikes of rich-coloured flowers, extra fine plants. 9d each. 6/- per doz.
- Delphinium formosum**, 3 ft., an old favourite, flowers dark blue with white eye. 6d each. 5/- per doz.
- Delphinium nudicaule**, 1½ ft., dwarf species, with beautiful scarlet flowers. 6d each. 4/- per doz.
- Dianthus alpinus**, 3 ins., exquisite Alpine pink, large deep rose flowers, very dwarf. 6d each. 5/- per doz.
- Dictamnus fraxinella**, 2½ ft., old-fashioned plant, rosy purple flowers, showy. 6d each. 4/- per doz.
- Dielytra formosa**, 1 ft., drooping reddish-pink flowers, neat fern-like foliage. 6d each. 5/- per doz.
- Dielytra spectabilis**, 2 ft., flowers of rosy-crimson in long drooping racemes. 6d each. 4/- per doz.
- Digitalis lutea**, 3 ft., long stalks, with flowers of rich golden yellow, very effective. 6d each. 5/- per doz.
- Digitalis spotted varieties**, 4 ft., open-throated blossoms, handsomely spotted. 6d each. 5/- per doz.
- Digitalis mixed**, 3 ft. (Foxgloves), splendid subjects for semi-wild gardens. 2d each. 1/6 per doz.

The Highlands of Scotland has long been famed for producing the Hardest Trees and Plants in Britain. A Trial Order solicited.

HERBACEOUS PLANTS—continued.

Dondia epipactis, 6 ins., flowers of greenish-yellow in early spring. 6d each. 5/- per doz.

Doronicum caucasicum, 1½ ft., golden-yellow flowers, useful for cutting. 6d each. 5/- per doz.

Doronicum Glusii, 2½ ft., spring flowering plant, golden-yellow flowers. 4d each. 2/6 per doz.

Doronicum Columnae, 2 ft., Alpine perennial, flowers rich golden-yellow colour. 6d each. 5/- per doz.

Doronicum Harpur Crewe, 3 ft., yellow marguerite-like flowers. 6d each. 4/- doz.

Doronicum macrophyllum, 3 ft., light yellow, smaller than the others, very free. 6d each. 5/- per doz.

Doronicum Plantagineum excelsum, 3 ft., flowers slightly darker than Harpur Crewe. 6d each. 5/- per doz.

Dracopcephalum virginicum major, 3½ ft., spikes of deep rose-coloured flowers. 6d each. 5/- per doz.

Echinops ritro, 3 ft., splendid border plant, globular blue heads, very showy. 4d each. 3/- per doz.

Echinops sphærocephalus, 4 ft., large globular heads of pure white flowers. 6d each. 5/- per doz.

Echinops sphærocephalus major, 4 ft., similar to preceding, for shrubberies. 9d each. 7/6 per doz.

Echinops strictus, 4 ft., a blue-flowered variety, one of the best. 9d each. 7/6 doz.

Erigeron aurantiacus, 1 ft., bright orange, on single stems. 9d each. 7/6 per doz.

Erigeron glaucus, 1 ft., beautiful lavender colour, very showy. 9d each. 7/6 per doz.

Erigeron hybridus roseus, 1 ft., purple rose, with yellow centre. 9d each. 7/6 doz.

Erigeron philadelphicus, 1½ ft., rosy-purple, on slender stems, very free, showy. 6d each. 4/- per doz.

Erigeron pulchellus. 6d each. 5/- per doz.

Erigeron speciosum stenactis, 2½ ft., purple flowers with yellow centre. 6d each. 4/- per doz.

Erigeron speciosum superbum, 2½ ft., beautiful violet flowers with yellow centre. 4d each. 3/- per doz.

Erodium Manscavi, 1½ ft., umbels of purplish red flowers, border plant. 6d each. 5/- per doz.

Eryngium alpinum, 2½ ft. (Alpine Sea-Holly), thistle-like heads of flowers. 6d each. 5/- per doz.

Eryngium planum, 3 ft., lacinated foliage and leaves, flowers amethyst blue. 6d each. 5/- per doz.

Eupatorium aromaticum, 4 ft., hardy perennial, pure white flowers. 6d each. 5/- per doz.

Eupatorium purpureum, 6 ft., branching heads of purple flowers, free. 9d each. 6/- per doz.

Fennel, 2 ft., too well known to require description; leaves used for garnishing. 6d each. 4/- per doz.

Ficaria grandiflora, 6 in., yellow buttercup-like flowers, blooms in spring. 4d each. 3/- per doz.

Fuchsia gracilis, 4 to 6 ft., purple and scarlet flowers, vigorous grower. 9d each. 6/- per doz.

Fuchsia riccortonia, 4 to 6 ft., forms large symmetrical bushes, flowering profusely. 6d each. 4/- per doz.

Funkia culculata, fol. var., 1 ft., blue flowers, foliage margined with white. 6d each. 5/- per doz.

Funkia fortunei, 1 ft., heathery bluish-tinged leaves, spikes of pale-blue flowers. 6d each. 5/- per doz.

Funkia fortunei fol. var., 1 ft., fine spikes of blue flowers with yellow centre. 6d each. 5/- per doz.

Funkia marginata, 1 ft., deep green foliage, margined with pure white. 6d each. 5/- per doz.

Funkia Sieboldii, 1 ft., a bold ornamental sort, pale lilac flowers. 6d each. 5/- doz.

Funkia undulata fol. var., 1 ft., lilac flowers, elegantly striped foliage. 6d each. 5/- per doz.

Gaillardia grandiflora hybrida mixed, 3 ft., yellow flowers, bright crimson centre. 6d each. 4/- per doz.

Galega officinalis, 4 ft., neat racemes of pinky-blue flowers, freely produced. 6d each. 4/- per doz.

Galega officinalis alba, 4 ft., a very beautiful variety of preceding, pure white flowers. 6d each. 4/- per doz.

Galega orientalis, 3½ ft., blue flowers in long racemes, free flowering. 6d each. 5/- per doz.

Genista sagittalis, 1 ft., a peculiar dwarf plant, suitable for dry positions. 6d each. 5/- per doz.

Geranium armenium, 2 ft., rosy-purple flowers pencilled black. 6d each. 5/- per doz.

HERBACEOUS PLANTS—continued.

Geranium Endressi, 1 ft., rose coloured flowers in great abundance. 4d each. 3/- per doz.

Geranium ibericum, 2½ ft., rich purplish-blue flowers, deeply cut leaves. 6d each. 5/- per doz.

Geranium pratense plena, 2 ft., purplish-blue double flowered, good border variety. 6d each. 5/- per doz.

Geranium pratense alba, 2 ft., white, flowers with profusion, strong grower, 6d each. 5/- per doz.

Geum coccineum, 2 ft., bright dazzling scarlet flowers, excellent for cutting. 6d each. 4/- per doz.

Geum coccineum plenum, 2 ft., the flowers are double, lasting a long time. 6d each. 4/- per doz.

Gladiolus bizantinus, fine showy spikes of crimson-purple flowers. 2d each. 10d per doz.

Gladiolus blandus, exquisite flowers, flaked with rose, very showy and striking. 2d each. 1/8 per doz.

Gladiolus cardinalis, bright scarlet, very floriferous, a telling variety. 3d each. 1/8 per doz.

Gladiolus colvilli alba, pure white, excellent for cutting. 1d each. 8d doz.

Gladiolus colvilli alba, The Bride, medium sized flowers of the purest white. 2d each. 1/- per doz.

Gladiolus colvilli roseus, spikes of rose-coloured flowers, a pleasing sort. 3d each. 2/2 per doz.

Gladiolus nanus ackermanni, bright rosy-salmon, fading off to salmon-red. 2d each. 1/2 per doz.

Gladiolus nanus Crimson Queen, rich crimson-scarlet with maroon blotch. 2d each. 10d per doz.

Gladiolus nanus delicatissima, bright rose flowers with large white blotches. 6d each. 5/- per doz.

Gladiolus nanus, Pink Perfection, long spikes of satin pink, wonderfully pretty. 2d each. 10d per doz.

Gladiolus nanus, Salmon Queen, rosy-salmon, flaked magenta, maroon shading. 2d each. 1/10 per doz.

Gladiolus nanus, seedlings mixed, comprise many beautiful varieties. 1d each. 8d per doz.

Gypsophila paniculata, 2 ft., an effective plant, covered with white flowers. 3d each. 4/- per doz.

Gypsophila paniculata compacta, 1½ ft., a very compact formed variety. 6d each. 4/- per doz.

Helenium Bolanderi, 2 ft., clustered heads of yellow flowers with dark centre. 6d each. 5/- per doz.

Helianthemum pilaselloides, 6 ins., bright yellow flowers, continuous bloomer. 6d each. 5/- per doz.

Helianthus Buttaris, 4½ ft., flowers deep orange-yellow, compact plants. 6d each. 5/- per doz.

Helianthus doronicoides, 5 ft., bright golden-yellow flowers, excellent for cutting. 6d each. 4/- per doz.

Helianthus double, 4 ft., the well-known double perennial sunflower. 6d each. 5/- per doz.

Helianthus giganteus, 8 to 9 ft., enormous quantities of bright yellow flowers. 6d each. 4/- per doz.

Helianthus Hercules, 3 ft., continues blooming for a very long period. 6d each. 4/- per doz.

Helianthus multiflorus grand, plenus, Soleil d'or, 5 ft., double flowers of golden-yellow. 6d each. 4/- doz.

Helianthus maximus, 6 ft., immense yellow flowers; August and October. 6d each. 4/- per doz.

Helianthus rigidus, 3 ft., golden-yellow with dark centre, the most showy of all. 6d each. 4/- per doz.

Helianthus rigidus, Miss Mellish, 5 to 6 ft., semi-double orange flowers. 6d each. 4/- per doz.

Heliopsis laevis, 5 ft., orange-yellow flowers, darker orange centre. 6d each. 5/- per doz.

Heliopsis Pitcheriana, 3½ ft., orange-yellow flowers, fine for cutting. 9d each. 7/6 doz.

Helleborus albin Otta, 1½ ft., flowers snowy-white spotted with purple. 9d each. 6/- per doz.

Helleborus H. of Garton Inspector Hartwig, 1½ ft., rosy-purple, spotted and marked. 9d each. 6/- per doz.

Helleborus Professor Dr. Schieicher, 1½ ft., white, slightly tinged green. 9d each. 6/- per doz.

Helleborus F. C. Heinemann, 1½ ft., dark purple, shaded slate colour. 9d each. 6/- per doz.

Helleborus niger, 1 ft. (Christmas Rose), numerous large pure white flowers, 9d each. 6/- per doz.

WISEMAN, FOR RELIABLE, ELGIN TREES & PLANTS,

HERBACEOUS PLANTS—continued.

Hemerocallis disticha, 3 ft., rich orange-crimson flowers, showy. 6d each. 3/6 doz.

Hemerocallis disticha fl. pl., 3 ft., large double bronzy-yellow flowers. 6d each. 3/6 per doz.

Hemerocallis Dumortierii, 1½ ft., very ornamental, bright bronzy-yellow. 6d each. 3/6 per doz.

Hemerocallis flava, 3 ft., greatly admired, very fragrant, flowers of clear yellow. 6d each. 3/6 per doz.

Hemerocallis Kwanso fl. pl., 3 ft., large beautiful double flowers, rich bronze shade. 6d each. 5/- per doz.

Hemerocallis Kwanso fl. pl. fol. var., 3 ft. 9d each. 6/- per doz.

Hemerocallis Middendorffiana, 1 ft., deep orange-yellow flowers, very fine. 6d each. 4/- per doz.

Hemerocallis rutilans, orange-yellow, dwarf and compact. 6d each. 5/- doz.

Hemerocallis Sieboldii, similar to the latter, slightly paler in colour. 6d each. 5/- per doz.

Hemerocallis Thunbergii, 1½ ft., lovely canary-yellow flowers, pleasing display. 6d each. 3/6 per doz.

Heuchera ribifolia, 2 ft., a dark-leaved foliaged variety. 9d each. 7/6 per doz.

Heuchera sanguinea, 2 ft., flower spikes of a lovely coral red, exquisite for cutting. 6d each. 4/- per doz.

Hollyhock, superb double mixed, 6 ft., our stock of *Hollyhocks* is one of the finest. 1/- each. 9/- per doz.

Hollyhock, Apple Blossom, 6 ft., bright rosy-pink flowers. 1/- each. 9/- per doz.

Hollyhock, Canary Yellow, 6 ft., lovely flowers of primrose-yellow. 1/- each. 9/- per doz.

Hollyhock, cream, 6 ft., large flowers of perfect shape and good substance. 1/- each. 9/- per doz.

Hollyhock, crimson, 6 ft., glowing crimson blooms freely produced. 1/- each. 9/- doz.

Hollyhock, lilac, 6 ft., magnificent double blooms, splendid contrast to white. 1/- each. 9/- per doz.

Hollyhock, magenta, 6 ft., large bold blooms of perfect shape. 1/- each. 9/- doz.

Hollyhock, maroon, 6 ft., an excellent sort for lovers of dark varieties. 1/- each. 9/- per doz.

Hollyhock, rose, 6 ft., the flowers are extra large and of a brilliant deep rose colour. 1/- each. 9/- per doz.

Hollyhock, salmon-pink, 6 ft., charming flowers of large size, perfect form and good substance. 1/- each. 9/- per doz.

Hollyhock, scarlet, 6 ft., large double flowers of dazzling scarlet. 1/- each. 9/- per doz.

Hollyhock, white, 6 ft., large double flowers of purest white. 1/- each. 9/- per doz.

Hollyhock, double seedlings, choice mixed, 6 ft., magnificent strain, carefully saved. 6d each. 4/- per doz.

Horehound, 2 ft., this plant is well known for medicinal purposes. 6d each. 4/- doz.

Horminum pyrenaleum, 1 ft., alpine plant, bright purple-flowered spikes. 6d each. 5/- per doz.

Hyssop, an evergreen herb, cultured for the use of its flowers. 6d each. 4/- doz.

Iberis semperflorens, 9 ins., deliciously fragrant, pure white flowers. 4d each. 3/- per doz.

Iberis sempervirens, 9 ins., large snowy-white flowers, fine plant for rockery. 4d each. 3/- per doz.

Inula helenium, 6 to 8 ft., gigantic heads of bright golden-yellow flowers. 6d each. 5/- per doz.

Inula Hookeri, 2½ ft., large yellow flowers, very effective. 9d each. 7/6 per doz.

Inula Oculus Christi, 2 ft., golden-yellow, very fine. 9d each. 7/6 per doz.

Iris Ciengialti, large pale-blue flowers, dwarf habit, very distinct variety. 9d each. 6/- per doz.

Iris gigantea, flowers ivory-white, with orange base. 6d each. 5/- per doz.

Iris germanica atroviolacea, large deep violet flowers, very vigorous. 6d each. 5/- per doz.

Iris germanica bridesmaid, standards lavender and white, falls white and lilac. 6d each. 5/- per doz.

Iris germanica Comte de St. Claire, falls deep violet, bordered with white. 6d each. 5/- per doz.

Iris germanica cordelia, standards deep lavender, falls rich purple, tinged violet. 6d each. 5/- per doz.

Iris germanica coerulea, large very fine azure-blue flowers, very free flowering. 6d each. 4/- per doz.

Iris germanica delicatissima, white, heavily frilled blue. 6d each. 5/- doz.

Iris germanica Donna Maria, standards white, falls white, margined violet. 6d each. 4/- per doz.

HERBACEOUS PLANTS—continued.

Iris germanica Dr. Bernice, purple, reticulated with orange and white. 6d each. 5/- per doz.

Iris germanica Erica Edna, very large flowers of good form and substance. 6d each. 5/- per doz.

Iris germanica florentina alba, standards pure white, falls lavender. 3d each. 2/6 per doz.

Iris germanica Hericart de Thury, yellow bronze reflex, falls purplish. 6d each. 4/- per doz.

Iris germanica Judith, standards bronze, violet reflex, falls violet-crimson. 6d each. 4/- per doz.

Iris germanica Kochii, standards and falls rich claret-purple, very handsome. 6d each. 5/- per doz.

Iris germanica, Madame Chereau, white magnificently fuller, azure blue. 6d each. 4/- per doz.

Iris germanica, Madame Soutag, produces numerous enormous flowers. 6d each. 5/- per doz.

Iris germanica, Minerva, standards bronze, shaded violet, falls purple veined yellow. 6d each. 4/- per doz.

Iris germanica neglecta, fine flowers, pale lilac with darker falls. 6d each. 5/- doz.

Iris germanica odoratissima, standards lavender-blue, falls lavender. 6d each. 5/- per doz.

Iris germanica pallida colestina, free-flowering, pale blue flowers, very distinct. 6d each. 5/- per doz.

Iris germanica, Queen of May, flowers of soft rosy-pink. 9d each. 7/6 per doz.

Iris germanica, Silver King, flowers of rich silvery-white colour. 6d each. 5/- per doz.

Iris germanica, Yellow Gem, flowers of a rich golden-yellow. 6d each. 5/- per doz.

Iris germanica, very fine mixed, this includes all the finest named varieties. 6d each. 3/6 per doz.

Iris obliensis lutea, yellow, veins brown, compact and free flowering. 6d each. 5/- per doz.

Iris pumila azurea, flowers bright blue, very freely produced. 6d each. 5/- doz.

Iris pumila flavesceus, standards primrose, falls brown bordered with yellow. 6d each. 5/- per doz.

Iris pumila gracilis, flowers tall purple, tinged with greenish-yellow. 6d each. 5/- per doz.

Iris rhizomatous foetidissima, purple, succeeded by scarlet-berried seed. 6d each. 5/- per doz.

Iris rhizomatous kaempferi, a beautiful and singularly attractive class. 1d each. 9d per doz.

Iris kaempferi pyramidalis, very fine form of Japanese *Iris*. 6d each. 5/- doz.

Iris siberica, flowers of lilac-blue and violet, a lover of moist situations. 4d each. 2/6 per doz.

Iris siberica Ariel, long narrow foliage, flowers pale blue, very pleasing variety. 6d each. 5/- per doz.

Iris siberica alba, standards and falls white, veined pale lilac. 6d each. 5/- per doz.

Iris siberica coerulea, pretty pale blue or lilac flowers, vigorous grower. 6d each. 5/- per doz.

Iris siberica orientalis, broad leaves, very distinct form, with large deep blue flowers. 6d each. 5/- per doz.

Iris siberica parmanatica, produces in quantity handsome flowers. 6d each. 5/- per doz.

Iris siberica tridentata, large blooming kind, pale blue or lilac flowers. 6d each. 5/- per doz.

Iris siberica mixed, long grassy foliage, produced in erect tufts, flowers medium sized. 6d each. 4/- per doz.

Ixia crateroides major, 1½ ft., producing very effective starry flowers. 2d each. 1/6 per doz.

Ixia viridiflora, 1½ ft., peculiar shade of sea-green, with black centres. 9d each. 7/6 per doz.

Lamium maculatum, 6 ins., dwarf perennial, dark green foliage with white stripe. 6d each. 4/- per doz.

Lamium maculatum aureum, 6 ins., similar to preceding, foliage deep golden colour. 4d each. 3/- per doz.

Lathyrus latifolius, 4 to 6 ft., amongst the most useful hardy climbers. 6d each. 4/- per doz.

Lathyrus latifolius albus, 4 to 6 ft., a beautiful white variety, abundant bloomer. 6d each. 4/- per doz.

Liatris spicata, 1½ ft., large erect racemes of flowers of a purple-violet shade. 6d each. 5/- per doz.

Libertia pulchella, 1½ ft., graceful white spikes of flowers, useful for cutting. 9d each. 7/6 per doz.

The Highlands of Scotland has long been
famed for producing the Hardest Trees and
Plants in Britain. A Trial Order solicited.

HERBACEOUS PLANTS—continued.

Lilium candidum, 3 to 4 ft., its long spikes of snowy white flowers are unrivalled. 6d each. 5/- per doz.

Lilium croceum, 3 ft., the orange-lily is an old garden favourite. 1/- each. 9/- per doz.

Lilium longiflorum Harrisii, 2-3 ft., trumpet-shaped flowers, pure white, fragrant. 2/6 each. 21/- per doz.

Linaria dalmatica, 3 ft., large bright yellow flowers, glaucous foliage. 8d each. 6/- per doz.

Linum Narbonense, 1 ft., fine blue species of exquisite colour, drooping habit. 6d each. 4/- per doz.

Linum perenne album, 2 ft., numerous silvery-white flowers. 6d each. 5/- doz.

Lobelia Cardinalis, 2½ ft., showy herbaceous species, crimson-scarlet flowers. 6d each. 4/- per doz.

Lupinus arboreus, 5 ft., tree lupin, forming dense bushes covered with flowers. 6d each. 5/- per doz.

Lupinus polyphyllus, 3 ft., a very stately species, tall spikes of blue flowers. 6d each. 4/- per doz.

Lupinus polyphyllus albus, 3 ft., long white flower spikes. 6d each. 5/- per doz.

Lupinus polyphyllus Douglasii, 3 ft., various shades of pink, purple, blue, and white. 6d each. 4/- per doz.

Lupinus arboreus Snow Queen, 5 ft., a new white variety of tree lupin. 9d each. 8/- per doz.

Lychnis chalconica, 2 ft., dense heads of dazzling scarlet flowers. 3d each. 2/6 per doz.

Lychnis viscaria splendens, 1½ ft., spikes of beautiful deep rose-coloured flowers. 6d each. 3/- per doz.

Lychnis viscaria splendens plena, 1½ ft., large and double of a bright fiery rose. 6d each. 3/- per doz.

Lysimachia ephemerum, 2 ft., white flowers. 1/- each. 10/- per doz.

Lysimachia nummularia, 3 ins., producing an abundance of yellow flowers. 4d each. 3/- per doz.

Lythrum roseum superbum, 4 ft., spikes of rose-coloured flowers, very attractive. 6d each. 5/- per doz.

Malva moschata, 2 ft., rose-coloured flowers, very useful for cutting. 6d each. 4/- per doz.

Malva moschata alba, 2 ft., pure white fragrant flowers in summer. 6d each. 4/- per doz.

Marjoram Pot, 2 ft., this plant is cultivated for the use of its aromatic leaves. 6d each. 4/- per doz.

Marjoram Sweet, a favourite herb, employed for similar purposes as the preceding variety. 6d each. 4/- per doz.

Matricaria Double White, 1 ft., flowers of pure white, useful for cutting. 6d each. 5/- per doz.

Matricaria Golden Ball, 1 ft., double golden-yellow flowers, never fail to attract attention. 6d each. 5/- per doz.

Megasea (Saxifraga) cordifolia, 1 ft., shining green leathery round leaves. 6d each. 4/- per doz.

Megasea (Saxifraga) cordifolia atropurpurea, 1½ ft., leaves brown and crimson. 6d each. 4/- per doz.

Megasea (Saxifraga) crassifolia, 1 ft., pale rose-coloured flowers. 6d each. 4/- per doz.

Mentha crispata (Curled Mint), 2 ft., purple with coloured leaves. 6d each. 4/- doz.

Mentha peperita (Peppermint), 2 ft., very strong scented variety. 6d each. 4/- doz.

Mentha viridis (Spearmint), 2 ft., long narrow leaves, largely in request. 6d each. 4/- per doz.

Mint common, 2 ft., very large strong plants. 6d each. 4/- per doz.

Mimulus cardinalis, 1 ft., dazzling scarlet flowers freely produced. 6d each. 4/- doz.

Mimulus cupreus Prince Bismarck, 6 ins., a perfect gem, dwarf compact habit. 1/- each. 10/- per doz.

Monarda fistulosa Mollis, 3 ft., whorled heads of lilac-coloured flowers, very showy. 6d each. 5/- per doz.

Monarda purpurea, 3 ft., fragrant flowers of rich purple, most profuse bloomer. 6d each. 5/- per doz.

Montbretia Aurora, 2 ft., graceful spikes of deep orange-coloured flowers. 1/- each. 10/- per doz.

Montbretia crocosmæflora, 2 ft., fine bright orange-scarlet flowers. 6d each. 5/- per doz.

Montbretia Pottsi, orange-scarlet with coppery throat. 4d each. 3/- per doz.

Montbretia, choice mixed, 2 ft., this comprises the finest varieties. 6d each. 5/- per doz.

Myosotis alpestris, 9 ins., the well-known Forget-me-not, light blue flowers. 8d each. 2/- per doz.

HERBACEOUS PLANTS—continued.

Myosotis alpestris alba, 9 ins., beautiful white variety of preceding. 3d each. 2/- per doz.

Myosotis alpestris Victoria, 6 ins., clusters of large rich blue flowers. 3d each. 2/- per doz.

Myosotis palustris semperflorans, 9 ins., producing in quantity light blue flowers. 4d each. 2/- per doz.

Myosotis sylvatica, 6 ins., invaluable where large surfaces of bloom are required. 3d each. 2/- per doz.

Nepeta Massoni, 1 ft., light blue flowers produced in quantity. 6d each. 5/- doz.

Oenothera Fraserii (Evening Primrose), 1½ ft., leaves speckled and mottled. 6d each. 4/- per doz.

Oenothera fruticosa major, 1 ft., bright yellow flowers. 6d each. 4/- per doz.

Oenothera Lamarckiana, 3 ft., large spikes of handsome yellow flowers. 6d each. 4/- per doz.

Oenothera Youngii, 1½ ft., clusters of bright yellow flowers, free flowering. 6d each. 4/- per doz.

Omphalodes verna, 3 ins., fine blue with white flowers, splendid for naturalising. 6d each. 4/- per doz.

Omphalodes verna alba, 3 ins., pretty white Forget-me-not flowers. 6d each. 5/- per doz.

Orobis aurantius, 1½ ft., bright orange flowers, produced early in Spring. 6d each. 5/- per doz.

Orobis vernus, 1 ft., bushy tufts, with bluish-pink pea-shaped flowers, very showy. 4d each. 3/6 per doz.

Pæonies, fine named varieties, our collection includes all up-to-date sorts. 1/- each. 10/- per doz.

Papaver nudicaule, 1 ft. (Iceland Poppy), a very showy plant, bright yellow flowers. 4d each. 2/6 per doz.

Papaver nudicaule mixed, 1 ft., comprising a selection of finest colours. 2d each. 1/- per doz.

Papaver nudicaule miniatum fl. pl., 1 ft., a beautiful double-flowered variety. 4d each. 3/- per doz.

Papaver orientale, 3 ft., showy perennials, crimson and scarlet flowers. 4d each. 3/6 per doz.

Papaver orientale Blush Queen, 4 ft., flesh-pink colour, with dark purple blotch. 6d each. 5/- per doz.

Papaver orientale bracteatum, 3 ft., blood-crimson flowers with black blotch. 4d each. 3/- per doz.

Papaver orientale cambricum, 2 ft., brilliant scarlet flowers, very showy. 6d each. 5/- per doz.

Papaver orientale grandiflorum, 4 ft., scarlet flowers with dark blotches. 6d each. 5/- per doz.

Papaver orientale maculatum superbum, 3 ft., useful variety for borders. 6d each. 5/- per doz.

Papaver orientale Royal Scarlet, 3½ ft., a strong growing variety. 6d each. 3/- doz.

Papaver orientale Salmon Queen, 3 ft., bright salmon-scarlet flowers. 4d each. 3/- per doz.

Pennyroyal, 2 ft., a well-known herb, cultivated for the use of its leaves. 6d each. 4/- per doz.

Phalaris elegantissima, 1½ ft., a beautiful ornamental grass for borders. 6d each. 5/- per doz.

Phlomis Russelliana, 3 ft. (Jerusalem Sage), yellow flowers disposed in whorls. 6d each. 5/- per doz.

Phlox alpine, 3 ins., these little gems are exquisite furnishing for rockeries. 6d each. 4/- per doz.

Phlox decussata Abundance, rosy-violet, white eye, immense spikes. 9d each. 7/6 per doz.

Phlox decussata Aquilon, carmine-rose, large crimson centre. 6d each. 5/- doz.

Phlox decussata Atala, shaded rose, large white centre, of the finest form. 9d each. 7/6 per doz.

Phlox decussata Aurora, salmon-scarlet, purple eye, enormous spikes of large flowers. 6d each. 5/- per doz.

Phlox decussata Captain Wilhelmy, ruby with blood-red centre. 6d each. 5/- doz.

Phlox decussata Coquelicot, orange-scarlet, purple centre, brilliant and effective. 9d each. 7/6 per doz.

Phlox decussata Eclairer, semi-dwarf, enormous flowers, carmine suffused primrose, centre salmon-rose. 9d each. 7/6 doz.

Phlox decussata Embrassement, salmon-scarlet, purple eye, enormous flowers. 9d each. 7/6 per doz.

Phlox decussata Eugene Danzanvilliers, rosy lilac, white eye, grand variety. 6d each. 5/- per doz.

Phlox decussata Henri Murger, purest white, large crimson centre, very fine. 9d each. 7/6 per doz.

WISEMAN, FOR RELIABLE ELGIN TREES & PLANTS,

HERBACEOUS PLANTS—continued.

Phlox decussata Iris, blush-violet, blue centre, large flowers of perfect form. 6d each. 5/- per doz.

Phlox decussata Jocelyn, fiery-orange, immense spikes. 9d each. 7/6 per doz.

Phlox decussata Lady of the Lake, light salmon-pink, crimson centre. 6d each. 5/- per doz.

Phlox decussata La Veige, purest white perfect flower, dwarf, splendid spike. 9d each. 7/6 per doz.

Phlox decussata Lumineux, rose suffused carmine, white centre, large and good. 9d each. 7/6 per doz.

Phlox decussata Madame Breteuil, rosy salmon on purple eye. 6d each. 5/- doz.

Phlox decussata Mdle. Maisoneaux, white, rose centre, a very fine variety. 6d each. 5/- per doz.

Phlox decussata Mrs. Kinghorn, light rosy lilac, crimson eye. 9d each. 7/6 doz.

Phlox decussata Mr. Gladstone, satin rose, bright red eye. 6d each. 5/- doz.

Phlox decussata Mozart, rosy salmon flowers, large blood-red centres. 6d each. 5/- per doz.

Phlox decussata Opera, scarlet, very effective. 6d each. 5/- per doz.

Phlox decussata Pantheon, rosy salmon, enormous flowers, finest form and substance. 6d each. 5/- per doz.

Phlox decussata Pyramid, pure white, large spikes of grand flowers. 9d each. 7/6 per doz.

Phlox decussata Suffrage, orange salmon, with large rose eye, extra fine. 9d each. 7/6 per doz.

Phlox decussata Toreador, rosy salmon, fine exhibition variety. 6d each. 5/- doz.

Phlox setacea atropurpurea, 3 ins., masses of foliage, purplish rose-coloured flowers. 6d each. 4/- per doz.

Pinks, Alice Lee, white mule variety, very early. 4d each. 3/- per doz.

Pinks, Anne Boleyn, rosy purple, a useful border variety. 4d each. 3/- per doz.

Pinks, Albino, large white, very fine. 6d each. 5/- per doz.

Pinks, Gipsy Queen, white, crimson centre. 4d each. 3/- per doz.

Pinks, Her Majesty, immense flowers of the purest white. 4d each. 3/- per doz.

Pinks, Mrs. Sinkins, a beautiful hybrid pure white clove, large double. 4d each. 3/- per doz.

Pinks, Paddington, flowers of deep rose, with dark purple centre. 4d each. 3/- doz.

Polyanthus, Giant Crimson, 9 ins., large flowers of a rich dark crimson colour. 3d each. 2/- per doz.

Polyanthus, Giant Yellow, 6 ins., exquisite flowers of golden yellow. 4d each. 3/- per doz.

Polyanthus, Gold Laced, 9 ins., beautiful show flowers, of fine forms and rich colour. 4d each. 3/- per doz.

Polyanthus, mixed seedlings, 9 ins., very fine class of well-known plants. 3d each. 2/- per doz.

Potentilla, single atrosanguinea, 1½ ft., producing bright crimson flowers. 9d each. 7/6 per doz.

Potentilla, single rupestris, 1½ ft., numerous white strawberry-like flowers. 6d each. 5/- per doz.

Potentilla, single yellow, 1½ ft., charming flowers of bright yellow. 6d each. 5/- doz.

Primrose, common yellow, 6 ins., exquisite flower of charming simplicity. 2d each. 1/6 per doz.

Primrose, double Sulphur Yellow, ½ ft., free flowering, large flowers of good form. 6d each. 5/- per doz.

Primrose, double white, 1½ ft., large and fine, very free, useful for cutting. 6d each. 4/- per doz.

Primrose Hybrids, mixed, ½ ft., splendid collection, containing many colours. 2d each. 1/6 per doz.

Primrose, new blue, of recent introduction, rich purple flowers. 9d each. 6/- doz.

Primrose, double platypetala plena, ½ ft., deep violet, often produced in trusses. 4d each. 3/6 per doz.

Primrose, Polyanthus Rex Theodore, ½ ft., handsome double dark bloom. 10d each. 8/- per doz.

Primrose, single white, very showy in woods, &c. 2d each. 1/6 per doz.

Primrose, virginia, 4 ins., large flowers of pure white, grand for bedding. 3d each. 2/- per doz.

Primula rosea, ½ ft., rosy-carmine flowers with yellow centres. 6d each. 5/- doz.

Primula scotica, 3 ins., small rosettes with bright purple flowers on stems 2 ins. high. 1/- each. 9/- per doz.

Pulmonaria officinalis variegata, 1 ft., a hardy class of plants for sun or shade. 6d each. 5/- per doz.

Pyrethrum, single, A. M. Kelway, bright rose, very fine. 6d each. 5/- per doz.

HERBACEOUS PLANTS—continued.

Pyrethrum, single, Bardolph, flesh colour. 6d each. 5/- per doz.

Pyrethrum, single, Comet, fine white. 6d each. 5/- per doz.

Pyrethrum, single, Dagon, dark crimson. 6d each. 5/- per doz.

Pyrethrum, single, Elsie Gertrude, pale flesh, very large. 6d each. 5/- per doz.

Pyrethrum, single, Esmeralda, cherry, white ring. 6d each. 5/- per doz.

Pyrethrum, single, Favourite, rosy pink (new), very fine, a splendid acquisition. 1/- each. 9/- per doz.

Pyrethrum, single, Heroine, flesh coloured, very fine. 6d each. 5/- per doz.

Pyrethrum, single, Jubilee, rich deep carmine, one of the best, a profuse bloomer. 9d each. 7/6 per doz.

Pyrethrum, single, Margaret Moore, flesh colour, fine shaped flower. 6d each. 5/- per doz.

Pyrethrum, single, Millicent, pure white, fine. 6d each. 5/- per doz.

Pyrethrum, single, Mrs. Bateman Brown, rich crimson, very large and free. 9d each. 7/6 per doz.

Pyrethrum, single, Oliver Twist, cream colour, petals like a Cactus Dahlia. 6d each. 5/- per doz.

Pyrethrum, single, Princess Marie, pure white, large and very beautiful. 9d each. 7/6 per doz.

Pyrethrum, single, Raphana, cherry rose. 6d each. 5/- per doz.

Pyrethrum, double, Alfred, rich crimson, broad and massive. 9d each. 7/6 per doz.

Pyrethrum, double, Aphrodite, pure white, superb variety. 9d each. 7/6 doz.

Pyrethrum, double, Captain Nares, bright crimson, extra fine. 9d each. 7/6 per doz.

Pyrethrum, double, Carl Vogt, pure white, large, and grand form. 1/- each. 9/- per doz.

Pyrethrum, double, Cleopatra, yellow and white. 6d each. 5/- per doz.

Pyrethrum, double, Lady Derby, silver flesh. 6d each. 5/- per doz.

Pyrethrum, double, La Vestale, white tinted lilac, flambriated. 6d each. 5/- doz.

Pyrethrum, double, Le Dante, bright rose, tinged orange. 6d each. 5/- per doz.

Pyrethrum, double, Lord Rosebery, rich carmine, one of the finest. 9d each. 7/6 per doz.

Pyrethrum, double, Melton, bright, but deep crimson, richest colour of all. 1/- each. 9/- per doz.

Pyrethrum, double, Nemesis, red, shaded orange. 6d each. 5/- per doz.

Pyrethrum, double, Roseum Plenum, rose and white. 6d each. 5/- per doz.

Pyrethrum, double, Solfaterra, creamy yellow. 9d each. 7/6 per doz.

Pyrethrum, double, Vance, cream, tinged fleshed. 6d each. 5/- per doz.

Pyrethrum, double, Vicomtesse Card-will, bright pink. 6d each. 5/- per doz.

Pyrethrum, uliginosum, 5 ft. (Autumn Marguerite), large white flowers with profusion. 4d each. 3/6 per doz.

Ranunculus acris, fl. pl., 2 ft., clear double yellow flowers, very useful for cutting. 4d each. 3/- per doz.

Ranunculus speciosus plenus, 1 ft., large double yellow flowers, for cutting. 6d each. 4/- per doz.

Ranunculus, best French, mixed, 1 ft., these are extremely effective in beds. 1d each. 6d per doz.

Rosmarium officinalis, 2 ft., the foliage is used for making Rosemary Tea. 6d each. 4/- per doz.

Rudbeckia californica, 4 ft., golden-yellow flowers, with conspicuous conical disc. 6d each. 4/- per doz.

Rudbeckia golden glow, 5 ft., very showy plant, flowers bright yellow. 6d each. 4/- per doz.

Rudbeckia laciniata, 5 ft., large deeply-cut leaves, flowers pale yellow. 6d each. 5/- per doz.

Rudbeckia nitida, 4 ft., a beautiful hardy variety, with large yellow daisy-like flowers. 9d each. 7/6 per doz.

Rue, 2 ft., well-known medicinal herb, the leaves emit a powerful odour. 6d each. 4/- per doz.

Sage, broad leaved, 2 ft., the uses of sage for culinary purposes are well known. 6d each. 4/- per doz.

Salvia argentea, 3 ft., large silvery foliage, beautiful blue flowers. 6d each. 5/- per doz.

Santolina incana, 1½ ft., a dwarf evergreen shrub with silvery grey foliage. 4d each. 3/6 per doz.

Saponaria caucasica, fl. pl., 2 ft., beautiful double heads of pink and rose. 6d each. 5/- per doz.

Saponaria officinalis, fl. pl., 2 ft., beautiful white double flowers. 6d each. 4/- doz.

The Highlands of Scotland has long been famed for producing the Hardest Trees and Plants in Britain. A Trial Order solicited.

HERBACEOUS PLANTS—continued.

Savory Winter, 2 ft., cultivated for its aromatic tops, used in culinary preparations. 6d each. 4/- per doz.

Saxifraga Andrewsii, $\frac{1}{2}$ ft., white flowers, and neat green toothed leaves. 6d each. 4/- per doz.

Saxifraga apiculata cristata, 4 ins., very robust heads of primrose flowers. 6d each. 5/- per doz.

Saxifraga ceratophylla, 6 ins., covered in summer with a profusion of white flowers. 4d each. 3/- per doz.

Saxifraga cordifolia, 6 ins., large panicles of rose-coloured flowers. 6d each. 5/- doz.

Saxifraga lingulata, 6 ins., long leaves with immense spikes of white flowers. 6d each. 5/- per doz.

Saxifraga muscoides, 3 ins., purplish-coloured flowers, slightly tinged yellow. 4d each. 3/- per doz.

Saxifraga muscoides atropurpurea, 3 ins., purple-flowered variety of preceding. 6d each. 5/- per doz.

Saxifraga oppositifolia splendens, 3 ins., clear rose blossoms, intensely brilliant. 6d each. 4/- per doz.

Saxifraga palmata, 6 ins., belongs to the mossy section, pure white flowers. 6d each. 5/- per doz.

Saxifraga Rhel, 6 ins., mossy hillocks of foliage, flowers lovely pink. 6d each. 5/- per doz.

Saxifraga tenella, 4 ins., forming tufts of delicate green, having a tinge of yellow. 6d each. 5/- per doz.

Saxifraga umbrosa, 6 ins., the well-known and favourite London Pride. 4d each. 3/- per doz.

Saxifraga Wallacesii, 4 ins., a lovely white-flowered sort, very free. 4d each. 2/6 per doz.

Scabiosa caucasica, 3 ft., should be grown by everyone, flowers soft pale blue. 6d each. 5/- per doz.

Sedum acre aureum, 3 ins., forming in spring a "Cloth of Gold" carpet. 6d each. 5/- per doz.

Sedum acre campestre, 3 ins., an exquisite variety of stonecrop, for edging. 6d each. 5/- per doz.

Sedum glaucum, 3 ins., covered in summer with milky white flowers. 6d each. 5/- doz.

Sedum glaucum aureum, 3 ins., a lemon-coloured sport from preceding. 6d each. 5/- per doz.

Sedum Kantschaticum, 8 ins., a dwarf prostrate plant, with broad leaves. 6d each. 5/- per doz.

Sedum lydium, 4 ins., glabrous evergreen, excellent for rockwork, pinkish flowers. 6d each. 5/- per doz.

Sedum Maximowiczii, 4 ins., an erect variety with yellow flowers. 6d each. 5/- per doz.

Sedum monstrosum, 9 ins., yellow flowered, this very soon forms a carpet. 6d each. 5/- per doz.

Sedum pulchellum, 3 ins., flowers rosy-purple, a very distinct and pretty variety. 6d each. 5/- per doz.

Sedum rhodiola variegata, 6 ins., flowers greenish or reddish-purple. 6d each. 4/- per doz.

Sedum Sieboldii, 8 ins., round glaucous leaves and neat arching stems. 6d each. 5/- per doz.

Sedum spectabile, $1\frac{1}{2}$ ft., handsome glaucous round leaves, rosy-purple flowers. 6d each. 5/- per doz.

Sedum spurium, 8 ins., rosy-pink flowers on rosy stems. 6d each. 4/- per doz.

Senecio aquiticus, 7 ins., large heads of yellow flowers on stout stems. 6d each. 5/- per doz.

Senecio doricum, $1\frac{1}{2}$ ft., beautiful golden-yellow flowers, excellent for cutting. 6d each. 5/- per doz.

Senecio japonica, 3 ft., large branching heads of bright yellow. 6d each. 5/- doz.

Sibthorpia europea, a pretty miniature creeper, suitable for rockwork. 9d each. 8/- per doz.

Sidalcea candida, $2\frac{1}{2}$ ft., pure white flowers, an abundant bloom. 6d each. 4/- per doz.

Sidalcea malvæflora, $2\frac{1}{2}$ feet, dense spikes of deep rose-coloured flowers. 6d each. 5/- per doz.

Sisyrinchium Bermudianum, $1\frac{1}{2}$ ft., blue flowers from grassy tufts, free bloomer. 6d each. 4/- per doz.

Solidago canadensis, 3 ft., bright golden-yellow flowers and single branches. 8d each. 6/- per doz.

Solidago procera variegata, 3 ft., long plumes of golden-yellow flowers. 6d each. 5/- per doz.

Solidago virgaurea nana, $1\frac{1}{2}$ ft., dwarf variety, large handsome plumes. 6d each. 5/- per doz.

Sorrel, large leaved, 2 ft., leaves are used in salads. 6d each. 4/- per doz.

HERBACEOUS PLANTS—continued.

Spiraea aruncus, 4 ft., majestic plumes of creamy white in summer. 7d each. 6/- doz.

Spiraea Astilboides floribunda, 2 ft., a fine species, distinct, flowers snow-white. 6d each. 4/6 per doz.

Spiraea filipendula fl. pl., 2 ft., fern-like leaves, cluster of white double flowers. 4d each. 3/- per doz.

Spiraea Humboldtii, an extremely rare species with white flower. 1/3 each. 12/- per doz.

Spiraea japonica, 2 ft., graceful plant for pot culture. 6d each. 4/- per doz.

Spiraea japonica compacta multiflora, $1\frac{1}{2}$ to 2 ft., far superior to preceding. 6d each. 3/6 per doz.

Spiraea macrophylla, $3\frac{1}{2}$ ft., large feathery plumes of creamy white flowers. 9d each. 6/- per doz.

Spiraea palmata, 2 ft., clusters of rosy-crimson flowers, freely produced. 6d each. 3/6 per doz.

Spiraea palmata alba, 2 ft., a pure white variety. 6d each. 4/- per doz.

Spiraea palmata rosea, flowers rose, freely produced. 6d each. 4/- per doz.

Spiraea ulmaria fl. pl., $2\frac{1}{2}$ ft., robust growing, useful for cutting. 6d each. 5/- per doz.

Stachys lanata, 1 ft., a most useful plant for edging, with white woolly leaves. 4d each. 3/- per doz.

Statice incana, 1 ft., beautiful red and white flowers, very ornamental. 6d each. 5/- per doz.

Statice latifolia, 2 ft., a strong border kind with large leaves and branching stems. 6d each. 5/- per doz.

Sweet William, choice mixed, $1\frac{1}{2}$ ft., flowers of various rich and brilliant colours. 2d each. 1/- per doz.

Symphytum officinalis aurea marginata, $3\frac{1}{2}$ ft., effective plant for lines. 8d each. 6/- per doz.

Tanacetum vulgare crispum (Tansy), 2 ft., foliage beautifully crisped and curled. 4d each. 3/- per doz.

Tarragon, 2 ft., this popular herb is largely employed in flavouring vinegar. 6d each. 4/- per doz.

Telekia speciosa, 4 ft., fine heads of large golden-rayed star-shaped blossoms. 6d each. 5/- per doz.

Thalictrum adiantifolium, 1 ft., a beautiful and graceful plant, exquisite foliage. 6d each. 5/- per doz.

Thalictrum angustifolium, 3 ft., plumes of yellow flowers, handsome foliage. 6d each. 5/- per doz.

Thalictrum flavum glaucum, 4 ft., a valuable plant for border or shrubbery. 9d each. 7/6 per doz.

Thalictrum minus, 1 ft., its fern-like foliage is always in request. 6d each. 5/- per doz.

Thyme, Common, 6 ins., pretty rock plants, very fragrant foliage. 6d each. 5/- per doz.

Thyme, Golden Variegated, 6 ins., a little variety, with golden variegated leaves. 6d each. 5/- per doz.

Thyme, Lemon, 6 ins., beautiful little plant, very effective for rockwork. 8d each. 6/- per doz.

Thymus lanuginosus, 3 ins., for planting among little spring-flowering bulbs. 6d each. 4/- per doz.

Thymus serpyllum album, 3 ins., forming dwarf green carpets, white flowers. 6d each. 4/- per doz.

Thymus serpyllum coccineum, 3 ins., dark green creeping foliage. 6d each. 5/- per doz.

Thymus serpyllum vulgare, 6 ins., dark green foliage, flowers rosy-purple. 3d each. 2/- per doz.

Tiarella cordifolia, 9 ins., long erect plumes of feathery-white flowers. 6d each. 5/- per doz.

Tradescantia virginica alba, $1\frac{1}{2}$ ft., very desirable, lovely pure white flowers. 6d each. 5/- per doz.

Tradescantia virginica alba major, $1\frac{1}{2}$ ft., large flowering white sort. 6d each. 4/- per doz.

Tradescantia virginica coerulea, $1\frac{1}{2}$ ft., blue flowered sort, very fine. 6d each. 5/- per doz.

Tradescantia virginica rosea, $1\frac{1}{2}$ ft., flowers of a pleasing shade of rose. 4d each. 3/6 per doz.

Tradescantia virginica rubra, $1\frac{1}{2}$ ft., deep crimson flowers, very showy. 6d each. 4/- per doz.

Tradescantia virginica rubra plena, $1\frac{1}{2}$ ft., double flowers of deep carmine. 6d each. 4/- per doz.

Tradescantia virginica violacea, $1\frac{1}{2}$ ft., flowers of a rich deep violet. 6d each. 5/- per doz.

WISEMAN, FOR RELIABLE TREES & PLANTS, ELGIN

HERBACEOUS PLANTS—continued.

- Trifolium alpestre*, 2 ft., creeping rock plant, prettily marked foliage. 6d each. 5/- per doz.
- Trillium grandiflora*, 1 ft., dark green leaves, snowy-white flowers. 6d each. 4/- per doz.
- Tritoma Corallina*, 2 ft., brilliant scarlet, shading to orange. 1/- each. 10/- doz.
- Tritoma John Benary*, 4 ft., large bright scarlet flowers, very free flowering. 1/- each. 10/6 per doz.
- Tritoma Pfitzeri*, 4 ft. brilliant crimson flowers, extra fine spikes, a really first-class variety. 1/- each. 10/6 per doz.
- Tritoma Rooperi*, 3 ft., orange-scarlet flowers, yellow tips. 1/- each. 10/6 doz.
- Tritoma uvaria grandiflora*, 4 ft., large spikes of rich crimson and orange. 1/- each. 10/6 per doz.
- Trollius asiaticus*, 2 ft., foliage and stems dark, bright orange colour, in profusion. 6d each. 4/- per doz.
- Trollius europæus*, 2 ft., flowers of lemon-yellow, excellent for naturalising. 4d each. 2/6 per doz.
- Trollius fortunei*, 2 ft., single flowers of a very bright golden-yellow. 1/- each. 9/- per doz.
- Trollius fortunei plena*, 2 ft., a double-flowered form of preceding. 1/- each. 9/- per doz.
- Trollius intermedius*, 2 ft., pale yellow flowers in great profusion. 6d each. 5/- per doz.
- Trollius napellifolius*, 2 ft., spherical flowers of orange-yellow. 4d each. 3/- doz.
- Trollius patulus albus*, 2 ft., creamy-white flowers, very showy and effective. 6d each. 5/- per doz.
- Valerian Phu-aurea*, 2 ft., free-flowering perennials, shoots of a bright yellow. 4d each. 2/6 per doz.
- Veronica amethystina*, 1½ ft., spikes of brilliant blue flowers. 6d each. 5/- doz.
- Veronica austriaca*, 1½ ft., spikes of blue flowers in late summer. 6d each. 5/- doz.
- Veronica austriaca alba*, 2½ ft., white flowers, free-flowering. 6d each. 5/- doz.
- Veronica gentianoides*, 1½ ft., handsome blue flowers, very showy. 4d each. 3/- doz.
- Veronica hybrida*, 2½ ft., long spikes of deep blue flowers, exceedingly showy. 9d each. 7/6 per doz.
- Veronica incana*, 2 ft., spikes thickly set with deep blue flowers. 6d each. 4/- doz.
- Veronica longifolia*, 3 ft., flowers of a deep rich blue. 6d each. 4/- per doz.
- Veronica longifolia subsessilis*, 2 ft., a strong and vigorous sort, dark blue spikes. 6d each. 5/- per doz.
- Veronica prostrata*, 4 ins., dwarf blue flowers, excellent rock or edging plant. 6d each. 5/- per doz.
- Veronica repens*, 1 in., covered in the summer with creamy-white flowers. 6d each. 4/- per doz.
- Veronica rupestris*, 3 ins., a most beautiful prostrate kind with brilliant blue spikes. 4d each. 3/6 per doz.
- Veronica Satureifolia*, 1½ ft., blue flowers borne on long spikes. 6d each. 5/- doz.
- Veronica siberica*, 2 ft., long upright spikes of blue flowers. 6d each. 5/- per doz.
- Veronica spicata*, 1 ft., dwarf branching spikes of blue flowers. 4d each. 3/6 per doz.
- Veronica virginica alba*, 3 ft., long upright spikes of beautiful white flowers. 9d each. 6/- per doz.
- Viola Accushla*, pure white, purple pencillings, very free-flowering. 2d each. 1/6 per doz.
- Viola Abercorn Beauty*, primrose, much admired as an exhibition flower. 2d each. 1/6 per doz.
- Viola Admiration*, deep purple self, flowering profusely, and one of the best. 2d each. 1/6 per doz.
- Viola Blue Cloud*, white, heavily edged blue, an improved Skylark. 2d each. 1/6 per doz.
- Viola Bullion*, bright golden-yellow, slightly rayed in centre, very free bloomer. 2d each. 1/6 per doz.

HERBACEOUS PLANTS—continued.

- Viola Charm*, soft lilac-lavender, a pure rayless self, very robust. 2d each. 1/6 per doz.
- Viola Cherry*, creamy-white, with broad purple margin, much admired as a bedder. 2d each. 1/6 per doz.
- Viola Devonshire Cream*, cream self with orange eye, good habit. 2d each. 1/6 doz.
- Viola Duchess of Fife*, primrose, distinctly edged with blue, fine for bedding. 2d each. 1/6 per doz.
- Viola Florizel*, a lovely blush-lilac, the best of this sort, a splendid bedder. 2d each. 1/6 per doz.
- Viola Golden Pillrig*, a very rich deep golden-yellow, one of the most profuse bloomers. 2d each. 1/6 per doz.
- Viola Goldfinch*, yellow, with a pale purple edging, indispensable for bedding. 2d each. 1/6 per doz.
- Viola Goldfinder*, a magnificent variety, with blooms of rich golden-yellow, of immense size. 2d each. 1/6 per doz.
- Viola J. B. Riding*, deep mauve self, good bedder. 2d each. 1/6 per doz.
- Viola Lavender King*, beautiful shaded bluish-lavender, vigorous and free, very fine variety. 2d each. 1/6 per doz.
- Viola Lord Elcho*, deep orange-yellow, dwarf, fine. 2d each. 1/6 per doz.
- Viola Mars*, large blooms of creamy-white, a perfect competition flower. 2d each. 1/6 per doz.
- Viola Mauve Queen*, beautiful mauve colour, free-flowering. 2d each. 1/6 doz.
- Viola Rosea Pallida*, blush-lilac self, profuse bloomer, perfect habit. 2d each. 1/6 per doz.
- Viola Skylark*, white, edged all round with blue, very attractive and pretty. 2d each. 1/6 per doz.
- Viola Sylvia*, pure rayless white, good form, very free. 2d each. 1/6 per doz.
- Viola The Mearns*, rich plum, upper petals edged white, very pleasing variety. 2d each. 1/6 per doz.
- Viola Tory*, pale indigo blue, dark blotch, extra fine. 2d each. 1/6 per doz.
- Viola White Duchess*, white, edged blue, tufted, free. 2d each. 1/6 per doz.
- Viola White Perfection*, pure white flowers, faintly pencilled. 2d each. 1/6 doz.
- Viola William Neil*, pale rose-pink, a good bedder, and very distinct. 2d each. 1/6 per doz.
- Viola*, named varieties, our selection.—This selection comprises all the foregoing. 2d each. 1/- per doz.
- Violet Admiral Avelian*, reddish-crimson, large and sweet scented. 6d each. 5/- doz.
- Violet Comte de Brazza*, double pure white. 9d each. 7/6 per doz.
- Violet odorata Marie Louise*, 3 ins., double flowered, blooms of a clear mauve colour. 6d each. 5/- per doz.
- Violet odorata Neapolitan*, 3 ins., double pale lavender. 6d each. 4/- per doz.
- Violet odorata, The Czar*, 3 ins., large deep violet flowers, very fragrant. 6d each. 4/- per doz.
- Wallflower, Blood Red*, 1½ ft., free-flowering, very deep crimson colour. 2d each. 1/- per doz.
- Wallflower, Cloth of Gold*, 1½ ft., flowers are very large and of a bright yellow. 2d each. 1/- per doz.
- Wallflower, Golden Tom Thumb*, 9 ins., very dwarf and compact variety. 2d each. 1/- per doz.
- Wallflower, Sulphur Yellow or Primrose Dame*, 9 ins., dwarf and compact. 2d each. 1/- per doz.
- Wallflower, Tom Thumb, Nankin Yellow*, 9 ins., yellow, an exquisite variety. 2d each. 1/- per doz.
- Wallflower, Double, German mixed*, 2 ft., highly appreciated, showy flower spikes. 3d each. 2/- per doz.
- Watsonia, fine mixed*, 1½ ft., bulbous plants of stately appearance. 6d each. 5/- per doz.
- Wormwood*, 2 ft., a well-known medicinal herb, leaves are intensely bitter. 6d each. 4/- per doz.

Table Fruit is marked T., Culinary Fruit K. The figures in brackets give the months the fruit is in season, as Apple Adam's Pearmain (12-2) is in use from December to February.

Adam's Pearmain.

T. (12-2). Medium size, of conical shape, green-yellow, streaked red and russet; juicy and crisp; a good dessert variety.

Alfriston.

K. (11-3). One of the largest and best culinary apples; large roundish green, streaked with russet.

Beauty of Bath.

T. (8-9). New variety; medium flat, yellow, flushed red; first rate quality; a good bearer.

Beauty of Kent.

T.K. (10-2). Fruit large, deep yellow, slightly tinged green and red on the shaded side; entirely covered deep red on the side next the sun; flesh yellow.

Blenheim Orange.

T.K. (10-2). Large roundish yellow, slightly tinged red; sweet, juicy and excellent; a first rate apple, suitable for either kitchen or dessert.

Braddick's Nonpareil.

T. (12-3). Medium size, flat, slightly angular, of a green and bronze russet colour; sweet and aromatic; a heavy cropper; first rate either as a standard or a pyramid.

Bramley's Seedling.

K. (1-5). Very large, green, streaked red, acid, very excellent; a vigorous grower and a free cropper. R.H.S.

Cellini.

T.K. (9-10). An exceptional handsome conical apple; yellow, shaded red; tender and juicy and an attractively refreshing aroma; very free.

Court of Wick.

T. (10-3). Small, conical, pale yellow streaked with red with russet; juicy and highly flavoured; first rate either as a pyramid or standard.

Cox's Orange Pippin.

T. (10-1). Fruit medium size, roundish, pale yellow marked red; crisp, juicy, and sweet; of the highest excellence.

Cockle Pippin.

T. (1-4). Fruit medium size, oval shape, pale green with russet spots; rich, juicy, pleasant aroma.

Devonshire Quarrenden.

T. (9-10). Fruit small, skin smooth and shining, of deep purple red; flesh white, sometimes stained red; crisp and juicy; succeeds almost everywhere.

Dumelow's Seedling.

K. (11-4). Large pale green with a tinge of pale red on the sunny side; flesh yellowish white, firm, crisp and juicy.

Duchess of Oldenburg.

T.K. (9). Fruit large, greenish yellow, streaked bright red; flesh firm and crisp; an early dessert or culinary variety, and a good bearer.

Ecklinville.

K. (10-12). Large and flat, straw coloured, flushed crimson, whitish flesh, abundant and regular bearer; first rate in quality.

Fearn's Pippin.

T.K. (11-2). Medium, flat, greenish yellow, marked with bright red; juicy, sweet and rich; excellent.

Golden Spire.

K. (9-10). A large bright yellow conical apple, crisp, juicy, rich; good grower and bearer; makes a fine pyramid.

Golden Noble.

K. (10-12). Large handsome variety, good bearer and grower; very distinct; round, clear pale yellow; tender and pleasantly acid.

Hawthornden.

K. (9-10). Fruit large, skin deep yellow with greenish tinge when ripe; rich yellow on the shaded side, and where exposed to the sun slightly tinged with red; an abundant bearer.

Henniker.

K. (10-1). Very large oblong yellow colour streaked with crimson; flesh very tender and juicy, of good flavour and delicately perfumed.

Irish Peach.

T. (8). Medium sized, round, flattened and angular; red, spotted yellow; juicy and tender; a good bearer; one of the best summer apples; should be eaten off the tree.

James Grieve.

T. (9-10). A first rate bearer, of fine flavour; it succeeds where Cox's is tender. This is of recent introduction, and may be called an early Cox's orange.

Kerry Pippin.

T. (9-10). Small oval fruit, skin smooth and shining, greenish yellow streaked with red; firm, crisp and early.

Keswick Codlin.

K. (8-10). An immense bearer and succeeds in almost every soil and situation; rather large, conical and singular; pale yellow, juicy.

King of the Pippins.

T. (10-1). Medium, oblong, green-yellow, streaked with red; very free and juicy; an excellent dessert variety.

Lady Sudeley.

T. (8-9). Large, very handsome, orange striped red, with a soft melting flesh.

Lane's Prince Albert.

T.K. (1-3). Large very handsome fruit, greenish yellow, faintly striped crimson; very prolific whilst young, yet a good grower and continuous bearer; makes a splendid pyramid tree.

Lord Suffield

K. (8-9). Fruit large, skin smooth, greenish yellow, sometimes flushed slightly on the exposed side; flesh white, tender and firm; early.

The Highlands of Scotland has long been famed for producing the Hardest Trees and Plants in Britain. A Trial Order solicited.

APPLES—continued.

Lord Grosvenor.

K. (8-10). Large, fine quality; transparent skin, fine for exhibition; a very hardy tree and most abundant cropper; in many respects similar to Lord Suffield, but does not canker.

Lord Derby.

K. (11-12). Large fruit, skin smooth and shining, dark green, streaked russet; a free-bearing valuable marked variety.

Loddington Seedling.

K. (9-1). Very large, round, angular, pale green, flushed; an excellent and very prolific variety.

Mere de Menage.

K. (10-3). A handsome useful culinary apple, skin red, streaked all over with darker red; flesh firm, crisp, and juicy; late keeper.

Mr Gladstone.

T. (8). The earliest dessert apple; of medium size, bright scarlet, flesh tender and juicy, very sweet and highly flavoured; a very prolific variety.

Northern Greening.

K. (11-4). Fruit large green, sub-acid; a first rate variety and an abundant bearer.

Oslin Pippin.

T. (8-9). Medium size, flat, firm, orange-yellow, speckled with russet; crisp, highly aromatic; a good cropper.

Pineapple Russet.

T. (9-10). Medium, round, angular, light grey, flaked russet; crisp and very juicy, with aromatic perfume.

Pott's Seedling.

K. (10-1). A fine large kitchen apple, very hardy and admirably adapted for the north; makes a fine tree; an abundant cropper.

Red Astrachan.

T.K. (8-9). Fruit large, beautifully red cheeked; flesh white, crisp and juicy; best off the tree.

Ribston Pippin.

T. (10-1). Medium size, roundish yellow striped with red; crisp and rich,

excellent; perhaps the most popular and best known of all dessert apples.

Ringer

K. (9-12). Large, oblong, pale yellow, tender, juicy, with a brisk acidity; great height.

Scarlet Nonpareil.

T. (1-3). Medium size, roundish, green, with deep red next sun; crisp, juicy and rich; a first rate dessert apple.

Sturmer Pippin.

T. (2-6). Small green russet, bronzed on the sunny side; firm, crisp, and rich; a fine late dessert apple.

Stirling Castle.

K. (10-12). Fruit large, skin clear pea-green changing to a pale yellow, slightly flushed on the sunny side; a valuable kitchen apple.

The Queen.

K. (11-3). Large, flat, greenish yellow, somewhat streaked; tender and juicy with a mild acidity; an abundant bearer.

Tower of Glamis.

K. (10-1). Large, excellent bearer, deep sulphur yellow; good as a standard; fruit stands gales well; grows freely.

Warner's King.

K. (9-10). Very large, oval, pale green changing to yellow; tender, juicy and acid; good kitchen variety.

Wellington.

K. (11-4). A large and excellent variety, one of the most useful of culinary apples; a strong grower and excellent bearer; pale green, occasionally flushed red; firm and sharply acid.

Worcester Pearmain.

K. (9-10). Conical shape, of medium size, brilliant red, very tender and juicy; one of the best garden and marketing varieties.

Yorkshire Beauty.

K. (10-12). Large straw yellow, flushed bright red; flesh tender; a very heavy cropper, justly valued, especially in the north.

The figures in brackets give the months the fruit is in season, as Cherry Archduke (8) is in use in August.

Archduke.

(8). Large fruit, pale red to black, very tender, sweet, and juicy; rich flavour; succeeds well as a pyramid.

Black Eagle.

(7). A strong and vigorous grower, medium sized, fruit of deep purple; very rich and juicy.

Early Rivers.

(6). An exquisite variety with large black fruit; sweet and agreeably flavoured; flesh tender; very early.

Elton.

(7). One of the best and most productive of cherries; large, pale yellow, dotted red juicy and luscious; a very strong and vigorous grower.

Governor Wood.

(7). Prolific bearer; very large pale yellow fruit, tender fleshed, juicy and sweet.

Kentish.

(7-8). An excellent culinary variety; medium size, clear deep red, turning

almost black when left hanging; tender and very brisk.

Knight's Early Black.

(7). A free grower and abundant bearer; large fruit of a dull red colour, almost black; tender, juicy, and richly flavoured.

Late Duke.

(8). Produces large fruit in great abundance of a bright red colour; flesh amber, tender, juicy and rich.

May Duke.

(7). A splendid variety for forcing, and prolific cropper; large red fruit of excellent flavour.

Morello.

(7-8). A first-rate kitchen sort, the best of all for preserving; tree very hardy; abundant bearer; one of the most profitable grown for market purposes, especially in the north. Fruit deep red, flesh pinkish red.

DAMSONS

Bush Trees, 1/6 each.

Standards, 1/6 each.

Crittenden.

Produces beautiful fruit in clusters with great profusion; excellent for preserving; true damson flavour.

Shropshire.

A large sort, producing oval fruit; a prolific bearer and a strong robust grower. A good variety for culinary purposes.

EUGENIA UGNI

Somewhat resembling a Black Currant in flavour.

Plants in Pots, 3/- each.

FIGS

In Pots—2/6, 5/-, 7/6 each, according to size.

Brown Turkey.

Large fruit, purplish with bluish bloom, juicy and deliciously flavoured; an abundant cropper.

Brunswick.

Very large, of pale brown colour;

opaline flesh, very rich; an excellent sort.

Castle Kennedy.

Large roundish fruit of green-yellow colour, of first-rate quality; hardy, but not a very free bearer.

Table Fruit is marked T.; Culinary Fruit, K. The figures in brackets give the months the Fruit is in season, as Pear Beurre Bachelier (12) is in use in December.

Beurre Bachelier.

T. (12). Large and irregular, buttery, melting, sugary, and highly aromatic; forms a remarkably fine pyramid.

Beurre d'Amanlis.

T. (9-10). One of the finest autumn pears; tree very hardy and prolific, with a vigorous growth; fruit tender and melting, with an abundance of juice.

Beurre de Capiaumont.

T. (10). A medium-sized pear with pure white, sweet, buttery, melting flesh; very hardy and prolific; succeeds well as a standard.

Beurre Diel.

T. (10-11). A large showy fruit of good quality; bears well as a standard.

Beurre de Mortillet.

T. (8-9). Large fruit of yellow colour, streaked with russet; flesh pure white and of excellent quality.

Beurre Rance.

T. (3-5). Large fruit with dark green skin, juicy and luscious; one of the best late pears; requires a wall in the north.

Beurre Sterckmans.

T. (12-1). Large fruit, buttery, melting, juicy and rich; very fine variety.

Beurre Superfin.

T. (10). Medium sized fruit with russet skin; one of the richest flavoured and most beautiful of pears; healthy and free.

Catillac.

K. (12-4). A large round baking pear, flesh white and crisp; a good bearer and of vigorous growth; one of the best culinary varieties.

Doyenne d'Ete.

T. (7). Small size but remarkably handsome, of a beautiful lemon colour; the very best early pear.

Doyenne du Comice.

T. (11-12). Large, the best all round pear in cultivation; flesh, very tender and buttery and of excellent flavour; a heavy cropper and a strong grower.

Early Crawford.

T. (8). The earliest Scotch variety; small pale yellow, flesh sweet and juicy; very hardy and productive.

Easter Beurre.

T. (1-3). A hardy pear for wall or standard; buttery, melting, and very juicy; one of the best late varieties; likes a rich well-drained soil.

Fertility.

T. (10). Fruit of medium size with a bright russet skin; flesh crisp and sweet; a constant and prolific bearer; a valuable market variety.

Gansel's Bergamot.

T. (10-2). Medium size, of roundish form; a highly aromatic pear; re-

quires a wall excepting in warmer positions; it is very shy when young.

Hessle (Hazel).

T. (10). This variety succeeds well in northern countries, where it is extensively cultivated for market purposes; fruit greenish yellow, under medium size; flesh tender.

Jargonelle.

T. (8). This is a well-known dessert pear. The fruit is large and tender; against a wall it succeeds almost anywhere; the best of its season.

Louise Bonne of Jersey.

T. (10). Medium size, yellow with a crimson cheek; flesh buttery and melting; a handsome and excellent variety; does well as a standard.

Magnate.

T. (10-11). Skin yellow, crimson and brown streaked on the sunny side, juicy and melting; tree hardy and vigorous; thrives well on quince.

Marguerite Marillat.

T. (9-10). Large handsome fruit, with a distinct flavour, melting and luscious. This is a new continental variety and is a decided acquisition.

Marie Benoist.

Very large russet-coloured fruit of fine flavour, and one of the best late kinds, and worthy of extensive cultivation.

Marie Louise.

T. (10-11). Large, green turning to yellow when ripening; flesh delicate and buttery; one of the best varieties for walls, but the best-flavoured fruit is obtained from standards.

Ne Plus Meuris.

T. (1-3). Small fruit; a prolific bearer, and can safely be relied upon as a late table pear of excellent flavour.

Pitmaston Duchesse.

T. (11-12). This is the largest melting pear known; of a pale lemon colour, dotted over with patches of russet; flesh white, melting, and of fine quality, with a profusion of juice.

Souvenir du Congres.

T. (8-9). Remarkably handsome fruit, juicy and melting; one of the best early and heavy cropping varieties.

Thompson's.

T. (10-11). A short medium-sized pear of a pale lemon colour coated with russet; very juicy and sweet; hardy and free bearing.

Triomphe de Vienne.

T. (9). A large fine-flavoured pear of a russet colour; very free growing; this is a very fine variety.

Verulam.

K. (1-3). This is a good stewing variety, and in some seasons is fit for table use; it is of vigorous growth, and forms a handsome tree.

The Highlands of Scotland has long been famed for producing the Hardest Trees and Plants in Britain. A Trial Order solicited.

PEARS—continued.

Vicar of Winkfield.

K. (12-1). A very large stewing pear with delicious musky odour, cropping very prolific.

William's Bon Chretien.

T. (8-9). This is a well-known pear; flesh tender and melting, aromatic and delicious; one of the finest pears;

should be gathered before it turns yellow; tree hardy and prolific.

Winter Nelis.

T. (11-2) Fruit rather small, fine-grained, buttery, sweet and very delicious; the tree is quite hardy, and a most abundant cropper.

Table Fruit is marked T.; Culinary Fruit, K. The figures in brackets give the months the Fruit is in season, as Plum Belgian Purple (8) is in use in August.

Belgian Purple.

T.K. (8). Medium deep purple with a fine bloom; sweet and rich; a heavy cropper.

Belle de Septembre.

K. (10). Large violet-red, spotted yellow; juicy and sweet; excellent culinary plum, suitable for preserving.

Coe's Golden Drop.

T.K. (9-10). Very large pale yellow, with dark red spots; one of the best; keeps well and hangs late.

Cox's Emperor.

T.K. (9). Large dark red with yellow flesh; vigorous grower, and a prolific bearer.

Denniston's Superb Gage.

T. (8). Large round, yellowish green; strong gage flavour; an exquisite plum of splendid habits; free, and a constant bearer.

Diamond.

K. (9). One of the best for culinary purposes; large dark purple, flesh firm, with a strong agreeable flavour.

Early Prolific.

K. (8). A good and reliable cropper, very useful for market; fruit medium size, deep purple, sweet and juicy.

Early Transparent Gage.

T. (9). Large greenish yellow, mottled with red, skin nearly transparent, flesh firm, very juicy, with a rich sweetness.

Goliath.

K. (9). Large fruit of a rich purplish red colour; free growing and good; thrives best in a warm soil.

Grand Duke.

T.K. (10). Very large oval fruit, purplish black, very fine flavour, prolific, best late variety for culinary purposes.

Greengage.

T. (9). One of the richest plums; medium size, yellowish green; it has the highest merits as a dessert plum.

Ickworth Imperatrice.

T. (10). Large, purple streaked with yellow; tender and juicy, delicious flavour; will hang on the bush till it shrivels.

Jefferson.

T. (9). This is one of the largest and finest table plums we have; rich, golden fruit; slightly red on the side exposed to the sun; healthy and free.

Kirke's.

T. (9). A delicious plum, dark purple with yellow dots; fine dense bloom; this variety is rather a backward bearer unless root pruned.

Lawson's Golden Gage.

T. (8). A beautiful golden yellow plum of heavy producing abilities; thrives well in the north.

Magnum Bonum White.

K. (9). This is an excellent kitchen variety, with very large pale yellow fruit; should be largely grown for market purposes.

Monarch.

T.K. (9). This is a heavy cropper, and not liable to crack in wet weather; large purplish black fruit, oval shape; one of the finest varieties of recent introduction.

Orleans.

T.K. (8). Medium size, purple, tender, sweet; a very useful sort for market; prized for its earliness; it is suitable for the table when fully ripe.

Oullin's Golden Gage.

T. (8). Handsome and delicious flavoured plum with large greenish yellow fruit; dotted crimson next the sun; thrives best in a firm soil.

Pond's Seedling.

K. (9). Large oval fruit of bright red, heavy bearer and vigorous grower; excellent for late market work.

Prince Englebert.

T.K. (9). A very productive and fine market variety; fruit large, purple, sweet and juicy, hangs very late.

Purple Gage.

T. (9). This plum should be allowed to hang on the tree till it shrivels, when it is very fine; fruit medium size, light purple, free stone.

River's Prolific.

K. (7). An abundant bearer, fruit medium size oval, purple; the earliest market plum, and one of the richest flavoured when cooked.

The Czar.

T.K. (8). A splendid constant cropper, fruiting in clusters; reddish purple; a great acquisition to marked varieties; may be grown on a north wall.

Victoria.

T.K. (8-9). This is a very well-known sort with bright red oval fruit; one of the most prolific and best in cultivation, being at home anywhere; none suits better in the market; when others fail this frequently crops.

Washington.

T.K. (9). Hardy, strong growing and free bearing sort; large, deep yellow fruit; rich and luscious flavour.

PEACHES

	Our Selection.		Purchaser's Selection.	
	Each.	Doz.	Each.	Doz.

The figures in brackets give the month the Fruit is in season, as Peach Alexander (7) is in use in July.

WISEMAN, FOR RELIABLE, ELGIN TREES & PLANTS,

PEACHES—continued.

Alexander

(7). A popular early American variety, skin yellow, nearly scarlet next the sun; juicy and brisk in flavour; forces exceedingly well.

Crawford's Early.

(8) One of the finest early sorts, fruit very large, tender, and melting.

Dymond.

(9). Very large and beautiful, yellowish green fruit, slightly flushed red; very juicy and highly flavoured; quite hardy; a heavy bearer.

Early Beatrice.

(7) One of the earliest, and admirably adapted for outdoor culture on a wall; fruit medium, melting and very juicy.

Early Grosse Mignonne.

(9). Large pale yellowish green, marbled red, deep brownish red on the sunny side; flesh melting, very rich, suitable both for indoors and outside.

Early Silver.

(8). This requires a warm situation; very large cream with slight blush, melting and rich.

Early York.

(8). An improved early, not liable to mildew; medium-sized fruit, marbled red; one of the finest for forcing; sets well; a prolific bearer.

Hale's Early.

(8). This sort forces well and is largely grown for market; fruit medium, beautifully flushed with crimson, juicy and delicious; succeeds well against a wall.

Stirling Castle.

(9). Very superior for forcing; medium size with skin marked red; melting, brisk flavour; the finest variety of all for a wall.

Waterloo.

(7). The largest and best flavoured of all early peaches for outdoor culture; large pale green fruit, with a bright red cheek; tender flesh.

QUINCE—PORTUGAL

4/- dozen.

RASPBERRIES

Our Selection, 2/3 per doz.

Purchaser's Selection, 2/6 per doz.

Baumforth's Seedling.

Large crimson of fine flavour, remarkable for its vigorous and productive canes; foliage dark green; one of the best.

Carter's Prolific.

A strong grower and heavy cropper; large, deep red fruit with firm flesh; a good old round sort; dwarf habit.

Fastolf.

Large and well-flavoured fruit of a bright purplish red; a good grower and great bearer.

Hornet.

Rich crimson fruit of delicious flavour, firm-fleshed, a free grower, and an abundant bearer.

Superlative.

A handsome dessert fruit, perfect form, of a rich deep red, delicious flavour, sweet and full; one of the strongest growers and most prolific bearers.

White Antwerp.

Pale yellowish white, fruit conical shape, sweet flavoured, an old favourite, useful for dessert and jellies.

STRAWBERRIES

All Varieties, 2/6 per 100.

British Queen.

Very large, pale red, flesh firm, white and juicy; no variety is superior to this in flavour.

Dr. Hogg.

Very large, pale red, very fine British Queen flavour, hardy and prolific; deliciously sweet and melting.

Elton Pine.

A very free growing main crop variety, fine brisk flavour, heavy cropper, sturdy plants.

John Ruskin.

Large, rich, shining red fruit of fine flavour; a splendid early variety; hardy and heavy cropper; succeeds well in the north.

King of the Earlies.

Medium size, flesh white, tinged with pink under the skin; fine rich pine flavour; very early.

La Grosse Sucree.

This is a very early sort, and a continuous bearer; also suitable for forcing; large, pale, glossy red fruit, slightly acid.

Latest of All.

This is the largest late strawberry yet introduced; of vigorous habit and good foliage; rich crimson fruit of delicious flavour; flesh white; drought resisting.

Noble.

Very large and handsome, early, colour bright crimson-scarlet, flesh firm; very hardy, vigorous, and most prolific.

President.

A heavy cropper, succeeding well everywhere; crimson, very firm, and of superior flavour; we consider this the best for cottagers.

Royal Sovereign.

A very fine early variety, possessing a rich vinous flavour; the fruit is very large and conical shape, flesh firm and white; we cannot speak too highly of this.

Sir Jos. Paxton.

A well known sort, and one of the best for main crop; bright shining red fruit, highly flavoured and possessing a good constitution.

Vicomtesse Hericart de Thury.

A very productive sort; fruit deep scarlet; flesh pale, sweet and rich; a most useful early variety.

STRAWBERRY-RASPBERRY

A Visit to our Nurseries

Is always a pleasure to us, and, we think, to the visitor also. Anyway we always welcome visitors, whether they purchase or not, and we pride ourselves that our various nurseries (all situate in Elgin and connected by 'phone) will repay a visit of inspection. Indeed, beyond the pleasure, they possess a certain educational value, every tree and plant being correctly named with large labels in bold letters.

If you *come*, you will meet with every courtesy.

If you *write*, your letter will receive most careful attention.

Fleurs Nursery

Is situated at west end, between Pluscarden Road and Highland Railway. Entrance from Pluscarden Road or Mayne Road. Stock here consists chiefly of

Large Specimen Trees, Ornamental Trees, Climbing Plants, Fruit Trees and Buches, and Rhododendrons.
